Working With Students With Disabilities Vicki A. McGinley, Barbara C. Trolley, 2015-09-14 Working with Students with Disabilities Preparing School Counselors by Vicki A McGinley and Barbara C

Trolley is an essential tool for all school counselors in training and in practice with the aim to provide a comprehensive approach to working with students with disabilities in a school setting. As more students with disabilities are being included, school counselors need to have a fundamental understanding of the terminology, laws, principles, collaboration, assessment measures, and psycho-social diversity issues associated with special education. This book continues in the trend of providing sound, evidenced-based knowledge with practical case examples and guided exercises, making the material come alive and fostering critical thinking. Finally, a book FOR school counselors that specifically addresses the needs of students with disabilities and how we can interface with the team in supporting these students. Nona Cabral, California Baptist University.

McGinley and Trolley have brought together in one exceptional volume the vast material that modern school counselors often leave the classroom searching for: how to understand the complexities of the system in regards to students with special needs; how to best collaborate with professionals and families in meeting those needs; and how to best structure interventions and programs to move those students forward across social, emotional, and academic realms. Carrie Lynn Bailey, Georgia Southern University.

McGinley and Trolley have crafted a text that illuminates the multifaceted responsibilities of school counselors relevant to special education. Faculty, graduate students, and practicing counselors alike will find the problem-based learning approach a helpful guide for integrating the content covered in this text into their professional practice. Kylie P. Dotson, Blake East Carolina University.

Special education students are frequently the most marginalized group on school campuses. *Working with Students with Disabilities: Preparing School Counselors* points to ways school counselors can open pathways for creating a learning community that supports all students. Rolla E. Lewis, California State University, East Bay.

The Cambridge Handbook of Applied School Psychology Frank C. Worrell, Tammy L. Hughes, Dante D. Dixon, 2020-09-17. Practice books are often simple how-to lists or straightforward recipes, and the practitioner still does not know why the activity is related to the outcome they seek. In essence, they lose how the specifics of the practice are related to the theory of change or the theory of how the problem developed in the first place. This leads to practitioners potentially removing crucial elements of best practice procedures when making modifications to tackle new or different problems in an unfamiliar context. By understanding the theoretical underpinnings, practitioners can better plan for adjustments because they know how the outcomes they seek are informed by the theory. Engagingly written and perfect for day-to-day use, this book translates state-of-the-art research and interdisciplinary theory into practical recommendations for those working with children and adolescents.

Deaf and Hard of Hearing Multilingual Learners Joanna Cannon, Caroline Guardino, Peter Paul, 2022-03-14. This critical resource provides foundational information and practical strategies for d/Deaf or hard of hearing d/DHH multilingual learners. These learners come from backgrounds where their home languages differ from the dominant spoken or sign languages of the culture. This book is a one-stop resource for professionals, interventionists, and families, helping them to effectively support the diverse needs of d/DHH multilingual learners by covering topics such as family engagement, assessment, literacy, multiple disabilities,

transition planning and more The book provides vignettes of learners from 25 countries discussion questions and family centered infographic briefs that synthesize each chapter Deaf and Hard of Hearing Multilingual Learners is a groundbreaking step towards better supporting the many languages and cultures d Dhh students experience in their lifetimes through strength based and linguistically responsive approaches
