It tells the story through the life and works of the British diplomats and consuls and the missions in which they worked of Britain's involvement first for trade and later for strategic purposes in the four key regional states of Iran, Iraq, Kuwait and Oman. With wit and insight the book traces the origins of today's problems from the Ottoman and Persian empires to the 1991 Gulf War and its aftermath. Those who know the region will find this a refreshing new slant on an old story while those new to the subject will enjoy the mixture of politics and personalities ably described and analysed.

**State Responses to Nuclear Proliferation** Brian K. Chappell, 2021-01-07 Contemporary fears of rogue state nuclear proliferation and nuclear terrorism pose unique challenges for the global community. This book offers a unique approach by examining why states that have the military capability to severely damage a proliferating state's nuclear program instead choose to pursue coercive diplomacy. The author argues cognitive psychological influences including the trauma derived from national tragedies like the September 11th attacks and the Holocaust and a history of armed conflict increase the threat perceptions of foreign policy decision makers when confronting a state perceived to be challenging the existing power structure by pursuing a nuclear weapon. The powerful state's degree of perceived threat combined with its national security policies, military power, projection capabilities and public support then influence whether it will take no action, use coercive diplomacy, sanctions or employ military force to address the weaker state's nuclear ambitions.
