The Solution Revolution William D. Eggers, Paul Macmillan, 2013-09-17 Government Alone Can't Solve Society's Biggest Problems World hunger Climate change Crumbling infrastructure It's clear that in today's era of fiscal constraints and political gridlock we can no longer turn to government alone to tackle these and other towering social problems What's required is a new more collaborative and productive

economic system The Solution Revolution brings hope revealing just such a burgeoning new economy where players from across the spectrum of business government philanthropy and social enterprise converge to solve big problems and create public value By erasing public private sector boundaries the solution economy is unlocking trillions of dollars in social benefit and commercial value Where tough societal problems persist new problem solvers are crowdfunding ridesharing app developing or impact investing to design innovative new solutions for seemingly intractable problems Providing low cost health care fighting poverty creating renewable energy and preventing obesity are just a few of the tough challenges that also represent tremendous opportunities for those at the vanguard of this movement They create markets for social good and trade solutions instead of dollars to fill the gap between what government can provide and what citizens need So what drives the solution economy Who are these new players and how are their roles changing How can we grow the movement And how can we participate Deloitte s William D Eggers and Paul Macmillan answer these questions and more and they introduce us to the people and organizations driving the revolution from edgy social enterprises growing at a clip of 15 percent a year to megafoundations to Fortune 500 companies delivering social good on the path to profit Recyclebank RelayRides and LivingGoods are just a few of the innovative organizations you ll read about in this book Government cannot handle alone the huge challenges facing our global society and it shouldn t We need a different economic paradigm that can flexibly draw on resources combine efforts and create value while improving the lives of citizens The Solution Revolution shows the way

Platform Regulation Pradip Ninan Thomas,2022-12-31 Over the last decade or two a handful of powerful monopolist platforms have embraced our lives worldwide They intermediate our socialities and relationships what we search for on the Internet and our online purchases We are living in a global economy that is fuelled by the monetization of affect One is now only too aware that various platforms are very systematically using the advantages stemming from algorithmic power and platform externalities to mine and privatize personal data that is in turn sold to advertisers who target not just the present but also future economic behaviours of users One now also hears of the complicity of some of these platforms in data breaches that have contributed to the making and unmaking of political fortunes of key political parties across geographies This unprecedented power of platforms is however being challenged today Data breaches evidence of platform manipulations platform complicities with state surveillance and their monopolist behaviours and its consequences for competition and data privacy have become the basis for regulatory responses from governments throughout the world National and regional courts of law have collected a lot of evidence on myriad forms of platform illegalities that discriminate against competitors and that point to the privatization of personal data on a global scale The proposed volume provides an introduction to some of the issues and challenges related to platform regulation the conundrums and paradoxes involved and also to some of the well conceived and manageable regulatory pathways currently being explored by national and regional governments It highlights regulatory responses from four jurisdictions the European Union USA India and Australia *Software Business.
