Kill Jihadis Strike Daesh Islamic:

The Red Sea Region between War and Reconciliation Shaul Shay, 2019-08-02 The Red Sea is one of the world's most important trade routes a theater of power struggle among local regional and global powers Military and political developments continue to impact on the geostrategic landscape of the region in the context of its trade thoroughfare for Europe China Japan and India freedom of navigation is a strategic interest for Egypt and essential for Israel's economic ties with Asia Superpower confrontation is inevitable China the US France Japan and Saudi Arabia have military bases in Djibouti US strategy seeks to curb Chinese economic influence and Russian political interference in the region through diplomacy and investment And at the centre of US alliances is the war on terror still prevalent in the Middle East and East Africa Islamic terror groups Al Shabaab in Somalia and Kenya Al Qaeda of the Arab Peninsula in Yemen and the Islamic State in Egypt The civil war in Yemen has become the arena for Iran and Saudi Arabia's struggle for regional hegemony Saudi Arabia's Sunni Arab coalition have been fighting Iranian backed Shiite Houthi rebels to a stalemate December 2018 In 2016 Egypt ceded Saudi Arabia the Tiran and Sanafir Islands the narrow sea passages between the Sinai and Arabian peninsulas giving control of the entire length of the Red Sea This and other perceived positive geostrategic developments have to be offset by the nuclearization of the Red Sea basin directed in part by Russian foreign policy and the dangers of multiple country military deployments in the hubs of radical Islam and terrorism potential A stable future for the region cannot be taken for granted And as alliances shift and change so will Israel's foreign policy and strategic partnerships have to adjust *Jihad in Central Asia* Musa Khan Jalalzai, 2020-06-18 The four Central Asian States Kyrgyzstan Tajikistan Kazakhstan and Uzbekistan security agencies and government have adopted several law and order measures to effectively fight against radicalization but some states failed to intercept the infiltration of the ISIS militants from Afghanistan into the region The power structures social institutions and local authorities of the Central Asian states are unable to work with radical Islamic groups The prospect of nuclear terrorism in Central Asia and possibly in Russia is crystal clear The risk of a complete nuclear device falling into the hands of terrorists will cause consternation in the region Nuclear terrorism remains a constant threat to global peace Access of terrorist organizations to nuclear material is a bigger threat to civilian population These are some of the issues discussed in the book The issues are based on well researched papers by eminent authors on the subject *The Islamic State of Khorasan and the Prospect of Nuclear Jihad against Russia and Central Asia* Musa Khan Jalalzai, 2020-02-07 Daesh is worse than the Taliban which is now trying to bring a new ideology as Daeshism which is anti Islam This book brings out the alarming situation of presence of Daesh in Pakistan and its expanding activities It serves the international community as a reminder the role they need to play in crushing this monster *The Caliphate at War* Ahmed Hashim, 2018-02-01 ISIS's astonishing and unexpected military victories in 2014 and 2015 redrew the geopolitical map of the Middle East Media attention focused on the organisation's savage treatment of its enemies and its ability to attract foreign fighters but as this

dispassionate book demonstrates it also made important innovations in strategy ideology and governance Ahmed S Hashim argues that by focusing their ideology first and foremost on extreme anti Shia sectarianism rather than on Western infidels ISIS founders were able to present themselves as the saviours of what they saw as the embattled Sunni nation in Iraq This enabled them to win the support of Sunni communities Moreover ISIS stunning ability to take major cities was a result of its innovative tactics It sowed terror in advance of its attacks by using targeted assassinations to kill key city leaders and its decentralised regional command structure facilitated an unusual degree of coordination between small assault units At the same time the organisation made a serious effort to engage in state building and population control By going beyond the often starkly unpleasant current affairs of the Islamic State The Caliphate at War undertakes an essential investigation into the successes of the group to better understand how the movement has survived thrived and reshaped the Middle East

Recruitment, Propaganda and Branding Anna Kruglova, 2022-08-05 This book analyses the marketing techniques that terrorist organisations employ to encourage people to adopt their ideology and become devoted supporters The book's central thesis is that due to the development of digital technologies and social media terrorist groups are employing innovative marketing techniques and advertising strategies to foster an emotional connection with their audiences particularly those in younger demographics By conducting thematic and narrative analyses of Islamic State of Iraq and Syria ISIS propagandist magazines as well as looking at the group's online communities the book demonstrates that terrorist groups behave as commercial brands by establishing an emotional connection with their potential recruits Specifically groups and their potential supporters follow the logic of emotional choice The book emphasizes that while ISIS became the first group that discovered and benefited from the power of marketing it did not have a supernatural power and thus it is

possible to find a response to it which is particularly important now The book eventually poses a question about whether terrorism has become the product of marketing in the same way as any mainstream consumer product is and asks what can we do to battle the appeal of marketing savvy terrorist groups This book will be of interest to students of terrorism studies radicalisation and propaganda communication and security studies **Freedom of Religion or Belief** Paul T. the first two decades of the millennium were focused on controlling West Asia and North Africa's energy resources. For most, the collapse of the Soviet Union in 1991 signaled the victory of the self-denominated Free World. Why the West Can't Win, however, addresses how events in the three following decades signal the end of a millennium of West European expansionism: a plundering and oppression initially labeled Crusades when the popes embodied political power morphing into colonialism; then to the Free World when colonialism went out of fashion post World War II; and at last to the International Community after the collapse of the Soviet Union. This book's geopolitical analysis includes a historical overview, an understanding of the financial systems established at the Bretton Woods conference that continue dominating the global economy, how they are used as a powerful geopolitical instrument, an economic analysis based on real goods production, global energy dynamics, alliances and strategies of key global players. It addresses the emerging division of the world into two geopolitical groups: Western Europe, North America, Australia, New Zealand, and Africa; Asia and Latin America. The current global geopolitical clash is in essence a struggle between the colonial powers wishing to preserve the Bretton Woods system that allows siphoning wealth of nations and sovereign nations striving for independence and an end to a millennium of oppression. This work compares the geopolitical forces since the turn of the millennium with a view to providing insight into their relative strengths and the likely outcome of this struggle.

Insecurity Communities of South Asia and the Middle East Majid Sharifi, 2020-11-10. This book critically examines how US foreign policy has produced a regional regime of instability and insecurity in South Asia and the Middle East. It focuses on three interconnected zones of conflict: Afghanistan and Pakistan in South Asia; Iran and the Persian Gulf states and Iraq and its neighbours. In a comprehensive historical survey, this work compares the governing behaviour of these states with that of the West, where the American foreign policy establishment has in contrast pushed for investing in collective security. The author studies various events throughout history, such as the Taliban regime, the US-led war in Afghanistan, the Obama administration and Pakistan, the first and second Gulf wars, the Arab Spring, and the rise of ISIS, to present a theoretical analysis of Washington's consistent pursuit of multibalancing and regime change wars in the region. An important critical assessment of Western foreign policies, this book will be indispensable for students and researchers of US foreign policy, defense and security studies, strategic affairs, politics and international relations, political economy, nation-state building, identity studies, globalization studies, Middle East studies, and South Asian studies.
