Home Economics in the Public Secondary Schools United States. Education Office,1962 Circular - Office of Education
United States. Office of Education,1961 *Teaching Social Studies* James Little,Gerald L. Wilson,Virginia Wilson,1993-01-30

Just as society has changed dramatically over the last century so have the social sciences This valuable reference chronicles the historical development of social studies as a discipline in elementary and secondary schools It also assesses the current state of teaching and research in the social sciences and history at the pre college level and it charts new directions for the future of social studies in secondary and elementary schools By tracing the historical development of social studies the reference indicates how social studies has constantly been redefined to meet the changing needs and expectations of society At the same time the historical context provided by the authors sheds new light on the current state of social studies in the curriculum and the development of social studies in the future The book begins with introductory chapters that overview themes and issues common to all areas of history and the social sciences The chapters that follow summarize and assess the developments and trends of particular fields commonly thought to constitute social studies The volume concludes with chapters on broad topics including the place of religion in the social studies curriculum the role of writing in history and the social sciences and the professional training of social studies teachers Each chapter begins with a section of reflections on the development of the discipline followed by a section on current issues and trends followed by a final section of projections for the future of the discipline The result is a comprehensive overview of the past present and future of social studies in elementary and secondary schools and an indispensable reference for educators historians and social scientists **Home**

Poverty and Crime in America's Inner Cities Lewis D. Solomon,2012-08-14 Despite the best hopes of the past half century
black urban pathologies persist in America The inner cities remain concentrations of the uneducated unemployed
underemployed and unemployable Many fail to stay in school and others choose lives of drugs violence and crime Most do
not marry leading to single parent households and children without a father figure The cycle repeats itself generation after
generation It is easy to argue that nothing works given the policy failures of the past For Lewis D Solomon fatalism is not
acceptable A complex and interrelated web of issues plague inner city black males joblessness the failure of public education
crime mass incarceration and drugs the collapse of married two parent families and negative cultural messages Rather than
abandon the black urban underclass Solomon presents strategies and programs to rebuild lives and revitalize America s
inner cities These approaches are neither government oriented nor dependent on federal intervention and they are not
futuristic Focusing on rehabilitative efforts Solomon describes workforce development prisoner reentry and the role of
nonprofit organizations Solomon s strategies focus on the need to improve the quality of America s workforce through
building human capital at the socioeconomic bottom The goal is to enable more people to fend for themselves thereby
weaning them from dependency on public sector handouts Solomon shows a path forward for inner city black males
