**Scripture** D. A. Carson, 2010-07-01 God's Word has always had enemies but in recent years the inspiration and authority of Scripture have been attacked with renewed vigor Respected scholar D A Carson has written widely on the nature of Scripture over the past thirty years and here presents a timely collection of his work in two parts In part 1 Carson selects essays written on such themes as how to interpret the Bible recent developments in the doctrine of Scripture unity and diversity in the New Testament and redaction criticism Presenting a theologically balanced and confessional perspective Carson defines the terms of a number of debates critiques interpretive methods and theories and suggests positive guidelines for future action Part 2 presents critical reviews of nine books dealing with the inspiration and authority of Scripture Though substantial in content Carson's detailed reviews will foster careful thought and perspective in those who are relatively new to the debates surrounding biblical inspiration and authority This volume is a diverse collection that will prove to be a helpful resource to both seasoned pastors and scholars and those who are just starting serious study of the Bible **The Oxford**

**Handbook of the Latin Bible** H. A. G. Houghton, 2023 The Oxford Handbook of the Latin Bible contains thirty one chapters covering the history of the Latin Bible from its earliest translations the Vetus Latina the revisions leading to the Vulgate the achievements and innovations of the Carolingian period and Middle Ages the development of modern scholarship and the twentieth century innovation of the Nova Vulgata It includes discussions of key figures and interpreters the most important manuscripts and the significance of the Latin Bible in multiple fields *Biblical Interpretation in Early Christian Gospels*

Thomas R. Hatina, 2020-03-19 This volume is the fourth in a set of volumes which together explore current approaches to the study of scripture in the Gospels Thomas R Hatina's latest edited collection begins with an introduction surveying methodological approaches used in the study of how scriptural allusions quotations and references function in John with subsequent essays grouped into four categories that represent the breadth of current interpretive interests The contributors begin with historical critical approaches before moving to rhetorical and linguistic approaches literary approaches and finally social memory approaches Each study contains not only recent research on the function of scripture in John but also an explanation of the approach taken making the collection an ideal resource for both scholars and students who are interested

in the complexities of interpretation in John's context as well as our own      *Inductive Bible Study* David R. Bauer, Robert A. Traina, 2011-04-01 Following up Robert Traina's classic *Methodical Bible Study* this book introduces the practice of inductive Bible study to a new generation of students, pastors and church leaders. The authors, two seasoned educators with over sixty combined years of experience in the classroom, offer guidance on adopting an inductive posture and provide step-by-step instructions on how to do inductive Bible study. They engage in conversation with current hermeneutical issues, setting forth well-grounded principles and processes for biblical interpretation and appropriation. The process they present incorporates various methods of biblical study to help readers hear the message of the Bible on its own terms      **Biblical Affirmations of Woman** Leonard Swidler, 1979-04-15 Here is a comprehensive one-volume commentary on what the Bible really says about women. In this well-documented topical review, every positive biblical reference about women is quoted in full, set in context and provided with a brief exposition. Over 350 specific topics are examined      **The Non-Canonical Gospels** Paul Foster, 2008-09-11 This book brings together a collection of chapter-length treatments on the most significant of the non-canonical gospels. A particular strength of the volume is that it draws upon the research of leading experts in the field and clearly and concisely communicates the most hotly contested issues surrounding each text. While a key function of each chapter is to make the current academic debates accessible to a wider audience, these treatments are not simply overviews or survey articles. They also present fresh perspectives on a number of points and critically assess the most recent trends in scholarship. As such, they will provide an ideal entry point for advanced undergraduate courses and taught Masters programmes. The structure of the book is divided up in an easily useable format. There is an introduction which underscores the significance of the non-canonical texts both for the original readers and for contemporary audiences. This chapter by Keith Elliott also traces important moments in the reception of a number of these texts both in art and literature. Next follows the main sequence of chapters dealing with individual texts. Texts such as the Gospel of Thomas, the Gospel of Peter and the Gospel of Mary are treated first due to the impact they have had to varying degrees on Historical Jesus research. Other texts are grouped in various subgroups: the two infancy gospels follow each other and the more fragmentary texts are also closely linked in the arrangement. The book presents one of the most comprehensive and up-to-date discussions of a range of texts that continue to be of interest to scholars and wider readers. The discussions should clarify a number of popular misconceptions and allow for a more informed debate. The scholars who contribute to this collection represent an eclectic range of views and theological outlooks. No attempt has been made to impose a prescribed perspective. Rather, the leading experts have been consulted to produce fresh and stimulating treatments. The book will include contributions from Andrew Gregory, Oxford; Christopher Tuckett, Cambridge; April DeConick, Rice; and Simon Gathercole, Aberdeen, among others.

Bond, Catrin H. Williams, 2021-02-25 John's Transformation of Mark brings together a cast of internationally recognised biblical scholars to investigate the relationship between the gospels of Mark and John In a significant break with the prevailing view that the two gospels represent independent traditions the contributors all argue that John both knew and used the earlier gospel Drawing on recent analytical categories such as social memory secondary orality or relecture and ancient literary genres such as rewritten Bible and bioi the central questions that drive this volume focus on how John used Mark whether we should speak of dependence familiarity with or reception and whether John intended his work to be a supplement or a replacement of Mark Together these chapters mount a strong case for a reassessment of one of the key tenets of modern biblical criticism and open up significant new avenues for further research

 write books lifting up issues that they believe are vitally important for living a successful Christian life The problem is writers  
 of the New Testament Epistles like Paul Peter James and John never mention these matters How can something be so  
 important to some modern day writers and not even be mentioned in the Epistles This is a book about exhortations  
 commandments and admonitions It is a matter of what is actually exhorted in the Epistles and what is not It is the writer's  
 hope that people will find freedom and peace with regard to the several matters exhaustively considered in these pages  
 matters such as exorcism of demons fasting and Sabbath keeping Bottom line truth is to be found in the New Testament  
 Epistles with regard to instruction for living the normal Christian life *International Review of Biblical Studies, Volume 47  
 (2000-2001)* Bernhard Lang,2021-09-06 Formerly known by its subtitle Internationale Zeitschriftenschau für  
 Bibelwissenschaft und Grenzgebiete the International Review of Biblical Studies has served the scholarly community ever  
 since its inception in the early 1950 s Each annual volume includes approximately 2 000 abstracts and summaries of articles  
 and books that deal with the Bible and related literature including the Dead Sea Scrolls Pseudepigrapha Non canonical  
 gospels and ancient Near Eastern writings The abstracts which may be in English German or French are arranged  
 thematically under headings such as e g Genesis Matthew Greek language text and textual criticism exegetical methods and  
 approaches biblical theology social and religious institutions biblical personalities history of Israel and early Judaism and so  
 on The articles and books that are abstracted and reviewed are collected annually by an international team of collaborators  
 from over 300 of the most important periodicals and book series in the fields covered Preaching to Be Heard Lucas  
 O'Neill,2019-02-13 If a sermon is preached in a church and no one is listening does it make a difference There are many  
 expository preachers who forego dynamic delivery and many dynamic preachers who lose sight of faithfully communicating  
 the biblical text Too often preachers feel they have to choose one or the other But dynamic delivery and faithful exposition  
 are not mutually exclusive In Preaching to Be Heard Lucas O'Neill shows pastors that presenting engaging sermons that are  
 biblically focused is not an impossibility In fact the key to commanding attention lies in the text itself Rather than relying on  
 tricks or gimmicks his approach to sermon writing focuses on maintaining tension throughout while sticking close to the  
 biblical text Using practical examples and a step by step method O'Neill shows pastors how relying on the inherent

anticipation within Scripture can lead to sermons that are powerful and heard
