

RESCUE HOIST MODEL 44311

A RUGGED, RELIABLE RESCUE HOIST

When lives are on the line, proven performance means everything

Helicopter owners seeking superior performance, reliability and capability – as well as low cost of ownership – can count on Collins Aerospace's Goodrich rescue hoist.

Externally mounted, electrically powered rescue hoist model 44311 utilizes the Collins Aerospace proprietary translating drum cable management system. The hoist design also incorporates a Weston-style load brake and overload slip clutch for added safety. The lubricated cable extends cable life and helps arrest corrosion of the cable.

Current applications include:

- Boeing CH-47
- Sikorsky S-61, S-70, S-92 and UH-60M
- Eurocopter AS332

KEY BENEFITS/FEATURES

- Capable of high fleet angle allowing hoist operation in high winds or other circumstances requiring an off-angle lift
- Symmetrical braking reducing dwell time on direction reversals and enhanced braking capability
- Cable foul onset sensing available on some models
- Single point payout reduces potential for hoist-induced load swings
- Continuous operational duty cycles allow for multiple victim rescues without a cool-down period
- Worldwide field engineering services available
