Philosophy, Who Needs It? Jason D. Crowder, 2016-03-02 Too often skeptics charge Christians with having a blind faith Unfortunately believers have added fuel to the charges of skeptics by speaking of their faith illogically But the Christian faith is not a blind faith In fact biblical faith is

never a blind irrational faith Christianity rests firmly on the stone that was rejected by the builders which has become the cornerstone Jesus Christ Acts 4 11 Living biblically requires thinking biblically just as to think biblically entails to live biblically as Winfried Corduan notes in the Foreword As followers of Christ believers cannot separate biblical thinking and biblical living These two behaviors are eternally connected not only in the person of Jesus Christ but they stem from the eternal being of God the Father and his eternal truth Christ mandates that his followers love God with their entire being heart soul mind and strength Mark 12 30 How are believers to go about living out this biblical mandate Christian faith is a warranted belief This is why it is so essential that Christians recognize the value and importance of philosophy and its proper place in Christendom and in the Christian s walk **How Philosophers Argue** Fernando Leal, Hubert Marraud, 2022-02-21 This volume presents a double argumentative analysis of the debate between Bertrand Russell and Frederick Copleston on the existence of God It includes an introduction justifying the choice of text and describing the historical and philosophical background of the debate It also provides a transcript of the debate based in part on the original recording The argumentative analyses occupy Parts I and II of the book In Part I the argumentative process is analysed by means of the ideal model of critical discussion the workhorse of pragma dialectics Part I shows how the two parties go through the four stages of a critical discussion It highlights the questions raised over and beyond the presiding question of whether God exists and examines almost a hundred questions that are raised Many are left in the air whereas a few others give rise to sundry sub discussions or meta dialogues In Part II the theoretical framework of argument dialectic is put to work argument structures are identified by means of punctuation marks argumentative connectors and operators allowing to see the argumentative exchange as the collaborative construction of a macro argument Such a macro argument is both a joint product of the arguers and a complex structure representing the dialectical relationships between the individual arguments combined in it Finally the complementarity of the two approaches is addressed Thus the book can be described as an exercise in adversarial collaboration *The Trauma of Doctrine* Paul Maxwell, 2021-01-12 The Trauma of Doctrine is a theological investigation into the effects of abuse trauma upon the experience of Christian faith the psychological mechanics of these effects their resonances with Christian Scripture and neglected research informed strategies for cultivating post traumatic resilience Paul Maxwell examines the effect that the Calvinist belief can have upon the traumatized Christian who negatively internalizes its superlative doctrines of divine control and human moral corruption and charts a way toward meaningful spiritual recovery Artificial Intelligence, Sustainable Technologies, and Business Innovation: Opportunities and Challenges of Digital Transformation Abdalmuttaleb Al-Sartawi, Hasan Ghura, 2025-03-26 This book offers a comprehensive exploration of the symbiotic relationship between artificial intelligence sustainable technologies and business innovation Innovation has always been the main engine of an improved standard of living throughout history However the process of innovation can be highly disruptive as it makes more conventional technologies obsolete This book presents trendy

and important topics such as open innovation and sustainability of Islamic Banks Fintech financial inclusion IOT business intelligence capabilities innovation through AI circular economy practices and trends in cybersecurity The reader base from diverse backgrounds including scholars industry experts policymakers and students engage with the perspectives and topics discussed in this book By understanding the opportunities and challenges of this dynamic landscape the authors can collectively work together to shape a future where technology and sustainability co exist to drive positive change

Using Science In Cybersecurity Leigh Barnes Metcalf,Jonathan M Spring,2021-04-16 Deploying the scientific method in cybersecurity today is a common sense approach that is a tough topic in the field of cybersecurity While most publications in the field emphasize that scientific principles are necessary there are very few if any guides that uncover these principles This book will give readers practical tools for cybersecurity It examines the path of developing cybersecurity foundations while taking into account uncertain data Extensive examples demonstrate how to deploy cybersecurity to sort our day to day problems Using Science in Cybersecurity is intended for advanced undergraduate and graduate students researchers and practitioners in the fields of cybersecurity information security and science of cybersecurity

Truth Claims in a Post-Truth World Erkan Ali,2023-08-18 Drawing on debates from a multi disciplinary perspective this book examines what it means to offer a genuine sociological critique of religious faith illiberalism and anti secularism from a macro perspective Arguing that as a discipline concerned with real issues in the social world sociology should be at the forefront of any analysis of religious power and legitimacy the author contends that much religious faith is fundamentally incompatible with any twenty first century society that seeks inclusive utilitarian and humanistic principles as its goals With an emphasis on sociology the effects of organised religion s overall decline in modern Western contexts are explored while the troubling re emergence or persistence of faith based and other non evidentiary perspectives is also discussed via debates around identity politics postmodernism and multiculturalism Through an analysis of the rise of irrational thinking in our politics and our entire social and cultural fabric the book moves to conclude that religious beliefs and other forms of dogmatism are underpinned by powerful influential and potentially dangerous ideological structures at various levels of society and that viable secular alternatives to faith teachings ought to be nurtured in their place A critique of religion that advances modern secular humanistic thought Truth Claims in a Post Truth World will appeal to scholars of sociology social theory and philosophy with interests in religion political thought ethics and civil society
