Handbook On Policing In Central And Eastern Europe:

Handbook on Policing in Central and Eastern Europe Gorazd Meško, Charles B. Fields, Branko Lobnikar, Andrej Sotlar, 2013-04-16 Policing in Central and Eastern Europe has changed greatly since the fall of the Berlin Wall. Some Central and Eastern European countries are constituent members of the European Union while others have been trying to harmonize with the EU and international requirements for a more democratic policing and developments in accordance with Western European and international policing standards especially in regard to issues of legality and legitimacy. Changes in the police training system, basic and advanced internationalization of policing due to transnationalization of crime and deviance, new police organizational structures and agencies have impacted new cultures of policing from exclusively state to plural policing. This timely volume examines developments in the last two decades to learn the nature of these changes within Central and Eastern Europe and their impact on police culture as well as on society as a whole. The development of police research has varied widely throughout Central and Eastern Europe; in some countries it has developed significantly while in others it is still in its infancy. This work will allow for a transfer of ideas and models of police organization and policing is also needed to be studied closely with an aim to provide consistent and comparable data across all of the countries discussed. For the twenty countries covered, this systematic work provides short country-based information on police organization and social control, crime and disorder trends in the last 20 years with an emphasis on policing, police training and police educational systems, changes in policing in the last 20 years, police and the media, present trends in policing, public and private, multilateral, plural policing, policing urban and rural communities, recent research trends in research on policing, specificities of research on police and policing, researchers and the police, inclusion of police researchers in policy making and police practice and future developments in policing.

The Oxford Handbook of Police and Policing Michael Dean Reisig, Robert J. Kane, 2014 The police are perhaps the most visible representation of government. They are charged with what has been characterized as an impossible mandate: control and prevent crime, keep the peace, provide public services and do so within the constraints of democratic principles. The police are trusted to use deadly force when it is called for and are allowed access to our homes in cases of emergency. In fact, police departments are one of the few government agencies that can be mobilized by a simple phone call 24 hours a day, 7 days a week. They are ubiquitous within our society but their actions are often not well understood.

Policing European Metropolises Elke Devroe, Adam Edwards, Paul Ponsaers, 2017-02-03 Understanding the politics of security in city regions is increasingly important for the study of contemporary policing. This book argues that national and international governing arrangements are being outflanked by various transnational threats including the cross-border terrorism of the attacks on Paris in 2015 and Brussels in 2016, trafficking in people, narcotics and armaments, cybercrime, the deregulation of global financial services and environmental crime. Metropolises are the focal points of the transnational networks through which policing problems are exported and imported across national borders as they provide

much of the demand for illicit markets and are the principal engines generating other policing challenges including political protest and civil unrest This edited collection examines whether and how governing arrangements rooted in older systems of national sovereignty are adapting to these transnational challenges and considers problems of and for policing in city regions in the European Union and its single market Bringing together experts from across the continent Policing European Metropolises develops a sociology of urban policing in Europe and a unique methodology for comparing the experiences of different metropolises in the same country This book will be of value to police researchers in Europe and abroad as well as postgraduate students with an interest in policing and urban policy **Handbook of Policing** Tim Newburn,2012-08-21

Haberfeld,2015-06-10 This book brings together research on police integrity on regions worldwide The results for each country indicate whether police officers know the official rules how seriously they view police misconduct what they think the appropriate and expected discipline for misconduct should be and how willing they are to report it Police misconduct refers to everything from corruption and use excessive force to perjury falsification of evidence and failure to react Police Integrity and police misconduct are topics of great concern worldwide Police integrity is envisioned as the inclination to resist temptations to abuse the rights and privileges of police occupation Using their extensive experience studying police integrity in the United States the editors have created an applicable framework for measuring police integrity in other countries The results of their research are brought together in this timely volume including contributions from both established democracies and countries in transition which each present unique challenges for improving police integrity Each chapter follows the same format and contains a theoretical analysis of the relevant legal historical political social and economic conditions in the country followed by the analyses of empirical results and policy recommendations In the last chapter editors Kutnjak Ivković and Haberfeld take a comparative look across the countries by engaging in the in depth comparative analysis This work will be of interest to researchers and policy makers studying policing both in the United States and internationally presenting a theoretical framework that can be applied to other regions for further research **Compliance, Defiance,**

and 'Dirty' Luxury Tereza Østbø Kuldova,Jardar Østbø,Cris Shore,2024-07-31 This book interrogates the transnational field of anti corruption and elite crime Using the lens of luxury art and antiquities the contributors reconceptualize the driving dialectics of corruption and anti corruption Compliance Defiance and Dirty Luxury brings together scholars across criminology anthropology sociology and the humanities to tackle these dialectics from different angles and positions digging deeper into these corrupt zigzags of compliance and defiance This approach reveals a self reinforcing accelerating neoliberal

perpetuum mobile churning out a frenzy of public private crime fighting initiatives that stimulate the expansion of various control and surveillance architectures which time and again fail This volume opens new theoretical and empirical paths of investigation for criminologists and anthropologists alike While the book speaks primarily to academic audiences and graduate students it also appeals to a broad range of professionals Tereza stb Kuldova is Research Professor and a social anthropologist based at the Work Research Institute Oslo Metropolitan University Norway Jardar stb is Professor and Head of Programme for Russian Security and Defence Policy at the Institute for Defence Studies Norwegian Defence University College Cris Shore is emeritus Professor of Anthropology at Goldsmiths University of London UK and currently Senior Research Fellow at the Institute for Advanced Study Central European University Hungary Municipal Policing in the European Union D. Donnelly,2013-01-21 The book applies a model of municipal policing to compare a number of police systems in the European Union suggesting that in the future local communities will have some form of police enforcement mechanism that will not always include the sworn police officer Under Siege Scott N. Romaniuk,2022-02-07 Under Siege Counter Terrorism and Civil Society in Hungary critically examines the effects of Hungary s counterterrorism and security policies on civil society organizations since the Fidesz party s sweeping victory in 2010 It explores the historical and political depths of the government s security apparatus including the formation and implementation of its counter terrorism laws polices and institutions as well as the terrorism landscape The author draws upon survey research conducted across four categories of civil society organizations including peacebuilding development human rights advocacy and humanitarianism and extensive data collected through semi structured interviews with members of the civil society community security actors legal experts politicians and scholars This book argues that the Hungarian government s counterterrorism and security regime has significantly altered the autonomous space in which civil society organizations operate and severely strained state society relations **Rural Criminology in Global Perspective** Matt Bowden,Gorazd Meško,2025-01-30 This timely collection crosses international boundaries to highlight criminological issues with a rural focus Using a variety of different perspectives the contributors offer lessons from research on rural crime justice and security from the seven continents with a macroscopic perspective on issues of international concern The book identifies the global context in which rural crime takes place presenting insights on crime prevention safety and security to students researchers policymakers and practitioners Chapters 2 and 8 available open access digitally under CC BY NC ND licence Community Policing - A European Perspective P.
