Excerpt from Haydn's Dictionary of Dates Relating to All Ages and Nations for Universal Reference

The design of the Author has been to attempt the compression of the greatest body of general information that has ever appeared in a single volume and to produce a Book of Reference whose extensive usefulness may render its possession material to every individual in the same manner that a London Directory is indispensable on business affairs to a London merchant He grounds his hope of the Public taking an interest in this work altogether upon its own intrinsic utility Its articles are drawn principally from historians of the first rank and the most authentic annalists and the Dictionary of Dates will in almost every instance save its possessor the trouble of turning over voluminous authors to refresh his memory or to ascertain the date order and features of any particular occurrence The volume contains upward of Fifteen Thousand Articles alphabetically arranged and from the selection of its materials it must be important to every man in the British Empire whether learned or unlearned or whether connected with the professions or engaged in trade It would be difficult to name all the authors from whose works the Compiler of this volume has copiously extracted but he may mention among the classics Herodotus Livy Pliny and Plutarch He has chosen in general chronology Petavius Usher Blair Prideaux and the Abbe Lenglet Dufresnoy For the events embraced in foreign history he has relied upon Henault Voltaire La Combe Rollin Melchior Adam the Nouveau Dictionnaire and chief authors of their respective countries On subjects of general literature his authorities are Cave's Historia Literaria Moreri Bayle Priestley and others of equal repute And English occurrences are drawn from Camden Stow Hall Baker Holinshed Chamberlayne Rapin Hume Gibbon Goldsmith etc Besides these the Compiler has freely used the various abridgments that have brought facts and dates more prominently forward and he is largely indebted to Chambers Aspin Beatson Anderson Beckmann the Cyclopædia Annual Register Statutes at Large and numerous other compilations In almost every instance the authority is quoted for the extract made and date assigned though inadvertence may have prevented in some few cases a due acknowledgment About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works **Haydn's Dictionary of Dates, and**
