Phillip Nelson

Good Intentions Bad Outcomes Good Intentions Bad Outcomes:

Good Intentions, Bad Outcomes Santiago Levy, 2010-01-01 Despite various reform efforts Mexico has experienced economic stability but little growth Today more than half of all Mexican workers are employed informally and one out of every four is poor Good Intentions Bad Outcomes argues that incoherent social programs significantly contribute to this state of affairs and it suggests reforms to improve the situation Over the past decade Mexico has channeled an increasing number of resources into subsidizing the creation of low productivity informal jobs These social programs have hampered growth fostered illegality and provided erratic protection to workers trapping many in poverty Informality has boxed Mexico into a dilemma provide benefits to informal workers at the expense of lower growth and reduced productivity or leave millions of workers without benefits Former finance official Santiago Levy proposes how to convert the existing system of social security for formal workers into universal social entitlements He advocates eliminating wage based social security contributions and raising consumption taxes on higher income households to simultaneously increase the rate of growth of GDP reduce inequality and improve benefits for workers Good Intentions Bad Outcomes considers whether Mexico can build on the success of Progres a Oportunidades a targeted poverty alleviation program that originated in Mexico and has been replicated in over 25 countries as well as in New York City It sets forth a plan to reform social and economic policy an essential element of a more equitable and sustainable development strategy for Mexico

The Hall of Shame: Good Intentions, Bad Outcomes in Science Manjunath.R, 2024-07-11 Can we use science for good without causing unintended problems Explore the intricate tapestry of scientific progress in The Hall of Shame Good Intentions Bad Outcomes in Science This compelling book delves into the paradoxical nature of innovation driven by noble intentions yet yielding unintended consequences From environmental degradation caused by industrial advancements to ethical dilemmas sparked by technological breakthroughs each page uncovers pivotal moments where scientific pursuits have inadvertently led to adverse outcomes Through insightful analysis and thought provoking examples discover how the path to progress is fraught with challenges urging us to rethink our approach to scientific exploration The Hall of Shame challenges readers to contemplate the ethical responsibilities inherent in scientific endeavors and to envision a future where science serves humanity without compromise

The Triple Bottom Line, Does it All Add Up? Adrian Henriques, Julie Richardson, 2013 The concept of the triple bottom line TBL the idea that business activity can simultaneously deliver financial social and environmental benefits was introduced in the early 1990s A decade on The Triple Bottom Line Does it All Add Up brings together the world's leading experts on corporate responsibility to assess the implications benefits and limitations of the TBL This collection provides a review of what has already been achieved in stimulating change in corporate culture and bringing businesses to an appreciation of the importance and benefits of corporate social responsibility CSR and good environmental performance It further explores the conceptual and practical limits of the metaphor of the TBL and sets out what can be achieved through regulation and

legislation presenting detailed professional procedures for environmental accounting and management and social auditing. The contributors' wealth of experience and insight provides a vivid picture of how much attention is now being focused by businesses on delivering more than just financial targets and they clearly outline the necessary steps for successfully continuing along this trajectory.

Good Intentions—Bad Consequences Phillip Nelson, 2017-03-24. A new approach to understanding voter choice with important implications. There is a substantial class of voters who would like to do good but ignore important consequences of their attempts to do so, naïve altruists. The book both shows why such a class exists and tests the implications of that group's behavior in a setting where other voters are self-interested, others are traditionalists, and imitation plays a big role in voter choice. The book also looks at the policy implications of such behavior, accepting as desirable but not fully achievable the democratic ideal in which sufficiently informed citizens are given equal weight in political choices. Naïve altruists ignore the anti-growth consequences of redistribution from the rich as a class to the poor as a class. That ignorance produces too much of that redistribution in terms of the democratic ideal.

Legal and Ethical Issues for Health Professionals with Navigate Advantage Access George D. Pozgar, 2023-03-31. Legal and Ethical Issues for Health Professionals 6th Edition has been designed to assist the reader in a more comfortable transition from the didactics of the classroom to the practical application in the workplace. The 6th Edition provides the reader with a clearer understanding of how the law and ethics are intertwined as they relate to health care dilemmas. The 6th Edition, as with previous editions, has been designed to introduce the reader to various ethical/legal issues and should not be considered an in-depth or comprehensive review of a particular ethical/legal issue. The book is a call to arms to do good things to stand out from the crowd because acts of caring, compassion, and kindness often go unnoticed.

Acts, Intentions, and Moral Evaluation Craig M. White, 2022-12-27. This book argues that the moral quality of an act comes from the agent's inner states. By arguing for the indispensable relevance of intention in the moral evaluation of acts, the book moves against a mainstream objective approach in normative ethics. It is commonly held that the intentions, knowledge, and volition of agents are irrelevant to the moral permissibility of their acts. This book stresses that the capacities of agency rather than simply the label agent must be engaged during an act if its moral evaluation is to be coherent. The author begins with an ontological argument that an act is a motion or a causing of change in something else. He argues that the source of an act's moral meaning is in the agent specifically what the agent is aware of relevant facts around her aims to accomplish. He then moves to a series of critical chapters that consider arguments for mainstream approaches to act evaluation including Thomson's dismissal of the agent's knowledge and volition requirements, Scanlon's arguments for a derivative relevance of intentions to permissibility, Frowe's causal roles of agents in the moral evaluation of acts, and Bennett's explicit defense of the objective approach. The book concludes by offering the author's preferred replacement for the objective approach: an Aristotelian-Thomist view of acts. *Acts, Intentions, and Moral Evaluation* will be of interest to scholars and advanced students working in ethics just as war theory, the

ethics of self defense and philosophy of action **Why** Samantha Kleinberg,2015-11-16 Can drinking coffee help people live longer What makes a stock s price go up Why did you get the flu Causal questions like these arise on a regular basis but most people likely have not thought deeply about how to answer them This book helps you think about causality in a structured way What is a cause what are causes good for and what is compelling evidence of causality Author Samantha Kleinberg shows you how to develop a set of tools for thinking more critically about causes You ll learn how to question claims identify causes make decisions based on causal information and verify causes through further tests Whether it s figuring out what data you need or understanding that the way you collect and prepare data affects the conclusions you can draw from it Why will help you sharpen your causal inference skills Social Development Alison Clarke-Stewart,Ross D. Parke,2014-01-21 Social Development 2nd Edition provides psychologists with a comprehensive scholarly engaging and up to date treatment of theoretical insights and empirical findings in the field of social development It conveys the excitement of recent advances along with the accumulated knowledge that forms the basis of the field Psychologists will gain a better understanding of cultural variation both among societies around the world and within our own society The Codification of Medical Morality R.B. Baker,R. Porter,2013-03-09 The editors have incurred many debts in preparing this book and both etiquette and ethics would be contravened if they were not discharged here Above all we wish to thank the contributors for so cheerfully complying with our suggestions for preparing their papers for publication and efficiently meeting our schedules It is thanks to their cooperation that this volume has appeared speedily and painlessly their revisions have helped to give it internal coherence This volume has emerged from papers delivered at a conference on the History of Medical Ethics held at the Wellcome Institute for the History of Medicine London 1 December 1989 We are most grateful to the Wellcome Trust for having underwritten the costs of the conference and to Frieda Houser and Stephen Emberton whose organizational skills contributed so much to making it a smoothly run and enjoyable day In addition to the papers delivered at the conference we are delighted to have secured further contributions from David Harley and Johanna Geyer Kordesch Our thanks to them for their eager help From start to finish we have received splendid encouragement from all those connected with the Philosophy and Medicine series especially Professor Stuart Spicker and Martin Scrivener at Kluwer Academic Publishers Their enthusiasm has lightened our load and expedited the editorial process Philosophical Adventures with Fairy Tales Wendy C. Turgeon,2020-04-08 Often we think of fairy tales as written for little children as entertainment But fairy tales are much more and invite young and old alike to reflect on serious philosophical themes This book offers readers opportunities to engage in philosophical dialogue over a range of important concepts such as truth goodness beauty fairness and many more The prompts for these reflections will be fairy tales In addition to offering guidelines for building a philosophical community with children and young people the reader will read familiar stories with fresh eyes and encounter new ideas with surprising connections to contemporary issues and concerns Parents will enjoy sharing a tale with their child and journeying into the

big questions that fascinate children Teens will relish the chance to revisit a favorite fairy tale but as now addressing their own questions and concerns Finally adults who are intrigued by philosophy can explore the power of stories fairy tales to bring forward serious questions of justice identity and meaning making The values of doing philosophy are many developing our critical thinking ability learning how to question and explore alternative ideas building good arguments for our positions listening to those who may see the world differently than we do and learning to engage them in meaningful dialogue The value of using fairy tales is their accessibility to a wide audience their innate appeal to our imagination and their magical ability to make us ponder *The Grimrose Path* Rob Thurman,2010-09-07 National bestselling author of Roadkill Bar owner Triva Iktomi knows that inhuman creatures of light and darkness roam Las Vegas especially since she s a bit more than human herself She s just been approached with an unusual proposition Something has slaughtered almost one thousand demons in six months And the killing isn t going to stop unless Trixa and her friends step into the fight Watch a Video

Prisoners of the White House Kenneth T. Walsh,2015-11-17 Prisoners of the White House looks at the isolation experienced by presidents of the United States in the White House a habitat almost guaranteed to keep America s commander in chief far removed from everyday life The authors look at how this is emerging as one of the most serious dilemmas facing the American presidency As presidents have become more isolated the role of the presidential pollster has grown Ken Walsh has been given exclusive access to the polls and confidential memos received by presidents over the years and has interviewed presidential pollsters directly to gain their unique perspective Prisoners of the White House gets inside the bubble and punctures the mythology surrounding the presidency *Death And Medical Power: An Ethical Analysis Of Dutch Euthanasia Practice* ten Have, Henk,Welie, Jos,2005-05-01 This book is a well referenced review of the history of the societal debate attempts at regulation and the practice itself In addition it discusses important and insightful distinctions active passive omission commission outcomes intentions The unique basis for their conclusion makes an outstanding contribution to the literature Robert D Orr MD CM Professor of Bioethics at Loma Linda University California USA How have Dutch debates on end of life care developed so differently from most other countries finally resulting in the legalization of euthanasia What are the relevant legal medical and ethical dimensions of euthanasia and physician assisted suicide What lessons can be learned from the Dutch experience with euthanasia In all modern countries a good death and relief of suffering are important issues of public debate The bioethical debate in the Netherlands is unique since it has been focusing on the issue of euthanasia for more than thirty years This book describes the debate explains its origins and analyses its development resulting in the legislation of euthanasia It also presents data on the medical practice of euthanasia with examples of cases Death and Medical Power details the evolution as well as the complexities of the legal responses to physician involvement in euthanasia The authors analyze the ethical debate concerning euthanasia discussing the pros and cons of medical termination of human life The book concludes with a section on the lessons to be learned from the Dutch

experience This unique study will be of relevance to all clinicians and other professionals involved in end of life care to health policy makers and educators as well as anybody else interested in the ethics of euthanasia

The Corporate Social Responsibility Reader Jon Burchell, 2020-10-28 In the age of global capitalism shareholders and profits are not the only concerns of modern business corporations Debates surrounding economic and environmental sustainability and increasing intense media scrutiny mean that businesses have to show ethical responsibility to stakeholders beyond the boardroom A commitment to corporate social responsibility may help the wider community It could also protect an organization's brand and reputation Including key articles and original perspectives from academics NGOs and companies themselves The Corporate Social Responsibility Reader is a welcome and insightful introduction to the important issues and themes of this growing field of study This book addresses the changing relationships between business state and civil society the challenges to business practice what businesses should be responsible for and why issues of engagement transparency and honesty the boundaries of CSR can businesses ever be responsible While case studies examine major international corporations like Coca Cola and Starbucks broader articles discuss thematic trends and issues within the field This comprehensive but eclectic collection provides a wonderful overview of CSR and its place within the contemporary social and economic landscape It is essential reading for anyone studying business and management and its ethical dimensions

Legal and Ethical Issues for Health Professionals George D. Pozgar, 2019-01-07 Legal and Ethical Issues for Health Professionals Fifth Edition is a concise and practical guide to legal and ethical dilemmas facing healthcare professionals in the real world today Thoroughly updated and featuring new case studies this dynamic text will help students to better understand the issues they will face on the job and the implications in the legal arena With contemporary topics real world examples and accessible language this comprehensive text offers students an applied perspective and the opportunity to develop critical thinking skills Legal and Ethical Issues for Health Professionals provides an effective transition from the classroom to the reality of a clinical environment

Pandas and People Jianguo Liu, Vanessa Hull, Wu Yang, Andrés Viña, Xiaodong Chen, Zhiyun Ouyang, Hemin Zhang, 2016-01-14 Understanding the complex relationships between humans and the natural world is essential for achieving environmental sustainability and improving human well being yet many studies are unable to reveal complex interactions and hidden trends This is the first book to synthesize the findings and approaches of long term integrated research in a model coupled human and natural system and to illustrate their applications to regional national and global scales It features a classic long term interdisciplinary research project in the Wolong Nature Reserve of China which contains one of the largest wild populations of the world famous endangered giant pandas Bringing together a team of contributors from both the natural and social sciences this book explores how a long term interdisciplinary and model system approach is essential to uncover the common patterns and mechanisms of coupled systems to develop ideas and methods for studying and managing other coupled systems and ultimately to contribute to the development of theories about coupled systems for sustainability

Pandas and People will be essential reading for scholars interested in the interface of the natural and social sciences including ecologists conservation biologists environmental scientists sustainability scientists wildlife biologists forest scientists sociologists anthropologists economists and political scientists It will also be a valuable reference for policy makers natural resource managers and graduate students *Byron's Romantic Celebrity* T. Mole, 2007-07-31 This book offers a new history and theory of modern celebrity It argues that celebrity is a cultural apparatus that emerged in response to the Romantic industrialization of print and culture It investigates the often strained interactions of artistic endeavour and commercial enterprise and the place of celebrity culture in history of the self
