Reading the Fantastic Imagination Dana Percec,2014-06-26 The purpose of *Reading the Fantastic Imagination: The Avatars of a Literary Genre* is the observation of the very hybridity of the fantastic genre as a typical postmodern form. The volume continues an older project of the editor and a large number of the contributors that of investigating the current status of several popular genres from historical fiction to romance. The scrutiny continues in this third volume dedicated to the fantastic imagination and the plethora of themes, moods, media and formats deriving from it. *FanLit* is surely trendy even if it is not highbrow despite its noble ancestry. This apparent paradox characterizes many of the literary genres en vogue today from historical fiction to romance. This very contradiction forms part of the basis for this book. After the success of the previous book in the series dedicated to a borderline literary genre *Romance: The History of a Genre* was declared by Cambridge Scholars Publishing as the Critics Choice Book of the Month in January 2013, this collection of studies about the fantastic imagination takes a further step into completing a larger research project which seeks to investigate the varieties of popular fiction. Although all contributors in the series teach canonical literary texts they did not hesitate to plunge into the opposite area of fictional work and moreover continued doing so even though such a project caused the raise of a few high brows. Percec 2012 232 as argued in the Endnote of *Romance: The History of a Genre*.

[York Notes Companions: Gothic Literature](#) Susan Chaplin,2014-08-28 An exploration of Gothic literature from its origins in Horace Walpole's 1764 classic *The Castle of Otranto* through Romantic and Victorian Gothic to modernist and postmodernist takes on the form. The volume surveys key debates such as Female Gothic, the Gothic narrator and nation and empire and focuses on a wide range of texts including *The Mysteries of Udolpho*, *Frankenstein*, *Jane Eyre*, *Dracula*, *The Magic Toyshop* and *The Shining*.

Risk and the English Novel Julia Hoydis, 2019-09-23 Taking the cue from the currency of risk in popular and interdisciplinary academic discourse this book explores the development of the English novel in relation to the emergence and institutionalization of risk from its origins in probability theory in the late seventeenth century to the global risk society in the twenty first century Focussing on 29 novels from Defoe to McEwan this book argues for the contemporaneity of the rise of risk and the novel and suggests that there is much to gain from reading the risk society from a diachronic literary cultural perspective Tracing changes and continuities the fictional case studies reveal the human preoccupation with safety and control of the future They show the struggle with uncertainties and the construction of individual or collective logics of risk which oscillate between rational calculation and emotion helplessness and denial and an enabling or destructive sense of adventure and danger Advancing the study of risk in fiction beyond the confinement to dystopian disaster narratives this book shows how topical notions such as chance and probability uncertainty and responsibility fears of decline and transgression all cluster around risk

Death in the Middle Ages and Early Modern Times Albrecht Classen, 2016-04-11 Death is not only the final moment of life it also casts a huge shadow on human society at large People throughout time have had to cope with death as an existential experience and this also of course in the premodern world The contributors to the present volume examine the material and spiritual conditions of the culture of death studying specific buildings and spaces literary works and art objects theatrical performances and medical tracts from the early Middle Ages to the late eighteenth century Death has always evoked fear terror and awe it has puzzled and troubled people forcing theologians and philosophers to respond and provide answers for questions that seem to evade real explanations The more we learn about the culture of death the more we can comprehend the culture of life As this volume demonstrates the approaches to death varied widely also in the Middle Ages and the early modern age This volume hence adds a significant number of new facets to the critical examination of this ever present phenomenon of death exploring poetic responses to the Black Death types of execution of a female murderess death as the springboard for major political changes and death reflected in morality plays and art

Darkness Subverted Katrin Althans, 2010-02-18 At the heart of the Gothic novel proper lies the discursive binary of self and other which in colonial literature was quickly filled with representations of the colonial master and his indigenous subject Contemporary black Australian artists have usurped this colonial Gothic discourse torn it to pieces and finally transformed it into an Aboriginal Gothic This study first develops the theoretical concept of an Aboriginal Gothic and then uses this term as a tool to analyse novels by Vivienne Cleven Mudrooroo Kim Scott Sam Watson and Alexis Wright as well as films directed by Beck Cole and Tracey Moffatt It centres on the question of how a genuinely European mode the Gothic can be permeated and thus digested by elements of indigenous Australian culture in order to portray the current situation of Aboriginal Australians and to celebrate a recovered cultural identity
