Handbook of Splines Gheorghe Micula, Sanda Micula, 2012-12-06 The purpose of this book is to give a comprehensive introduction to the theory of spline functions together with some applications to various fields emphasizing the significance of the relationship between the general theory and its applications At the same time the goal of the book is also to provide new material on spline function theory as well as a fresh look at old results being written for people interested in research as well as for those who are interested in applications The theory of spline functions and their applications is a relatively recent field of applied mathematics In the last 50 years spline function theory has undergone a wonderful development with many new directions appearing during this time This book has its origins in the wish to adequately describe this development from the notion of spline introduced by I J Schoenberg 1901 1990 in 1946 to the newest recent theories of spline wavelets or spline fractals Isolated facts about the functions now called splines can be found in the papers of L Euler A Lebesgue G Birkhoff J

String Phenomenology Steve A. Abel, Alon E. Faraggi, Alejandro Ibarra, Michael Plumacher, 2003 String phenomenology offers a bridge between the excitement and novelty that typified theoretical physics in recent years and experimental reality The First International Conference on String Phenomenology concentrated on cosmological and phenomenologically oriented applications of string theory The aim was to bring together experimental and theoretical physicists to discuss the triumphs and challenges that high energy physics faces in its attempt to uncover the next layers of fundamental matter and interactions The main theme

was the application of string theory but the conference also accommodated alternative approaches to physics beyond the Standard Model The conference featured plenary talks reviewing the major topics as well as parallel sessions for contributed papers describing new results in the major areas of the conference It covered diverse topics from collider and neutrino physics to fibre bundles on Calabi Yau three folds The proceedings have been selected for coverage in Index to Scientific Technical Proceedings ISTEP CDROM version ISI Proceedings **Reviews in Complex Analysis, 1980-86** ,1989
