**Bonnie Scottish Trucks: A Celebration of Scottish Style** Bill Reid, 2016-12-01. Traditional Scottish liveries have long featured combinations of tartans, thistles, stags, piper, and monograms on a strong background colour. Bonnie Scottish Trucks brings together 231 high quality photos of trucks operated by past and present Scottish companies, small firms, and owner drivers who have used their vehicles as a means of attracting the eye of potential customers and as a matter of pride in the presentation of their business. To emphasise the ownership and purpose of the vehicle, the user's name is emblazoned on the front and sides in shade lettering, leaving the onlooker in no doubt. Although not exclusive to Scotland, this treatment seems to have been more prolific and has stood the test of time. In Scotland, the beautiful vehicles featured in this book were spotted by author Bill Reid around the country, in towns, in cattle markets, on the road, and anywhere else trucks or lorries can be found. This striking collection will appeal to drivers, road transport enthusiasts, and in particular those with an interest in vintage commercial vehicles.

**The Writing's on the Truck** John Corah, 2019-10-01. The Writing's on the Truck is a pictorial look at the traditional art of signwriting on commercial vehicles by renowned signwriter John Corah. John began signwriting in 1982, working for Brian Harris Transport Ltd. Brian's well-turned trucks were regularly seen on the roads between the Southwest and the North of Scotland, and with this excellent showcase for his skills, John quickly built up a large customer base. Since then, he has written on ERFs, Leylands, Guys, Fodens, Atkinsons, Albions, and AECs, to name but a few, and he is responsible for the distinctive livery of a number of traditional family-run haulage companies. In some cases, he worked on the vehicles when brand new, and then again when restored, some 20-30 years later. Sadly, many of the once familiar and iconic companies have disappeared over the years, and today, computer-generated vinyl lettering has almost completely taken over the art, and few modern fleets are signwritten. The Writing's on the Truck includes 210 fully captioned and previously unpublished photos of the vehicles he worked on, many of which will be remembered by transport fans UK-wide. The book tells the story of the development of John's business, the methods he uses to create particular effects, and numerous anecdotes from his working life. It will be of interest to anyone involved with road haulage and the preservation of classic trucks.
