Why Are We Yelling?

Buster Benson, 2019-11-19 Have you ever walked away from an argument and suddenly thought of all the brilliant things you wish you'd said? Do you avoid certain family members and colleagues because of bitter festering tension that you can't figure out how to address? Now finally there's a solution: a new framework that frees you from the trap of unproductive conflict and pointless arguing forever. If the threat of raised voices, emotional outbursts, and public discord makes you want to hide under the conference room table, you're not alone. Conflict or the fear of it can be exhausting. But as this powerful book argues, conflict doesn't have to be unpleasant. In fact, properly channeled conflict can be the most valuable tool we have at our disposal for deepening relationships, solving problems, and coming up with new ideas. As the mastermind behind some of the highest performing teams at Amazon, Twitter, and Slack, Buster Benson spent decades facilitating hard conversations in stressful environments. In this book, Buster reveals the psychological underpinnings of awkward, unproductive conflict and the critical habits anyone can learn to avoid it. Armed with a deeper understanding of how arguments work, you'll be able to remain confident when you're put on the spot, diffuse tense moments with a few strategic questions, facilitate creative solutions even when your team has radically different perspectives. Why Are We Yelling will shatter your assumptions about what makes arguments productive. You'll find yourself having fewer repetitive, predictable fights once you're empowered to identify your biases, listen with an open mind, and communicate well.

Facilitated Self-Help Guide Stephen G. Wartel, 2023-03-04 The Facilitated Self-Help Guide describes a helping model for use by professionals during the challenging times. A professionally facilitated model, it utilizes technologies like secure videoconferencing to deliver a range of stress reduction and behavioral health strategies based on cognitive behavioral principles. Minimalist in orientation, this stepped care model promotes self-reliance and builds on resilience. Help is assessed by a professional facilitator who collaboratively adapts and designs strategies relying, when possible, on trying self-administered self-help first. The guide applies the model across a range of presenting issues encountered during these challenging times. Illustrated examples, flowcharts, and protocols are included. The guide has a detailed table of contents to aid navigation, a glossary, and a resource list for additional information and extensive referencing to document sources. The Facilitated Self-Help Guide describes a helping model for use by professionals during the pandemic and beyond.
