Ford Tractor Conversions Stuart Gibbard,2019-10-01 This illustrated work covers the stories of five British engineering companies that produced successful ranges of agricultural earthmoving or construction machinery. County, Doe, Chaseside, Muir Hill, Matbro and Bray all made extensive use of the Ford tractor skid unit as a basis for their machines and they pioneered the development of the four-wheel drive agricultural tractor in Britain. Stuart Gibbard gives details of all the main models and machines of these manufacturers. He chronicles the fortunes of the firms from the beginning of the 20th century to the present day and discusses many of the personalities involved. *Public Works*, 1960. Opencast Images Dave Wootton,2019-10-01 In the United Kingdom, surface coal mining began in 1942 in response to a national shortage of deep-mined coal. By the 1980s, when Dave Wootton began touring sites and taking photographs, the industry was firmly established with major operations and very large machinery. His fully captioned pictures cover the period from 1986 until British Coal Opencast BCO was privatised in 1994. There are panoramic shots showing the scale of operations and fine close-ups of individual machines of many kinds at work. He includes several walking draglines such as the 4000-ton Ace of Spades, the largest of its kind in Europe. Another record holder was O.K.'s RH300 hydraulic shovel, beautifully photographed by Dave at its Godkin, Derbyshire, workplace. Dave visited some two dozen sites in Derbyshire, Northumberland, Yorkshire, South Wales and elsewhere, capturing the full range of surface mining activities. The equipment was manufactured by famous names such as Caterpillar, Ransomes, Rapier and Demag. BCO used contractors so Wimpey, Taylor, Woodrow, Fairclough and others are all seen playing their parts. The surface mining industry has changed considerably since 1994, meaning that this collection of photographs has great historic interest for enthusiasts. The author also includes a short history of BCO, some machine specifications and copies of publicity material. *Guide to the Stand-damage Model Interface Management System* George
