Shutler, 2023-08-14 Escape the matrix of student loan debt. In his new book, Dave Shutler analyzes twelve faulty assumptions about obtaining a higher education and shows how they can lead to debilitating college debt. Analogizing to the two realities in the Matrix movies, he reveals underlying facts about the assumptions to high schoolers and their parents. These assumptions range from deciding whether to attend college in the first place to the importance of selecting a major to how to minimize college living costs. This book is a systematic guide to the many misconceptions that students hold in the college application process. Shutler analyzes each misconception, showing how it can lead to debt, and then provides

strategies to escape that debt Dave Shutler sheds light on scholarships and other significant funding sources that are available for the enterprising student and explores the federal laws that govern student debt He identifies underlying policy decisions that have contributed to the 1.7 trillion federal debt burden and offers several strategies to help individuals navigate student debt without succumbing to it Through planning students can take charge of their education and escape the matrix of ever increasing college costs

Student Loan Funds Harmon Foundation, inc, 1924 **Unfinished Business** Matt Bergman, Joann S. Olson, 2019-09-01 For at least the last 100 years more than 40% of all students who enrolled in American colleges and universities have not persisted to graduation at four year institutions Their stories are varied but in every case something got in the way of that pursuit Life happened They became one of the nearly 36 million Americans who have some college but no degree For many the stigma of not finishing college is a closely held secret that weighs heavily as they discuss engage and compete to meet the challenges of the workforce in the 21st century Some weren't ready at age 18 for the focus and commitment that academic studies require Others found opportunities to create income and meet immediate familial needs or requirements Many have excelled despite their lack of a college credential Contrary to the deficit mindset that often permeates the retention and persistence discourse this book highlights the stories of those who successfully returned to what was left unfinished The stories here may challenge your assumptions These are high quality students who demonstrated a compelling and inspiring commitment to their education begun long ago and now completed in some cases decades later As you read don't miss the role that engaged advisors supportive family members and well designed programs such as prior learning assessment played in helping students to the finish line These narratives also demonstrate that it is time for institutions of higher education to imagine and embrace new ways of serving these students well
