Mastering Spanish Words Language Equipped Travelers,2020-04-24 How many words do we use when we speak According to some publications while a two year old baby uses around two hundred words a beginner in any language needs around two thousand to communicate And an expert user can employ up to forty thousand But knowing words and their meanings is hardly enough If you want to learn Spanish to actually use it be it for traveling working or studying you need to really master your vocabulary you need to know synonyms you need to know which prepositions are used next to which verbs and how words change their meaning in different contexts In this book we offer a comprehensive list of the 3 000 most frequent words of the Spanish language according to the Real Academia Espa ola Spain s official royal institution dedicated to the Spanish language We did not just include the words and their meanings but also eventual indications for you to understand the use of the word since translations are otherwise incomplete For example we indicate if it s a masculine or feminine word if it s a plural word and if it belongs to a verbal tense that does not translate literally into English Additionally we indicate if the word has more than

one meaning so you can avoid confusion And of course for each word we include a practical example a sentence that in a few words tells a story and helps you understand how the word is used in the real Spanish speaking world By the time you're finished with this book your vocabulary will be comparably better richer and wider Ready to give it a go Start right away You'll feel the difference and everyone else will notice too Scroll up and click the add to cart button now to get started
