Inner Experience Georges Bataille, 2014-07-22 Outlines a mystical theology and experience of the sacred founded on the absence of god Originally published in 1943 Inner Experience is the single most significant work by one of the twentieth century's most influential writers It outlines a mystical theology and experience of the sacred founded on the absence of god Bataille calls Inner Experience a narrative of despair but also describes it as a book wherein profundity and passion go tenderly hand in hand Herein he says The mind moves in a strange world where anguish and ecstasy take shape Bataille's search for experience begins where religion philosophy science and literature leave off where doctrines dogmas methods and the arts collapse His method of meditation outlined and documented here commingles horror and delight Laughter intoxication eroticism poetry and sacrifice are pursued not as ends in and of themselves but as means of access to a sovereign realm of inner experience This new translation is the first to include Method of Meditation and Post Scriptum 1953 the supplementary texts Bataille added to create the first volume of his Summa Atheologica This edition also offers the full notes and annotations from the French edition of Bataille's Oeuvres Complètes along with an incisive introductory essay by Stuart Kendall that situates the work historically biographically and philosophically

Suckling at My Mother's Breasts Ellen Davina Haskell, 2012-11-06 One of Kabbalah's most distinctive images of the feminine divine is that of a motherly breastfeeding God Suckling at My Mother's Breasts traces this idea from its origins in ancient rabbinic literature through its flourishing in the medieval classic Sefer ha Zohar The Book of Splendor Taking the position that kabbalistic images provide specific detailed models for understanding the relationship between God and human beings Ellen Davina Haskell connects divine nursing theology to Jewish ideals regarding motherhood breastfeeding and family life from medieval France and Spain where Kabbalah originated Haskell's approach allows for a new evaluation of Kabbalah's feminine divine one centered on culture and context rather than gender philosophy or psychoanalysis As this work demonstrates the image of the nursing divine is intended to cultivate a direct emotional response to God rooted in nurture love and reliance rather than knowledge sexuality or authority

Beyond the Word Donald F. Theall, 1995 Beyond the Word provides an implicit critique of postmodernism redefining it as a further radical stage of modernism Theall argues that Joyce anticipated many of the insights of semiotics post structuralism and postmodernism Moreover Joyce and other modern artists differed from their predecessors in exhibiting a greater sense of their place within a dynamic multifaceted field of communication Thus long before the emergence of postmodernism these radical modernists posed an implicit challenge to the traditional notion of art as a privileged sphere Beyond the Word situates artistic expression

within a broad ecology of communication alongside genres such as comics games ads videos and slogans of spontaneous protest Within this context Theall reconsiders the contributions of Marshall McLuhan Harold Innis Gregory Bateson and Kenneth Burke to our contemporary understanding of communication and looks at artists as disparate as Dusan Makavejev Stanley Kubrick Alexander Pope Rabelais William Gibson Gene Roddenberry and Wyndham Lewis **Recording for the Blind & Dyslexic, ...
