Governance Processes in Sierra Leone 1799-2014 Abubakar Hassan Kargbo, 2015 Governance Processes in Sierra Leone from 1799 2014 is one of the governance series which has been put together over the years to help not only postgraduate students at various universities in Sierra Leone but also people who are interested in knowing about the decentralisation process. It critically examines important issues in local government in Sierra Leone starting from the colonial period and covering the post independence era the process of decentralisation of local governance in 2004 and the present. The book starts with the concept of good governance because of its importance in decentralisation and the various features that characterise it. It is followed by a literature review on decentralisation in the developing countries. What should be the proper role of the parliament of Sierra Leone as the supreme organ of the state has been given much prominence in this book. Parliament's role to ensure that its activities are primarily focused on legislating pro poor policies and that the creation of a solid foundation for socio economic and political development through coalition building is highlighted. The book also contains the reintroduction of district officers into the decentralisation architecture in Sierra Leone. The significance of decentralisation its achievements so far its challenges and the way forward is extensively examined. **Historical**

Governance and the Three Arms of Government in Sierra Leone Abubakar Hassan Kargbo, 2015 This book titled Governance and the Three Arms of Government in Sierra Leone seeks to critically analyse the three arms of government in Sierra Leone in terms of their adherence to democratic principles and best international practices since independence The challenges governance institution have been facing are discussed and recommendation made The book also emphasized that despite the fact that the three arms of government inherited by the state of Sierra Leone at independence it could be argued that the state of Sierra Leone has enormous tasks to perform in all the facets of the body politic especially in the area of putting the necessary structures and institutions not only to complement the three organs but to promote better governance of the state of Sierra Leone Perhaps any government of Sierra Leone cannot only rely on the fact that it was democratically elected but has to deliver services efficiently and effectively to the public It is argued therefore that for this all important reason it is not only incumbent on government to put in place the necessary institutions and structures but also the formulation of policies that will help facilitate the governance process These institutions and structures when established and policies implemented against the backdrop of adequate resources will contribute positively to laying down the foundation of democratic good governance in the country It contains three main chapters on legislative executive and judicial arms of government and a conclusion

Andrew Grant,2007 **Sierra Leone Achieves One Party System of Government** Sierra Leone. Government Information Services. Publications Division,1978 *Foundations of Parliamentary Democracy in Sierra Leone* S. V. Wright,2000 This book gives a unique insider s account of the changes in governance that took place as Sierra Leone progressed from a British Colony with a self selected legislature to an Independent Nation with a democratically elected Parliament It covers the period from 1944 when the authour started his career to 1967 when a military take over saw the dissolution of Parliament In the position of Clerk to the various Legislatures in Sierra Leone the authour accumulated over twenty years of experience as an insider in the legislature and an independent witness of change It is from this vantage position that the book outlines details of the events processes and most of all the major personalities that shaped political governance in Sierra leone This book is not the usual historical account of dates and events with arguments over roles and outcomes Rather it is an insightful and detailed account of the motivation and strategies of the different stake holders as they battled for change in governance It outlines the cut and thrust of debate in the various legislatures resulting in the increased democratisation of political governance The 1944 Legislative Council of 21 members was made up mainly of European Government Officials and members appointed by the Governor This was later enlarged to include more elected members becoming a 57 member House of Representatives in 1951 with an elected Speaker The stalwarts who pressed for change come alive in this book with all their political savvy and their idiosyncrisms which made them colourful figures in the process of change The authour portrays these main characters with empathy and fondness that reflect his role in serving and guiding legislators as well as his friendship cultivated with them over the years The book comes alive with quotes from key players during critical debates on issues of profound national significance Through these extensive quotes and the authour s description of the personalities involved the book captures the wit and humour that helped to maintain decorum and mutual respect amongst legislatures at the most trying times These men there was only one woman legislator Madame Ella Koblo Gullama throughout this period were skilled at debates and parliamentary procedures as they sought independence from

Britain Their task was clearly complicated by tensions and disparities between the Colony people and Protectorate people due in large part to the British strategy of divide and rule in its territories The book provides us with lively insights into the personalities and contributions of pivotal figures including 4 Governors 2 Prime Ministers 3 Speakers and some of the most formidable opposition figures Milton Margai who became the first Prime Minister and his brother Albert Margai who succeeded him Siaka Stevens who later became the first President of the Republic of Sierra Leone Otto During Bankole Bright and Wallace Johnson household names in the history of Sierra Leone all these names come alive in this book as personalities that changed the course of history in the country In modern times Sierra Leone has become widely known for a series of military coups and an ugly civil war that caused extensive destruction loss of life and reversal of the democratic process This book reminds us of a time when the hottest battles were waged in the chambers of Parliament with weapons of wit diplomacy humour and skilled debate The book suggests there were winners and losers on every issue and debate but the winners tended to be magnanimous and losers always lived to fight another day The authour does not seek to pass political judgement on these early legislators beyond their stated positions and interests Like a true civil servant S V Wright succeeds in a challenging task by painting a neutral portrait of these early political representatives and the key legislative processes they pursued in shaping the future of a natio

Local Governance and Ethnicity in Sierra Leone Henry Mbawa Jr.,2013 In drawing attention to Sierra Leone s post war local governance reforms the author argues that while the main driver of these reforms was the need to extend the benefits of citizenship to rural inhabitants yet these reforms have tended to concentrate on Local Councils as the strong force for political participation and development ignoring the salience of unequal relations between ethnic groups the role of chieftaincy and a historically complicated centre local relation As such liberalised political processes within the Council system tend to be dominated by interethnic tensions over the content of citizenship while devolution generally has created significant opportunities for a central takeover of local politics Consequently the more politically autonomous chieftaincy system has emerged as the main conduit through which the issues of rural citizenship including land rights and representation tend to be negotiated

Freedom of Information Law and Good Governance Emmanuel Saffa Abdulai,2021-10-15 This book argues that Sierra Leone s ten year civil conflict demonstrates the criticality of freedom of information FOI as a facet of good governance where corruption thrives spanning both public and private sectors if Sierra Leone s continued security and stability are to be ensured It argues that it was the absence of an anti corruption tool like FOI and its attendants transparency and accountability in governance generally and in the area of the extractive industry in particular that lead to other social phenomena which directly sparked the war It proffers that for the continued consolidation of peace security stability and development in Sierra Leone transparency and accountability must be ensured by protecting and implementing the demand driven anti graft FOI Straddling the disciplines of law political science public policy and history the book s major premise is that it was the absence of FOI in the area of governance and the

extractive industry which enabled politicians civil servants and the politically connected to ransom and exploit Sierra Leone's mineral resources for their own profit with impunity a state of affairs which led to underdevelopment state collapse and an embittered civil populace especially the youth The book postulates that as such any attempt to ensure long term peace in Sierra Leone should seek to avoid replicating the conditions that gave rise to that gruesome conflict elites expropriation of national resources through endemic graft The book proposes the comprehensive and effective implementation of the Right to Information Act 2013 *Diamond Mining, Governance Initiatives and Post-conflict Development in Sierra Leone*, 2008

Presentation of the Government of Sierra Leone Sierra Leone, 2001 **Local Governance and Ethnicity in Sierra Leone** Henry Mbawa, 2012 Recent local governance reforms in post war Sierra Leone emphasise the need to extend the benefits of citizenship to rural inhabitants Yet these reforms have tended to focus on the establishment of local councils as the main means to enhance political participation and development ignoring the salience of unequal relations between ethnic groups the role of chieftaincy and historically complex centre local relations This thesis focuses on the relationship between Sierra Leone's dual local government system and inter ethnic relations and the implications for centre local relations It examines the extent to which recent post war local governance reforms address the type of colonial and post colonial politics that had disenfranchised the vast majority of rural Sierra Leoneans The thesis also examines whether top down reorganisation of local democratic politics can provide sufficient autonomy for local institutions to influence the attainment of local citizenship The thesis found that the attainment of rural citizenship has increasingly come to be defined by emerging contestations and negotiations between ethnic groups in both local councils and chieftaincy These interactions and contestations have their roots in the colonial imagination but have also been shaped by the turpitude of Sierra Leone's post colonial politics characterised by ethno political divisions and centralisation The thesis concludes that the ability of local government institutions particularly local councils to influence inter ethnic relations is severely undermined by the failure of post war local governance reforms to deal with the legacy of Sierra Leone's complicated centre local relations and incorporate chieftaincy which enjoys some legitimacy and support among rural inhabitants due to its proximity and influence over rural socio economic life Consequently devolution has created significant opportunities for an indirect central takeover of local politics and intensified local ethnic conflicts This situation is made possible through a veiled triangle of centralisation characterised by limited fiscal resources power and centralised ethno political mobilisation within the council system In this context chieftaincy has emerged as the main conduit through which these inter ethnic relations are negotiated because of the relative autonomy it enjoys from central political elites **Political Economy of Extractives Governance in Sierra Leone** Richard Fanthorpe, 2013
