Manual of Cardiovascular Disease in Women Angela H.E.M. Maas, Eva Gerds, 2024-09-27 This manual defines sex and gender differences in cardiovascular disease and how they have become an important topic within most subspecialties in the field of cardiology It is now evident that sex differences in biology and lifestyle influence the pathophysiology of heart disease Consequently risk factors for cardiac disease are modified by sex and gender and women and men develop partly different variants of the same heart diseases These facts profoundly influence prevention and

management in clinical practice Good medical practice demands a more tailored and personal care for each individual patient In addition the life course of women has a few unique phases related to hormonal changes in pregnancy and after menopause that also interact with individual risk and the development of co morbidities As heart disease is now the number one cause of death in women worldwide a more specific attention to cardiovascular disease in women is justified Most important advances in gender specific knowledge are related to ischemic heart disease and its traditional and sex specific risk factors Diagnostic pathways have changed coronary angiography is no longer the gold standard that it used to be Recent guidelines and position papers have paid attention to these new insights whereas educational programs urgently need to be adapted The ongoing paradigm shift in cardiology needs to be updated for the clinician in an easy and accessible manner Other important topics in which sex and gender differences have been elaborated are heart failure atrial fibrillation aortic valve disease and its treatment cardiac rehabilitation co morbidities cardiotoxicity in cancer treatment and neurology In addition female specific risk factors and socio economic factors are relevant to women s cardiovascular health We will invite the best EU experts in this field to contribute to the various chapters Manual of Cardiovascular Disease in Women has an educational role for established cardiologists and vascular specialists in training nurses and other allied professionals It represents an update on the most recent insights in sex and gender differences in cardiovascular health with a focus on women s cardiovascular diseases Additional questions via app Download the Springer Nature Flashcards app for free and use exclusive additional material to test your knowledge Inflammatory Bowel Disease Nursing Manual Andreas Sturm, Lydia White, 2025-07-25 Building on the success of the first edition this new and expanded edition explores the complexities of inflammatory bowel disease IBD with an expanded focus on the viewpoint and experience of those living with IBD and the interface of clinical care and research opportunities With cases of ulcerative colitis UC and Crohn s disease CD rising worldwide the need for informed patient centered care has never been greater Despite their profound impact on daily life and healthcare systems these conditions remain challenging to diagnose and treat IBD nurses are increasingly recognised as key clinicians within the multidisciplinary team caring for people with IBD Through experience and specialist knowledge IBD nurses provide timely support advice and treatment for people living with this unpredictable condition IBD nurses are also well placed to liaise with the wider team developing patient centred services which best fit their local health framework This updated manual brings together international expertise and practical insights to support nurses and clinicians in optimizing IBD management Whether you re a seasoned professional or looking to expand your expertise this resource equips you with the knowledge and confidence to enhance care and improve outcomes for people living with IBD wherever in the world you work Ford Ka (96-08).
