The Making of Visual News Thierry Gervais, Gaëlle Morel, 2020-09-23 The Making of Visual News sets out to show how photography has changed the way we read report and sell the news It investigates how photographs first became news images at the end of the nineteenth century and how magazines in the USA the UK France and Germany have put them to use ever since Drawing on a wide selection of images author Thierry Gervais in collaboration with Gaëlle Morel analyses news photographs in the context of their original presentation in print Highly illustrated the book contains 85 full colour magazine layouts and spreads offering the reader a view of how photographs were and are used in print publications including Life Picture Post the Berliner Illustrierte Zeitung and VU It examines how photographs were employed to attract new readers throughout the twentieth century arguing that photography was the main tool by which news editors sought to communicate the news and attract a broader readership Looking beyond the roles of photographer and journalist this study also highlights the contributions of picture editors and artistic directors by commissioning photographs and incorporating images into magazine layouts these figures played critical but often overlooked roles in the construction of visual news even as they crafted unique styles for their publications Charting changes in technology and reportage as well as broader social and political histories The Making of Visual News offers new insight into the history of photojournalism making this an essential resource for students and scholars of photojournalism and the history of photography media and culture

Flash! Kate Flint, 2017-11-17 Flash presents a fascinating cultural history of flash photography from its mid nineteenth century beginnings to the present day All photography requires light but the light of flash photography is quite distinctive artificial sudden shocking intrusive and

extraordinarily bright Associated with revelation and wonder it has been linked to the sublimity of lightning Yet it has also been reviled it s inseparable from anxieties about intrusion and violence it creates a visual disturbance and its effects are often harsh and create exaggerated contrasts Flash explores flash s power to reveal shocking social conditions its impact on the representation of race its illumination of what would otherwise remain hidden in darkness and its capacity to put on display the most mundane corners of everyday life It looks at flash s distinct aesthetics examines how paparazzi chase celebrities how flash is intimately linked to crime how flash has been used to light up and interrupt countless family gatherings how flash can stop time allowing one to photograph rapidly moving objects or freeze in a strobe and it considers the biggest flash of all the atomic bomb Examining the work of professionals and amateurs news hounds and art photographers photographers of crime and of wildlife the volume builds a picture of flash s place in popular culture and its role in literature and film Generously illustrated throughout Flash brings out the central role of this medium to the history of photography and challenges some commonly held ideas about the nature of photography itself **Beyond These Walls**

Tony Platt,2019-01-08 You should definitely read this book What really struck me in reading Beyond These Walls was that Tony Platt had very seriously and carefully considered the contributions of social movements feminist queer disability and labor Angela Davis Beyond These Walls is an ambitious and far ranging exploration that tracks the legacy of crime and imprisonment in the United States from the historical roots of the American criminal justice system to our modern state of over incarceration and offers a bold vision for a new future Author Tony Platt a recognized authority in the field of criminal justice challenges the way we think about how and why millions of people are tracked arrested incarcerated catalogued and regulated in the United States Beyond These Walls traces the disturbing history of punishment and social control revealing how the criminal justice system attempts to enforce and justify inequalities associated with class race gender and sexuality Prisons and police departments are central to this process but other institutions from immigration and welfare to educational and public health agencies are equally complicit Platt argues that international and national politics shape perceptions of danger and determine the policies of local criminal justice agencies while private policing and global corporations are deeply and undemocratically involved in the business of homeland security Finally Beyond These Walls demonstrates why efforts to reform criminal justice agencies have often expanded rather than contracted the net of social control Drawing upon a long tradition of popular resistance Platt concludes with a strategic vision of what it will take to achieve justice for all in this era of authoritarian disorder *"Women, Workers, and Race in LIFE Magazine "* Dolores Flamiano,2017-07-05 The tension

between social reform photography and photojournalism is examined through this study of the life and work of German gr ansel Mieth 1909 1998 who made an unlikely journey from migrant farm worker to Life photographer She was the second woman in that role after Margaret Bourke White Unlike her colleagues Mieth was a working class reformer with a deep disdain for Life s conservatism and commercialism In fact her work often subverted Life s typical representations of women

workers and minorities Some of her most compelling photo essays used skillful visual storytelling to offer fresh views on controversial topics birth control vivisection labor unions and Japanese American internment during the Second World War Her dual role as reformer and photojournalist made her a desirable commodity at Life in the late 1930s and early 40s but this role became untenable in Cold War America when her career was cut short Today Mieth's life and photographs stand as compelling reminders of the vital yet overlooked role of immigrant women in twentieth century photojournalism Women Workers and Race in LIFE Magazine draws upon a rich array of primary sources including Mieth's unpublished memoir oral histories and labor archives The book seeks to unravel and understand the multi layered often contested stories of the photographer's life and work It will be of interest to scholars of photography history women's studies visual culture and media history

Shadow Archives Jean-Christophe Cloutier, 2019-09-03 Recasting the history of African American literature Shadow Archives brings to life a slew of newly discovered texts including Claude McKay's Amiable with Big Teeth to tell the stories of black special collections and their struggle for institutional recognition Jean Christophe Cloutier offers revelatory readings of major African American writers including McKay Richard Wright Ann Petry and Ralph Ellison and provides a nuanced view of how archival methodology access and the power dynamics of acquisitions shape literary history Shadow Archives argues that the notion of the archive is crucial to our understanding of postwar African American literary history Cloutier combines his own experiences as a researcher and archivist with a theoretically rich account of the archive to offer a pioneering study of the importance of African American authors archival practices and how these shaped their writing Given the lack of institutions dedicated to the black experience the novel became an alternative site of historical preservation a means to ensure both individual legacy and group survival Such archivism manifests in the work of these authors through evolving lifecycles where documents undergo repurposing revision insertion falsification transformation and fictionalization sometimes across decades An innovative interdisciplinary consideration of literary papers Shadow Archives proposes new ways for literary scholars to engage with the archive

Modern Look Mason Klein, 2020-05-05 A fascinating exploration of how photography graphic design and popular magazines converged to transform American visual culture at mid century This dynamic study examines the intersection of modernist photography and American commercial graphic design between 1930 and 1960 Avant garde strategies in photography and design reached the United States via European migr's including Bauhaus artists forced out of Nazi Germany The unmistakable aesthetic made popular by such magazines as Harper's Bazaar and Vogue whose art directors Alexey Brodovitch and Alexander Liberman were both immigrants and accomplished photographers emerged from a distinctly American combination of innovation inclusiveness and pragmatism Beautifully illustrated with more than 150 revolutionary photographs layouts and cover designs Modern Look considers the connections and mutual influences of such designers and photographers as Richard Avedon Lillian Bassman Herbert Bayer Robert Frank Lisette Model Gordon Parks Irving Penn Cipe Pineles and Paul Rand Essays draw a lineage from European

experimental design to innovative work in American magazine design at mid century and offer insights into the role of gender in fashion photography and political activism in the mass media **Making a Promised Land** Paula J. Massood,2013-01-22

Making a Promised Land examines the interconnected histories of African American representation urban life and citizenship as documented in still and moving images of Harlem over the last century Paula J Massood analyzes how photography and film have been used over time to make African American culture visible to itself and to a wider audience and charts the ways in which the Mecca of the New Negro became a battleground in the struggle to define American politics aesthetics and citizenship Visual media were first used as tools for uplift and education With Harlem s downturn in fortunes through the 1930s narratives of black urban criminality became common in sociological tracts photojournalism and film These narratives were particularly embodied in the gangster film which was adapted to include stories of achievement economic success and later in the century a nostalgic return to the past Among the films discussed are Fights of Nations 1907 Dark Manhattan 1937 The Cool World 1963 Black Caesar 1974 Malcolm X 1992 and American Gangster 2007 Massood asserts that the history of photography and film in Harlem provides the keys to understanding the neighborhood s symbolic resonance in African American and American life especially in light of recent urban redevelopment that has redefined many of its physical and demographic contours **50 Events That Shaped African American History** Jamie J. Rosenberg, 2012 Well conceived and boldly realized these essays provide sophisticated daring interpretive inquiries into a pivotal moment in the history of photography Blake Stimson author of *The Pivot of the World Photography and its Nation* With these innovative essays Blair and Rosenberg challenge our understanding of both the documentary impulse and the time when it was defined and canonized Deborah Martin Kao Richard L Menschel Curator of Photography Harvard University Art Museums Encyclopedia of Twentieth-Century Photography, 3-Volume Set Lynne Warren, 2005-11-15 The Encyclopedia of Twentieth Century Photography explores the vast international scope of twentieth century photography and explains that history with a wide ranging interdisciplinary manner This unique approach covers the aesthetic history of photography as an evolving art and documentary form while also recognizing it as a developing technology and cultural force This Encyclopedia presents the important developments movements photographers photographic institutions and theoretical aspects of the field along with information about equipment techniques and practical applications of photography To bring this history alive for the reader the set is illustrated in black and white throughout and each volume contains a color plate section A useful glossary of terms is also included The Sovereignty of Quiet Kevin Quashie, 2012-07-25 African American culture is often considered expressive dramatic and even defiant In *The Sovereignty of Quiet* Kevin Quashie explores quiet as a different kind of expressiveness one which characterizes a person's desires ambitions hungers vulnerabilities and fears Quiet is a metaphor for the inner life and as such enables a more nuanced understanding of black culture The book revisits such iconic moments as Tommie Smith and John Carlos's protest at the 1968 Mexico City Olympics and Elizabeth Alexander's reading at the 2009 inauguration of Barack Obama Quashie also examines such landmark texts as Gwendolyn Brooks's *Maud Martha* James Baldwin's *The Fire Next Time* and Toni Morrison's *Sula* to move beyond the emphasis on resistance and to suggest that concepts like surrender dreaming and waiting can remind us of the wealth of black humanity *The Birth of Cool* Carol Tulloch, 2016-01-28 It is broadly recognized that black style had a clear and profound influence on the history of dress in the twentieth century with black culture and fashion having long been defined as cool Yet despite this high profile in depth explorations of the culture and history of style and dress in the African diaspora are a relatively recent area of enquiry *The Birth of Cool* asserts that cool is seen as an arbiter of presence and relates how both iconic and ordinary black individuals and groups have marked out their lives through the styling of their bodies Focusing on counter and sub cultural

contexts this book investigates the role of dress in the creation and assertion of black identity From the gardenia corsage worn by Billie Holiday to the work wear of female African Jamaican market traders through to the home dressmaking of black Britons in the 1960s and the meaning of a polo neck jumper as depicted in a 1934 self portrait by African American artist Malvin Gray Johnson this study looks at the ways in which the diaspora experience is expressed through self image Spanning the late nineteenth century to the modern day the book draws on ready made and homemade fashion photographs paintings and films published and unpublished biographies and letters from Britain Jamaica South Africa and the United States to consider how personal style statements reflect issues of racial and cultural difference The Birth of Cool is a powerful exploration of how style and dress both initiate and confirm change and the ways in which they expresses identity and resistance in black culture

Christo and Jeanne-Claude Burt Chernow, Wolfgang Volz, 2005 For their sheer scale and breathtaking audacity their works have made them among the most celebrated and controversial artists in the world Valley Curtain stretched 1 250 feet across a valley in Rifle Colorado Wrapped Coast covered a mile and a half of Australian coastline with a million square feet of fabric The Umbrellas deployed 3 100 umbrellas set in Japan and California each nearly twenty feet tall Surrounded Islands encircled eleven islands in Biscayne Bay Florida with six and a half million square feet of bright pink fabric and Wrapped Reichstag enveloped the entire German parliament in shimmering silver fabric For more than forty years these and many other works by Christo and Jeanne Claude have reconceived the art of the possible turned natural and human monuments streets bridges hills trees buildings parks and islands into sculptures and paintings and created dazzling new landscapes and startling new vistas Often requiring years even decades of preparation and planning these works not merely feats of aesthetic daring but engineering and organizational marvels exist for only a few weeks or less Yet what makes these transient creations linger forever in the mind is their overwhelming and magisterial beauty They are in every sense transformative and for the millions who have experienced them in person unforgettable Christo and Jeanne Claude have been the frequent subjects of films videos catalogues cartoons monographs exhibitions and editorials Until this biography by Burt Chernow however written with the full cooperation of the artists nothing has connected the intimate details of their lives and the spectacular dimensions of their projects Christo the penniless Bulgarian refugee who made his way to Paris during the 1950s and Jeanne Claude the socialite daughter of a prominent French general seemed an unlikely

couple yet together they forged one of the most enduring partnerships in contemporary art. When they arrived in New York in 1964, Christo was already becoming well known in avant garde circles for his wrappings of everyday objects. Jeanne Claude acted as manager, dealer, and accountant. Over time, as Chernow reveals, the fusion of their prodigious gifts—his drawings and her ability to draw things together—produced the works for which today they are known the world over. Chernow recounts their rise from relative obscurity to international renown, revealing both the sources of their art and the heights to which it has quite literally aspired. An epilogue by Wolfgang Volz, a longtime and close collaborator of the artists as well as their exclusive photographer, provides a fascinating insider's view of what it is like to work and dream with them. Christo and Jeanne Claude is an indelible portrait of the artists and their work and a moving account of an extraordinary couple.

Representation Stuart Hall, 1997-04-08 This broad-ranging text offers a comprehensive outline of how visual images, language, and discourse work as systems of representation. Individual chapters explore representation as a signifying practice in a rich diversity of social contexts and institutional sites: the use of photography in the construction of national identity and culture; other cultures in ethnographic museums; fantasies of the racialized Other in popular media; film and image; the construction of masculine identities in discourses of consumer culture and advertising; and the gendering of narratives in television soap operas.

The Jim Crow Routine Stephen A. Berrey, 2015-04-27 The South's system of Jim Crow racial oppression is usually understood in terms of legal segregation that mandated the separation of white and black Americans. Yet, as Stephen A. Berrey shows, it was also a high-stakes drama that played out in the routines of everyday life, where blacks and whites regularly interacted on sidewalks and buses and in businesses and homes. Every day, individuals made, unmade, and remade Jim Crow in how they played their racial roles, how they moved, talked, even gestured. The highly visible but often subtle nature of these interactions constituted the Jim Crow routine. In this study of Mississippi race relations in the final decades of the Jim Crow era, Berrey argues that daily interactions between blacks and whites are central to understanding segregation and the racial system that followed it. Berrey shows how civil rights activism, African Americans' refusal to follow the Jim Crow script, and national perceptions of southern race relations led Mississippi segregationists to change tactics. No longer able to rely on the earlier routines, whites turned instead to less visible but equally insidious practices of violence, surveillance, and policing rooted in a racially coded language of law and order. Reflecting broader national transformations, these practices laid the groundwork for a new era marked by black criminalization, mass incarceration, and a growing police presence in everyday life.

A Nimble Arc Emilie Boone, 2023-08-28 While James Van Der Zee is widely known and praised for his studio portraits from the Harlem Renaissance era, much of the diversity and expansive reach of his work has been overlooked. From the major role his studio played for decades photographing ordinary people and events in the Harlem community to the inclusion of his photographs in the landmark Harlem on My Mind exhibition at the Metropolitan Museum of Art in 1969, Van Der Zee was a foundational Black photographer whose work illustrates the shifting ways photography serves

as a constitutive force within Black life In *A Nimble Arc* Emilie Boone considers Van Der Zee's photographic work over the course of the twentieth century showing how it foregrounded aspects of Black daily life in the United States and in the larger African diaspora Boone argues that Van Der Zee's work exists at the crossroads of art and the vernacular challenging the distinction between canonical art photographs and the kind of output common to commercial photography studios Boone's account recasts our understanding not only of this celebrated figure but of photography within the arc of quotidian Black life
