Stotsky,2019-07-02 The chief purpose of this book is to explain how public education in this country became dysfunctional as a result of the education policies and programs funded by the federal government to address low academic achievement It highlights student effort as a central factor in academic achievement based on research noting its significance Teachers and school administrators cannot make children ready for college or career by grade 12 if their parents do not make them ready for school learning by kindergarten or grade 1 Once both the schools and students parents together made students ready for membership in our civic culture They learned they were politically equal to each other with a shared civic identity regardless of academic achievement Yet policy makers at USED and philanthropists in this country with a professed interest in the education of low achievers want low achievers to believe that their academic status is all that matters and that they haven't succeeded academically because of bigoted teachers administrators and communities Parent school partnerships need to revive their community's agreed upon mission for public education if we are to alter the roots of low achievement in this country

A Guide to Detracking Math Courses Angela Torres, Ho Nguyen, Elizabeth Hull Barnes, Laura Wentworth,2023-05-03 Create a pathway to equity by detracking mathematics The tracked mathematics system has been operating in US schools for decades However research demonstrates negative effects on subgroups of students by keeping them in a single math track thereby denying them access to rigorous coursework needed for college and career readiness The journey to change this involves confronting some long standing beliefs and structures in education When supported with the right structures instructional shifts coalition building and educator training and support the detracking of mathematics courses can be a primary pathway to equity The ultimate goal is to increase more students access to and achievement in higher levels of mathematics learning especially for students who are historically marginalized Based on the stories and lessons learned from the San Francisco Unified School District educators who have talked the talk and walked the walk this book provides a model for all those involved in taking on detracking efforts from policymakers and school administrators to math coaches and teachers By sharing stories of real world examples lessons learned and prompts to provoke discussion about your own context the book walks you through Designing and gaining support for a policy of detracked math courses Implementing the policy through practical shifts in scheduling curriculum professional development and coaching Supporting and improving the policy through continuous research monitoring and maintenance This book offers the big ideas that help you in your own unique journey to advance equity in your school or district's mathematics education and also provides practical information to help students in a detracked system thrive
