If you're interested in the exciting new technology of unmanned aircraft vehicles, *Drones For Dummies* helps you take flight. *The Software Encyclopedia*, 1986. *Mentor series: How to do sunset portrait photography*. Salvatore Graziano, Please note This e-book is intended for intermediate to Pro photographers or the serious enthusiast who has a grasp on how to handle the above equipment and their controls here is a uniqueness about this e-book because when I wanted to learn something new about photography I would have appreciated a teacher standing by my side as I performed my desired activity. This e-book attempts to provide that. 3. This e-book provides 3 things: a. It is designed to get you up and going as quickly as possible giving you a quicker understanding so you can practice. b. This mentoring style e-book provides you a step by step guide as if a teacher is looking over your shoulder assisting you with your process making suggestions along the way. c. Lastly additional information that is not germane to the process has been placed deeper into the e-book and out of the way. Locating the information you may or may not use out of the way allows the basic setup to be less confusing gets to the point quickly and does not waste your time. At the same time if you wanted to go PRO the added information that is located deeper and out of the way is invaluable. *Moody's Manual of Investments: American and Foreign*, 1950.
