**Foreign Language Education Under Global Neoliberalism** Wang, Ai-Ling, 2025-07-25 Foreign language education is shaped by global neoliberalism which prioritizes market driven values like competition individualism and economic efficiency In this context language learning is often framed as a tool to enhance employability mobility and global competitiveness Educational policies and curricula shift emphasizing utilitarian outcomes and performance metrics over holistic or

humanistic approaches While this shift expands access for language learning it also raises concerns about the commodification of language the marginalization of less marketable languages and the erosion of deeper intercultural understanding Further exploration may reveal the long term impacts of language learning and development under neoliberalist policies and ideals Foreign Language Education Under Global Neoliberalism explores how global neoliberal policies influence the purpose structure and delivery of foreign language education prioritizing economic utility over cultural or educational values It examines the implications of this shift including the commodification of language skills the dominance of certain languages and the impact on educational equity and cultural diversity This book covers topics such as global business international relations and political science and is a useful resource for government officials educators academicians researchers and political scientists
