zafer çelik,2024-04-29 In Turkish textbooks migrants are frequently portrayed as marginalized individuals who are labelled

as needy guests and consumers of limited resources These textbooks fail to portray migrants as a constituent element of

society neglecting to acknowledge their substantial contributions to both social and economic life Furthermore the textbooks

disregard the rich tapestry of migrants lives traditions and cultures by omitting instances of successful migrant experiences

This narrative promotes discontent hatred exclusion and fear towards migrants within educational institutions and society at

large However defining migrants as the constituent elements of society highlighting their contributions to social and

economic life and including their culture and traditions in textbooks can play a pivotal role in cultivating positive attitudes

and behaviors towards immigrants A paradigm shift in depicting migrants as essential constituents of society is imperative
