

BUILD YOUR OWN
OFF-ROAD BUGGY
FOR AS LITTLE AS £100

This book, which follows a similar concept to the author's best-selling *Build Your Own Sports Car For As Little As £250*, is a step-by-step guide to building a single-seater off-road buggy. Using standard tools, basic skills and low-cost materials, it shows how to make the frame, and advises how to modify and use cheap but serviceable mechanical components from a donor motorcycle. The result is both a low-cost, entertaining buggy and a learning experience in engineering and design.

This all-colour book includes instructions on:

- The tools and materials required
- What to salvage from your donor motorcycle and where to find what else is needed
- How to make the strong tubular-steel buggy frame, the axles and steering components, and the controls
- How to choose a suitable engine and gearbox
- Alternative ways of making some of the components
- How to carry out finishing and final assembly
- Where to use your buggy and how to drive it safely

Ron Champion is the author of the best-selling *Build Your Own Sports Car For As Little As £250*. After building a simple kart for his son James, he became interested in motorcycle-engined buggies when he was involved in youth and community work, and came up with a basic design similar to the one in this book. Young people in a youth training workshop recycled the major components from scrap motorcycles and successfully built dozens of these buggies, and went on to have hours of fun driving them.

Owner's Instructions: Drawn! The author and an amateur artist (photo above) a buggy that has been modified and painted to look like a sports car. **Build Your Own** is a complete guide to building a four-wheeled buggy after powder-coating, a finished buggy is put through its paces.

Mongol Rally - Three weeks into the unknown JOHN IRVING,2011-05-01 It was a gruelling adventure and an epic challenge On the face of it all we had to do was get from London to Mongolia But looking deeper it was going to be a lot less simple than it had first appeared We had minimal planning bought a horribly underpowered car that was fit for scrap had no external support no prior expedition experience or survival knowledge and decided to do it all in the name of charity We only allowed ourselves three weeks to complete the adventure I hadn't even heard of half of the countries we were intending to cross and certainly didn't speak the languages but we'd go for it anyway and see how things turned out It couldn't be that hard after all Here's my account of how it happened what we came across the scrapes we got into and how we got out of them and a selection of the numerous photos I took on the 9 592 miles to Mongolia Some experiences defied belief some were mildly terrifying but there are none that I will ever forget
