Tyres

Special heavy-duty industrial type tyres are fitted and recommended for use on roads, hard surfaces, in gravel pits and similar places. For field work, however, they have not the same grip or the self-cleaning action of an agricultural type of tyre.

Horn and Mirror

The high frequency horn, mounted adjacent to the timing cover on the left hand side of the engine, is operated by a push button on the instrument panel.

The driving mirror, which is conveniently situated on the right hand side of the panel, can be adjusted to suit the driver's requirements.
