Governance Innovations In The Asia Pacific Region Trends Cases And Issues:

GOVERNANCE INNOVATIONS IN THE ASIA-PACIFIC REGION, 2018 *Governance Innovations in the Asia-Pacific Region* Gambhir Bhatta, Joaquin L. Gonzalez III, 2019-01-15 Published in 1998 The debate on what constitutes good governance and more importantly how to attain it is not a new issue The elusive and pluralistic nature of governance ensures that much more needs to be studied about the specific incidence of good governance before a unifying theme on how exactly to develop a universal framework of application of governance can be finalized It is within this context that this book seeks to fill a vacuum in the theory practice dichotomy that it argues has dominated the debate on governance so far *Governance for Harmony in Asia and Beyond* Julia Tao, Anthony B. L. Cheung, Martin Painter, Chenyang Li, 2009-12-18 Harmony has become a major challenge for modern governance in the twenty first century because of the multi religious multi racial and multi ethnic character of our increasingly globalized societies Governments all over the world are facing growing pressure to integrate the many diverse elements and subcultures which make up modern pluralistic societies This book examines the idea of harmony and its place in politics and governance both in theory and practice in Asia the West and elsewhere It explores and analyses the meanings mechanisms dimensions and methodologies of harmony as a normative political ideal in both Western and Asian philosophical traditions The book argues that in Western political thought which sees politics as primarily concerned with resolving social conflicts and protecting individual rights the concept of harmony has often been neglected In contrast since earliest times harmony or he has been a profound theme in Confucian thought and current leaders of many East Asian governments and the Chinese government have explicitly declared that the realisation of a harmonious society is their aim The book also assesses how harmony is pursued jeopardized or deformed in the real world of politics based upon empirical analysis of a variety of different cultural social and political contexts including China Hong Kong Singapore Malaysia Singapore Vietnam Denmark Latin America and the Scandinavian countries It shows how harmony as an organizing concept can help to promote new thinking in governance and overcome problems of modern day governance like distrust adversarial conflicts hyper individualism coercive state intervention and free market alienation It also discusses the potential problems posed by the pursuit of harmony in particular in the grave threat of totalitarianism and considers how these risks could best be mitigated Common Foundations of American and East Asian Modernisation Ian Patrick Austin, 2009 **Agile Government: Emerging Perspectives In Public Management** Melodena Stephens Balakrishnan, Raed Awamleh, Fadi Salem, 2022-04-07 The governments of today are not able to transform and adapt to changes in the world around them as demanded by their constituents The nature of work value of public goods and the constant bombardment of crises are making the old bureaucratic structures obsolete Agile Government is an emerging theme that of government wide reinvention for adaptiveness and responsiveness It places the accountability delivery capture design and creation of public value at the heart of the government The concept of agile government is confused with terms like Agile

Manifesto agile governance agility among others and because of this needs some unpacking This book is a deep dive into this topic It offers insights from the theoretical development of the topic of agile government some lessons from government practices around the world and ongoing academic and policy research The project is spearheaded by the Mohammed Bin Rashid School of Government which is the first teaching and research institution in the Arab world focusing on public policy and governance Corporate Social Responsibility in the Promotion of Social Development Manuel E. Contreras C.,2004

Philippine Labour Migration Joaquin Lucero Gonzalez,1998 There are currently more than six million Filipino workers in over 120 countries in jobs ranging from maids to managers The Philippine Government has encouraged the manpower exodus to absorb the country s surplus labour and to bring foreign exchange earnings into the Philippine economy However non governmental organizations have argued that social dysfunctions associated with working abroad have not been adequately addressed Using an analytical framework that blends multiple stakeholders perspectives the author assesses the historical demographic economic social and political dimensions of Philippine labour migration policy from the early 1900s to the late 1990s Focusing on recent issues he provides an integrated evaluation from a public policy perspective balancing both state and societal viewpoints A separate soft cover edition is available from De La Salle University Press for customers in the Philippines only **International Dictionary of Public Management and Governance** Gambhir

Bhatta,2015-03-27 This authoritative up to date resource will become the standard reference on the theory and practice of public management around the world Public management addresses strategy policy processes and governance as well as the bureaucratic concerns of public administration Reflecting this diversity the Dictionary incorporates concepts from various other fields including economics political science management sociology and psychology The reference draws from an extensive literature base including books journals websites research reports government proceedings legal documents and international and organizational reports As the primary source of ready information for students researchers scholars and practitioners it defines all the fundamental concepts of public management their applications and all relevant theories complete with sources and references **Public Administration Singapore-Style** Jon S. T. Quah,2010-04-21 Singapore

was ranked first for the competence of its public officials from 1999 to 2002 by The Global Competitiveness Report This book intends to provide a detailed study of public administration Singapore style Southeast Asian Affairs 2002 Daljit

Singh,Anthony L. Smith,2002-06-06 This book is divided into two broad categories There are those which provide an analysis of major developments during 2001 in individual Southeast Asian countries and in the region generally Then there are the theme articles of a more specialized nature which deal with topical problems of concern This volume contains twenty articles dealing with such major themes as international conflict and co operation political stability and economic growth and development Fairness, Globalization, and Public Institutions Jim Dator,Richard C. Pratt,Yongseok Seo,2018-03-31 Who benefits from the interconnected processes often referred to as globalization Is it a relatively few people with most others

either being harmed or at least not helped Are the good things that globalization produces whatever they are widely shared What processes lead us in one direction or another This book examines a key dimension of globalization its fairness It investigates the meaning of and role fairness plays when public institutions are faced with the challenges and opportunities of globalization Here a distinguished group of contributors including both academics and practitioners focuses on East and Southeast Asia but the relevance of the issues discussed extends well beyond these regions They present a broad ranging examination of the intersections between fairness globalization and public institutions Contributors Doug Allen Walt T Anderson Ron Brown Jim Dator Jingping Ding Christopher Grandy Sohail Inayatullah Yong duck Jung Martin Khor Yoshiko Kojo Le Van Anh Ivana Milojevic Ryo Oshiba Edgar A Porter Dick Pratt Fred Riggs James Rosenau Yongseok Seo Chanto Sisowath Shunichi Takekawa **Asia and Pacific Bibliography** ,1999 **Democratization through Migration?** Christl Kessler,Stefan Rother,2016-03-10 In migration research studies on the influence of return migrants on the societies in their home countries are still few and predominantly concentrate on the economic dimension of migration The literature on democratization has likewise paid only scant attention to the external factors that play a role in the transition of states in the process of becoming more democratic Cognizant of these lacunae in research on migration and democratization this book sets out to argue that return migrants can play an important role in the consolidation process of young democracies The goal is therefore to explore the nature of this influence and to discuss its stabilizing as well as destabilizing aspects with regards to democratization As a case study this book analyzes labor exporter par excellence the Philippines Research is based on original data a survey in the Philippines with 2 000 respondents 37 in depth interviews with respondents from the sample and 45 expert interviews serving as background material The destinations covered are Saudi Arabia Qatar UAE Taiwan Japan and Hong Kong This book discusses whether labor migration can affect democratization processes and what impact the political order of the host country has on this potential effect It attests the potential of the migration experience to affect migrants attitudes towards democracy thus playing an important role in the support needed for democracies in the stage of consolidation Our findings suggest that the migration experience may not only lead to a more critical stance towards the political system of the home country there are also indicators of lesser support for the principles of democracy when compared to migrants about to leave the country for the first time The political system of the destination as such seems to be a less decisive factor than the specific freedoms and restrictions experienced by migrants and a potential bias when selecting the destination *New Regional Development Paradigms: Decentralization, governance, and the new planning for local-level development* Asfaw Kumssa,T. G. McGee,2001 Annotation Provides a wealth of concepts and practical experience from Asia Africa Europe and the Americas suggesting ways to implement development policies for those who are left behind **The John M. Echols Collection on Southeast Asia Accessions List** Cornell University. Libraries,Cornell University. Libraries. John M. Echols Collection on Southeast Asia,1998 [The Internet and Governance in Asia](#) Indrajit Banerjee,2007

This book constitutes a first ever attempt to map the impact of the Internet on governance in Asia. It examines key implications for democratization, cyber security, e-government, technical coordination, and Internet policy and regulation. The book is divided into five sections: Internet and Democracy; ways in which the Internet has been harnessed to promote greater democratization, public debate, and political participation; E-Government: the provision of services through the Internet and other ICT networks and its impact on public accountability and transparency; Cyber Security: the critical issues and concerns such as surveillance as well as the means by which the Internet can be effectively used to improve security as well as minimize risks from terrorism; Internet Governance: critical issues relating to the technical coordination of the Internet and the prospects for the best possible means to govern the structure and operations of the Internet; and Internet Policy and Regulation: key policy and regulatory issues and concerns relating to the use and impact of the Internet. The three chapters in each of the sections provide a diversity of perspectives covering each of the specific issues addressed by the section. The idea here is to provide readers with different perspectives and case studies on the same issue.

Innovative Teaching and Classroom Processes Timo Ehmke, John Chi-Kin Lee, 2025-05-29. This

volume delves into the evolving landscape of education by examining innovative teaching practices across two distinct educational systems. The book is organized into five parts, each offering a deep dive into how Germany and China are addressing key challenges in modern education, such as digitalization, the development of new skills for the future, and managing diversity in classrooms. Part I provides an overview of the contrasting educational perspectives between the two countries, while Part II focuses on subject-specific innovations in mathematics and science. Part III extends this exploration to music, foreign languages, and social sciences, showcasing how interdisciplinary approaches are enhancing teaching effectiveness. Part IV addresses the critical issue of diversity, presenting strategies for inclusive education tailored to different student needs. Finally, Part V offers a synthesis of the challenges and future prospects for educational innovation in both Germany and China. By contrasting Western and Chinese educational traditions, the book highlights not only the differences but also the potential for cross-cultural learning, providing valuable insights for educators, policymakers, and researchers interested in global educational trends and innovations.

Goh Keng Swee and Southeast Asian Governance Ian Patrick Austin, 2004. This book is aimed at readers who have limited or even no knowledge of the policy work carried out by Goh Keng Swee on the development of Singapore and the decisive influence his thinking continues to have on contemporary Singapore governance. The book further explores how Dr. Goh's developmental thinking and practices may be utilized by policy makers in developing economies within the Southeast Asian region and further abroad. His work, in fact, makes clear that developmental success is transferable between nations given the presence of pragmatic policy makers. Ultimately, the central aim of this book is to encourage further study and consideration of the words and work of one of Southeast Asia's premier thinkers on development.
