Good People Patrick Harpur:

The Good People Patrick Harpur, 2017-07-07 Two women see something uncanny in the skies over west London in the summer of 1989 It s the summer of 1989 a time of global flux just before the collapse of the Berlin wall and of South Africa s apartheid a time of signs and portents Two women see something uncanny in the skies over west London Maeve the wife of the local vicar finds she has lost nearly an hour of her life In search of this lost time she uncovers the memory of an encounter with aliens and worse a mysterious event from her childhood in Ireland which she finally redeems in the underworld of an IRA connected pub Her husband Alistair has his own nightmare preparations for the visit of an African bishop and his entourage for a Christian conference whose left wing agenda is threatened by the attendance of a famous and enigmatic nun Meanwhile Heather s sighting comes as a revelation that leads her like a questing Grail knight through strange ordeals from a menacing cult to an alternate reality from a mental hospital to finally an encounter with her own hidden depths A companion volume to the author s critically lauded Daimonic Reality a classic nonfiction study of otherworld journeys The Good People is a modern fairy tale that dramatizes with wit the interweaving of revelation and delusion the natural and the supernatural worldliness and sanctity ultimately suggesting that our humdrum lives are shadowed by the alien dimension of myth Visionary Graham Hancock, 2022 Previously published in 2007 as Supernatural by Disinformation

Supernatural Graham Hancock, 2006-09-01 Publisher s Note A new expanded edition has replaced this book under the new title Visionary The Mysterious Origins of Human Consciousness ISBN 9781637480069 This definitive edition includes a new Introduction by Graham Hancock as well as restored chapters that were omitted from the original paperback release Less than fifty thousand years ago mankind had no art no religion no sophisticated symbolism no innovative thinking Then in a dramatic and electrifying change described by scientists as the greatest riddle in human history all the skills and qualities that we value most highly in ourselves appeared already fully formed as though bestowed on us by hidden powers In Supernatural Graham Hancock sets out to investigate this mysterious beforeandafter moment and to discover the truth about the influences that gave birth to the modern human mind His quest takes him on a detective journey from the stunningly beautiful painted caves of prehistoric France Spain and Italy to rock shelters in the mountains of South Africa where he finds extraordinary Stone Age art He uncovers clues that lead him to the depths of the Amazon rainforest to drink the powerful hallucinogen Ayahuasca with shamans whose paintings contain images of supernatural beings identical to the animalhuman hybrids depicted in prehistoric caves Hallucinogens such as mescaline also produce visionary encounters with exactly the same beings Scientists at the cutting edge of consciousness research have begun to consider the possibility that such hallucinations may be real perceptions of other dimensions Could the supernaturals first depicted in the painted caves be the ancient teachers of mankind Could it be that human evolution is not just the meaningless process that Darwin identified but something more purposive and intelligent that we have barely begun to understand *The Savoy Truffle* Patrick

Francesco Dimitri,2018-11-29 How to reclaim wonder in our lives and achieve the good life All of us experience a sense of wonder at some point in our lives Perhaps you felt it when you experienced your first kiss when you grasped the perfectly balanced beauty of an equation or when you first saw the rose windows of Chartres Cathedral Whatever the circumstances that triggered the feeling you were left speechless by this extraordinary world of ours We may speak different languages cling to different ideas about politics religion and love but a longing for wonder connects us all through space and time Wonder is the impulse behind scientific and philosophical inquiry artistic creativity and spiritual yearning It is the most fruitful human sense firing our curiosity inspiring us to hope and dream But our sense of wonder that feeling we had as children seeing the Milky Way for the first time gets used up Faced with the practical demands of adulthood we trade a sense of wonder for a sense of reality which all too often brings anxiety and unhappiness in its wake By exploring the nature of wonder in many areas of human experience from the natural world to the spirit world from science to storytelling Francesco Dimitri reveals how we can reclaim our sense of wonder not to become children again but to become happier and more fulfilled adults better equipped to face the challenges of modern life **Scottish Fairy Belief** Lizanne

Fictional Realities / Real Fictions. Contemporary Theatre in Search of a New Mimetic Paradigm Mateusz Borowski, Malgorzata Sugiera, 2009-03-26 The collection of essays Fictional Realities Real Fictions Contemporary Theatre in Search of a New Mimetic Paradigm tackles the problem of fictionality and reality in contemporary theatre practice and playwriting It approaches this hotly debated issue in a larger context of the theories of theatrical and dramatic mimesis The volume provides an answer to the most recent developments in performative arts such as the widespread use of new media technologies the popularity of site specific productions and the flourishing of various post dramatic forms of expression The phenomena scrutinized in this collection call into question the basic dichotomy between the fictional and the real on which the theory and practice of the Western theatre has been based right from its inception However due to their extremely heterogeneous character they pose a considerable problem for researchers and teachers who still do not find a widely applicable methodology for the analysis of contemporary performances and texts for the theatre Fictional Realities Real Fictions sets the discussion of the onset of new mimetic paradigm in three interrelated contexts the new perceptual patterns forged by contemporary theatre the use of media on stage and the strategies of today's political theatre The case studies presented here in spite of their thematic diversity are subordinated to a single theoretical framework Thus they turn out extremely useful both for the scholars investigating the problems of contemporary theatre and

students of theatre and drama Fictional Realities Real Fictions offers them a rigid methodological scaffolding supported by a number of illustrative examples from a variety of cultural context and theatre traditions which gives them an opportunity to extrapolate from the main argument of the volume to their own research The 2012 Collection Daniel Pinchbeck, 2012-02-21 Now in the years beyond 2012 discover the true meaning behind the hype that captivated the world It should be no surprise to us now but the pomp surrounding the coming of the year 2012 that grasped the human race's attention in those preceding years was not at all about the end of the world Instead much to the contrary Daniel Pinchbeck believes that the passing of the year 2012 marked the beginning of a global shift in consciousness where the human race would begin to see the world and existence on this planet through a different lens embracing fresh ideas about who we are and what it means to be human Discover the true wisdom behind the 2012 phenomenon with these two captivating works by one of the leading minds in the movement both in one place for the first time and at one low price 2012 The Return of Quetzalcoatl Cross James Merrill H P Lovecraft and Carlos Castaneda each imbued with a twenty first century aptitude for quantum theory and existential psychology and you get the voice of Daniel Pinchbeck And yet nothing quite prepares us for the lucidity rationale and informed audacity of this seeker skeptic and cartographer of hidden realms Throughout the 1990s Pinchbeck had been a member of New York's literary select He wrote for publications such as The New York Times Magazine Esquire and Harper's Bazaar His first book Breaking Open the Head was heralded as the most significant on psychedelic experimentation since the work of Terence McKenna But slowly something happened Rather than writing from a journalistic remove Pinchbeck his literary powers at their peak began to participate in the shamanic and metaphysical belief systems he was encountering As his psyche and body opened to new experience disparate threads and occurrences made sense like never before Humanity every sign pointed is precariously balanced between greater self potential and environmental disaster The Mayan calendar's end date of 2012 seems to define our present age It heralds the end of one way of existence and the return of another in which the serpent god Quetzalcoatl reigns anew bringing with him an unimaginably ancient yet to us wholly new way of living A result not just of study but also of participation 2012 tells the tale of a single man in whose trials we ultimately recognize our own hopes and anxieties about modern life Toward 2012 Perspectives on the Next Age An informed challenging and engaging collection of essays on the new choices in lifestyles and community as we begin the countdown toward the year 2012 This fresh and thought provoking anthology draws together some of today's most celebrated visionaries thinkers and pioneers in the field of evolving consciousness exploring topics from shamanism to urban homesteading the legacy of Carlos Castaneda to Mayan predictions for the year 2012 and new paths in direct political action and human sexuality Toward 2012 highlights some of the most challenging intelligent pieces published on the acclaimed website Reality Sandwich It is coedited by Daniel Pinchbeck the preeminent voice on 2012 and online pioneer Ken Jordan and features original works from Stanislav Grof John Major Jenkins and Paul D Miller DJ Spooky interviews with Abbie Hoffman

Sampler* Daniel Pinchbeck,2017-03-07 Drawing on a huge range of resources and references Daniel Pinchbeck presents a compelling argument for the need for change on a global basis it is only when we see ourselves as one planetary tribe that this change can occur The central thesis is that humanity has self willed the ecological crisis in order to bring about the necessary conditions for transcendence of our current state of being by undergoing an initiatory ordeal on a planetary scale This collective ordeal is necessary for us to evolve from one state of being our current level of consciousness to the next By passing through this initiation we realize ourselves as one unified being a planetary super organism in a symbiotic relationship with the Earth s ecology and the entire web of life Covering everything from energy and agriculture to culture politics media and ideology Pinchbeck s book is ultimately about the nature of the human soul and the future of our current world He calls for an intentional and consciously designed metamorphosis of our current systems which transform capitalist and exclusive structures into participatory democratic and inclusive ones based on an integration of Eastern metaphysics social ecology and radical political thought *How Soon is Now* gives us the context we need to understand the chaos and turbulence of our times Sting *How Soon is Now* Daniel Pinchbeck,2017-02-21 We are on the brink of an ecological mega crisis threatening the future of life on earth and our actions over the next few years may well determine the destiny of our descendants Between a manifesto and a tactical plan of action *How Soon is Now* by radical futurist and philosopher Daniel Pinchbeck outlines a vision for a mass social movement that will address this crisis Drawing on a huge range of resources and references Daniel Pinchbeck presents a compelling argument for the need for change on a global basis it is only when we see ourselves as one planetary tribe that this change can occur The central thesis is that humanity has self willed the ecological crisis in order to bring about the necessary conditions for transcendence of our current state of being by undergoing an initiatory ordeal on a planetary scale This collective ordeal is necessary for us to evolve from one state of being our current level of consciousness to the next By passing through this initiation we realize ourselves as one unified being a planetary super organism in a symbiotic relationship with the Earth s ecology and the entire web of life Covering everything from energy and agriculture to culture politics media and ideology Pinchbeck s book is ultimately about the nature of the human soul and the future of our current world He calls for an intentional and consciously designed metamorphosis of our current systems which transform capitalist and exclusive structures into participatory democratic and inclusive ones based on an integration of Eastern metaphysics social ecology and radical political thought *How Soon is Now* gives us the context we need to understand the chaos and turbulence of our times Sting *Treasury of Mini Comics Volume Two* Michael Dowers,2015-01-18 *Treasury of Mini Comics Vol 2* is a historical survey and collection of several decades worth of some of the best that DIY comics has to offer from some of the
