Infection Control In Home Care And Hospice

G Orfield

Infection Control In Home Care And Hospice:

Infection Control in Home Care and Hospice Emily Rhinehart, 2006 An official publication of the Association for Professionals in Infection Control and Epidemiology Inc APIC the highly successful Infection Control in Home Care and Hospice helps home care providers assess the infection control needs of their organization and develop home care infection and surveillance programs The Second Edition has been thoroughly updated and revised with the latest CDC Guidelines on infection control in home care including Hand Hygiene Prevention of IV related Infections and the 2004 Isolation Guideline

Infection Control in Home Care Emily Rhinehart, Mary M. Friedman, 1999 Provides information to home care and hospice organizations for the prevention control and surveillance of infection Thirteen chapters cover topics including infection control as a health care discipline the infectious disease process patient care practices infection control in home infusion t

Infection Control for Advanced Practice Professionals Denise M. Korniewicz, Ph.D, RN, FAAN, 2013-10-01 Presents best practices for infection prevention and control in advanced practice Emphasizes team approach for infection control Case study provided for each chapter This professional reference combines research on the best practices for infection control in clinical settings with essential information for advanced practice nurses and physician assistants The book is organized by healthcare settings and the coverage ranges from small practice offices to large hospitals and medical institutions Each chapter is prefaced by a case study which is then incorporated into the theoretical material of the chapter as a continuing illustration This format provides a reader friendly instructional resource for advanced practice certifications and staff development From the Foreword At last is published a long needed text for advanced practice nurses APNs providing them with the information essential to the care of essentially every patient they will encounter Infection Control for Advanced Practice Professionals fills a void in the literature and recognizes the importance of a team approach to the prevention of infections in the variety of care settings in which APNs are practicing The book is particularly timely and relevant because it appropriately places infection prevention solidly within the larger patient safety movement and affirms that preventing infections is everybody s concern In acute care settings for example infection control has occasionally been relegated to the infection prevention specialist e g infection control nurse or hospital epidemiologist or the infection control committee This has shown to be ineffective in any setting It is those who touch the patients and oversee their care who must assume the responsibility for preventing untoward events such as infections While not all infections are preventable there is indeed room for improvement This comprehensive reference is a first and essential step in that direction Elaine Larson PhD RN FAAN CIC Anna C Maxwell Professor of Nursing Research Associate Dean for Research School of Nursing Professor of Epidemiology Joseph Mailman School of Public Health Columbia University Editor American Journal of Infection Control TABLE OF CONTENTS Foreword Preface List of Contributors 1 Principles of Infection Control Joan Hebdon 1 1 Case Presentation 1 2 Essential Content for Infection Control Skills 1 3 Creating and Sustaining a Culture of Safety 1 4 The Measurement of

Hospital Epidemiology and Infection Control C. Glen Mayhall, 2012-02-20 Thoroughly revised and updated for its Fourth Edition this highly acclaimed volume is the most comprehensive reference on hospital epidemiology and infection control Written by over 150 leading experts this new edition examines every type of hospital acquired nosocomial infection and addresses every issue relating to surveillance prevention and control of these infections in patients and in healthcare workers This new edition features new or significantly increased coverage of emerging infectious diseases avian influenza governmental regulation of infection control and payment practices related to hospital acquired infections molecular epidemiology the increasing prevalence of community acquired MRSA in healthcare facilities system wide infection control provisions for healthcare systems hospital infection control issues following natural disasters and antimicrobial stewardship in reducing the development of antimicrobial resistant organisms *Bennett & Brachman's Hospital Infections* William R. Jarvis, 2013-10-17 For over three decades Bennett surveillance control programs antimicrobial stewardship antimicrobial resistance mechanisms of resistance sterilization and disinfection food borne diseases the role of the laboratory intensive care unit operating room dialysis and nursery settings and specific hospital acquired infections

Infection Control Policies for Community Paramedicine & MIH Katherine West, 2019-08-08 In her new book Infection Control Policies for

Community Paramedicine MIH Katherine West explains how good infection control practices vaccines and immunizations cleaning and disinfection of equipment and work restriction guidelines can assist EMS providers and improve patient care

WHAT ARE THE ISSUES Hospital patients are being discharged without receiving or fully understanding discharge instructions This omission can lead to readmission of the patient With the basics in place departments can move on to expanding services to the community Departments that are looking to expand services to meet the needs of the elderly disabled and those living in rural areas where access to healthcare is not easily accessible will need to refocus and expand infection control practices for the home care environment Medical facilities are looking to EMS as the possible source for patient infections Documentation and compliance monitoring will serve as liability reduction and risk management tools EMS is now under the scope of healthcare associated infections HAIs The new term HAI is much broader and applies to more healthcare care delivery services

Community/Public Health Nursing Practice Frances A. Maurer, Claudia M. Smith, 2012-10-01 Focusing on practical need to know information Community Public Health Nursing Practice helps you learn how to apply the nursing process at the community and family level It features an engaging easy to understand writing style as well as assessment tools detailed case studies and clinical examples that demonstrate how key concepts apply to real world practice Additional resources on the companion Evolve website expand and enhance content within the text Practical features including Case Studies Ethics in Practice and The Nursing Process in Practice illustrate real world applications of key community public health nursing concepts A complete unit on the community as client helps you understand how the assessment diagnosis planning intervention and evaluation steps of the nursing process apply to the community as opposed to an individual A chapter devoted to community assessment provides a complete assessment tool and shows you how the tool applies to two different types of communities

UNIQUE A chapter on screening and referral promotes population focused practice which is the crux of community public health nursing A separate unit on the family emphasizes the importance of viewing the family as a singular client A complete discussion of the Minnesota Wheel helps you better understand this widely accepted framework for community public health nursing practice Helpful sections such as Focus Questions Chapter Outlines Key Ideas and Learning by Experience and Reflection help you pinpoint essential information

NEW Healthy People 2020 objectives throughout the text help you identify common health risk factors in populations and families
