

Installation Manual of Room Air Conditioner

Preparation

Necessary Tools for Installation

- Hammer
- Nipper
- Hack saw
- Hole core drill
- Spanner(17,19 and 25mm)
- Gas leakage detector or soap-and-water solution
- Torque wrench (17mm,22mm,26mm)
- Pipe cutter
- Flaring tool
- Knife
- Measuring tape
- Router

Power Source

- Before inserting power plug into receptacle, check the voltage without fail. The power source is the same as the corresponding name plate.
- Install an exclusive branch circuit of the power.
- A receptacle shall be set up in a distance where the power cable can be reached. Do not extend the cable by cutting it.

Selection of Installation Place

Indoor Unit - Select a location that is

- Robust not causing vibration, where the body can be supported sufficiently.
- Not affected by heat or steam generated in the vicinity, where inlet and outlet of the unit are not disturbed.
- Possible to drain easily, where piping can be connected with the outdoor unit.
- Where cold air can be spread in a room evenly.
- Nearby a power receptacle. (Refer to drawings).
- Place where the distance of more than 1m from televisions, radios, wireless apparatuses and fluorescent lamps can be left.
- In the case of fixing the remote controller on a wall, place where the indoor unit can receive signals when the fluorescent lamps in the room are in use.

Outdoor Unit - Select a location that is

- Less affected by rain or direct sunlight and is sufficiently ventilated.
- Strong enough to bear the unit, where vibration and noise are not increased.
- Not causing a nuisance to neighbors due to discharged air or noise.
- A distance marked as is available as illustrated in the below figure.

Drawing for the installation of indoor and outdoor units

The models adopt HCFC free refrigerant R410A.

The above picture is for your reference only. Your product may look different. Read this manual before installation. Explain the operation of the unit to the user according to this manual.

NO.0010536242

Haier Air Cond Manual

Julia Schneider

Haier Air Cond Manual:

Mergent International Manual ,2009 *Sustainable Energy And Environmental Technologies - Proceedings Of The Third Asia Pacific Conference* Xijun Hu,Po Lock Yue,2000-11-28 With the rapid expansion of the Asia Pacific economy in the last decade and the recovery after the recent crisis severe demands will be placed on energy services and the environment Coping with the volatile oil prices that persist in the market introduces an additional factor into the energy supply and demand equation not just for countries in this region but also worldwide Inevitably there will be implications for environmental issues too The future will see a continuing challenge to balance growth with sustainability in the economic social and environmental sectors This conference a sequel to the immensely successful APCSEET conferences held in Singapore and Australia is aimed at meeting that challenge by addressing the pertinent issues related to sustainable energy and environmental protection It provides a forum for participants from academia industry and government agencies to interact report on research in progress and identify opportunities in the fields of sustainable energy and environmental technologies The presentations include not only technical issues such as air pollution control wastewater treatment solid waste management renewable energy and cleaner production but also education and policy issues **Handbook of Smart Materials, Technologies, and Devices** Chaudhery Mustansar Hussain,Paolo Di Sia,2022-11-09 This handbook brings together technical expertise conceptual background applications and societal aspects of Industry 4 0 the evolution of automation and data exchange in fabrication technologies materials processing and device manufacturing at both experimental and theoretical model scales The book assembles all the aspects of Industry 4 0 starting from the emergence of the concept to the consequences of its progression Drawing on expert contributors from around the world the volume details the technologies that sparked the fourth revolution and illustrates their characteristics potential and methods of use in the industrial and societal domains In addition important topics such as ethics privacy and security are considered in a reality where all data is shared and saved remotely The collection of contribution serve a very broad audience working in the fields of science and engineering chemical engineering materials science nanotechnology energy environment green chemistry sustainability electrical and electronic engineering solid state physics surface science aerosol technology chemistry colloid science device engineering and computer technology This handbook ideal reference libraries in universities and industrial institutions government and independent institutes individual research groups and scientists **Designing Data Spaces** Boris Otto,Michael ten Hompel,Stefan Wrobel,2022-07-21 This open access book provides a comprehensive view on data ecosystems and platform economics from methodical and technological foundations up to reports from practical implementations and applications in various industries To this end the book is structured in four parts Part I Foundations and Contexts provides a general overview about building running and governing data spaces and an introduction to the IDS and GAIA X projects Part II Data Space Technologies subsequently details various implementation aspects of IDS and GAIA X

including eg data usage control the usage of blockchain technologies or semantic data integration and interoperability Next Part III describes various Use Cases and Data Ecosystems from various application areas such as agriculture healthcare industry energy and mobility Part IV eventually offers an overview of several Solutions and Applications eg including products and experiences from companies like Google SAP Huawei T Systems Innopay and many more Overall the book provides professionals in industry with an encompassing overview of the technological and economic aspects of data spaces based on the International Data Spaces and Gaia X initiatives It presents implementations and business cases and gives an outlook to future developments In doing so it aims at proliferating the vision of a social data market economy based on data spaces which embrace trust and data sovereignty

Advances in Intelligent Control Systems and Computer Science Loan Dumitrache, 2012-08-22 The conception of real time control networks taking into account as an integrating approach both the specific aspects of information and knowledge processing and the dynamic and energetic particularities of physical processes and of communication networks is representing one of the newest scientific and technological challenges The new paradigm of Cyber Physical Systems CPS reflects this tendency and will certainly change the evolution of the technology with major social and economic impact This book presents significant results in the field of process control and advanced information and knowledge processing with applications in the fields of robotics biotechnology environment energy transportation et al It introduces intelligent control concepts and strategies as well as real time implementation aspects for complex control approaches One of the sections is dedicated to the complex problem of designing software systems for distributed information processing networks Problems as complexity and specific instruments for modeling and control are also presented in a group of papers which identifies a large opening towards the new generation of CPS The book is structured so as to ensure a good equilibrium between conceptual and applicative aspects

Proceedings of the Third Asia-Pacific Conference on Sustainable Energy and Environmental Technologies, Hong Kong, 3-6 December 2000 Xijun Hu, Po Lock Yue, 2001 With the rapid expansion of the Asia Pacific economy in the last decade and the recovery after the recent crisis severe demands will be placed on energy services and the environment Coping with the volatile oil prices that persist in the market introduces an additional factor into the energy supply and demand equation not just for countries in this region but also worldwide Inevitably there will be implications for environmental issues too The future will see a continuing challenge to balance growth with sustainability in the economic social and environmental sectors This conference a sequel to the immensely successful APCSEET conferences held in Singapore and Australia is aimed at meeting that challenge by addressing the pertinent issues related to sustainable energy and environmental protection It provides a forum for participants from academia industry and government agencies to interact report on research in progress and identify opportunities in the fields of sustainable energy and environmental technologies The presentations include not only technical issues such as air pollution control wastewater treatment solid waste management renewable energy and cleaner production
