Do Metaphors Dream of Literal Sleep? Seo-Young Chu, 2011-01-15 In culture and scholarship science fictional worlds are perceived as unrealistic and altogether imaginary Seo Young Chu offers a bold challenge to this perception of the genre arguing instead that science fiction is a form of high intensity realism capable of representing non imaginary objects that elude more traditional realist modes of representation Powered by lyric forces that allow it to transcend the dichotomy between the literal and the figurative science fiction has the capacity to accommodate objects of representation that are themselves neither entirely figurative nor entirely literal in nature Chu explores the globalized world cyberspace war trauma the Korean concept of han and the rights of robots all as referents for which she locates science fictional representations in poems novels music films visual pieces and other works ranging within and

without previous demarcations of the science fiction genre In showing the divide between realism and science fiction to be illusory *Do Metaphors Dream of Literal Sleep* sheds new light on the value of science fiction as an aesthetic and philosophical resource one that matters more and more as our everyday realities grow increasingly resistant to straightforward representation

Jonathan Lethem James Peacock, 2013-07-19 Jonathan Lethem is the first full length study dedicated to the work of an exciting genre busting contemporary writer with an increasingly high profile in American literature Examining all of Lethem s novels as well as a number of his short fictions essays and critical works this study shows how the author s prolific output his restlessness and his desire always to be subverting literary forms and genres are consistent with his interest in subcultural identities The human need to break off into small groupings subcultures or miniature utopias is mirrored in the critical tendency to enforce generic boundaries To break down the boundaries between genres then is partly to make a nonsense of critical distinctions between high and low literature and partly to reflect the wider need to recognise difference to appreciate that other people no matter how outlandish and alien they may appear share similar desires experiences and problems With this in mind James Peacock argues that Lethem s experiments with genre are not merely games or elaborate literary jokes but ethical necessities particularly when viewed in the light of the losses and traumas that shadow all of his writing Jonathan Lethem therefore makes an important contribution not just to Lethem studies but also to debates about genre and its position in postmodern or post postmodern literature It will be of interest to all scholars and students of contemporary American writing as well as those interested in genre fiction and literature s relationship with subcultures
