August 2019 Monthly Current Affairs with MCQs for Competitive Exams Disha Experts, 2019-08-04 The Schenley Experiment Jake Oresick, 2017-04-14 The Schenley Experiment is the story of Pittsburgh s first public high school a social incubator in a largely segregated city that was highly even improbably successful throughout its 156 year existence Established in 1855 as Central High School and reorganized in 1916 Schenley High School was a model of innovative public education and an ongoing experiment in diversity Its graduates include Andy Warhol actor Bill Nunn and jazz virtuoso Earl

Hines and its prestigious academic program and pensions lured such teachers as future Pulitzer Prize winner Willa Cather. The subject of investment as well as destructive neglect the school reflects the history of the city of Pittsburgh and provides a study in both the best and worst of urban public education practices there and across the Rust Belt. Integrated decades before *Brown v Board of Education* Schenley succumbed to default segregation. During the white flight of the 1970s it rose again to prominence in the late 1980s when parents camped out in six day long lines to enroll their children in visionary superintendent Richard C Wallace's reinvigorated school. Although the historic triangular building was a cornerstone of its North Oakland neighborhood and a showpiece for the city of Pittsburgh officials closed the school in 2008 citing over 50 million in necessary renovations a controversial event that captured national attention. Schenley alumnus Jake Oresick tells this story through interviews historical documents and hundreds of first person accounts drawn from a community indelibly tied to the school. A memorable important work of local and educational history his book is a case study of desegregation magnet education and the changing nature and legacies of America's oldest public schools

The BBC Tom Mills, 2016-11-15 The BBC the mouthpiece of the Establishment The BBC is one of the most important institutions in Britain it is also one of the most misunderstood. Despite its claim to be independent and impartial and the constant accusations of a liberal bias the BBC has always sided with the elite. As Tom Mills demonstrates we are only getting the news that the Establishment wants aired in public. Throughout its existence the BBC has been in thrall to those in power. This was true in 1926 when it stood against the workers during the General Strike and since then the Corporation has continued to mute the voices of those who oppose the status quo. Miners in 1984 anti war protesters in 2003 those who offer alternatives to austerity economics since 2008. From the outset much of its activity has

been scrutinised by the secret services at the invitation of those in charge Since the 1990s the BBC has been integrated into the market while its independence from government and big business has been steadily eroded The BBC is an important and timely examination of a crucial public institution that is constantly under threat Introduction to Teaching Gene E.
