A Guide to Practical Living William Golson Jr., 2015-11-05 These Jewish Christians were having some problems in their personal lives and in their church fellowship They were going through difficult testing They were also facing temptations to sin Some of the believers were catering to the rich while others were being robbed by the rich Church members were competing for offices in the church particularly teaching offices Many failed to live what they professed to believe Furthermore the tongue was a serious problem even to the point of creating wars and divisions in the assembly Worldliness was another problem Some of the members were disobeying Gods Word and were sick physically because of it and some were straying from the Lord and the church As we review this list of problems it does not appear to be much different from the problems that beset the average local church today Is not worldliness a serious problem Are there not Christians who cannot control their tongues All these problems had a common cause a lack of spiritual maturity These Christians were simply not growing up Contrary to what we might think not everyone who grows old grows up There is a difference between age and maturity

The Workbook ,1996 Contextualization of the Gospel Andrew James Prince,2017-06-07 There has been heightened interest and prolific publication by missiologists about contextualization since the term was first coined in 1972 There has been ongoing debate particularly amongst evangelicals themselves regarding which of these meanings methods and models of contextualization are acceptable to use Much of the debate has been carried out by academics and practitioners whose observations and conclusions have been largely shaped by the social sciences and practical theology In contrast the disciplines of biblical studies and Christian thought have not featured significantly in the debate The purpose of this research is to establish that biblical studies and Christian thought in general and Scripture and the church fathers in particular have

an essential contribution to make in the contextualization debate and should form part of an evangelical approach to contextualization of the gospel alongside the social sciences and practical theology Following a review of the literature on contextualization over the past forty years the research examines the book of Acts as representative of Scripture and the work of John Chrysostom as a representative church father Contextual principles that are consistent with an evangelical approach to contextualization of the gospel are drawn from each work establishing the value of biblical studies and Christian thought in contextualization
