Handbook of BRICS and Emerging Economies P. B. Anand,Shailaja Fennell,Flavio Comim,2021 Ever since Jim O Neill at Goldman Sachs coined the term BRICS in 2001 there have been many different assessments of these major emerging economies with some even proclaiming that the promise of the BRICS comprising Brazil Russia India China and South Africa is over However the so called arranged marriage still seems to be working well with the club having become a formal international forum with summit declarations ministerial meetings and numerous BRICS wide fora Is this euphoria misplaced Is there a BRICS model of economic and human development Are inequalities increasing and is this the denouncement of the economic successes The Handbook of BRICS and Emerging Economies presents a comprehensive and multi faceted analysis of the BRICS countries and other emerging economies exploring their economic social environmental and governance dimensions and other challenges It brings together multi disciplinary perspectives from more than fifty authors to examine how education contributed to the emergence of BRICS how BRICS are impacting African economies and how other emerging economies including Chile Mexico Turkey and

others in Africa and Central Asia compare It observes the impact of governance challenges both within individual countries and in the forum for co operation amongst them what issues related to gender and identity based violence are prevalent and what the security implications are and the role of BRICS is in contributing to peace keeping operations **The Oxford Handbook of Africa and Economics** Célestin Monga,Justin Yifu Lin,2015-07-02 For a long time economic research on Africa was not seen as a profitable venture intellectually or professionally few researchers in top ranked institutions around the world chose to become experts in the field This was understandable the reputation of Africa centered economic research was not enhanced by the well known limitations of economic data across the continent Moreover development economics itself was not always fashionable and the broader discipline of economics has had its ups and downs and has been undergoing a major identity crisis because it failed to predict the Great Recession Times have changed many leading researchers including a few Nobel laureates have taken the subject of Africa and economics seriously enough to devote their expertise and creativity to it They have been amply rewarded the richness complexities and subtleties of African societies civilizations rationalities and ways of living have helped renew the humanities and the social sciences and economics in particular to the point that the continent has become the next major intellectual frontier to researchers from around the world In collecting some of the most authoritative statements about the science of economics and its concepts in the African context this lhandbook the first of two volumes opens up the diverse acuity of commentary on exciting topics and in the process challenges and stimulates the quest for knowledge Wide ranging in its scope themes language and approaches this volume explores examines and assesses economic thinking on Africa and Africa s contribution to the discipline The editors bring a set of powerful resources to this endeavor most notably a team of internationally renowned economists whose diverse viewpoints are complemented by the perspectives of philosophers political scientists and anthropologists *Routledge Handbook of International Political Sociology* Xavier Guillaume,Pınar Bilgin,2016-12-01 This handbook presents in a comprehensive concise and accessible overview the emerging field of international political sociology It summarizes and synthesizes existing knowledge in the field while presenting central themes and methodologies that have been at the centre of its development providing the reader with a sense of the diversity and research dynamics that are at the heart of international political sociology as a field of study A wide range of topics covered include International political sociology and its cognate disciplines and fields of study Key themes including security mobility finance development gender religion health global elites and the environment Methodologies on how to engage with international political sociology including fieldwork archives discourse ethnography assemblage materiality social spaces and visibility Current and future challenges of international political sociology addressed by three key scholars Providing a synthetic reference point summarizing key achievements and engagements while putting forward future developments and potential fruitful lines of inquiry it is an invaluable resource for students academics and researchers from a range of disciplines particularly international relations

Making Sense of Corruption Bo Rothstein, Aiysha Varraich, 2017-02-27 Corruption is a serious threat to prosperity democracy and human well being with mounting empirical evidence highlighting its detrimental effects on society Yet defining this threat has resulted in profound disagreement producing a multidimensional concept Tackling this important and provocative topic the authors provide an accessible and systematic analysis of how our understanding of corruption has evolved They identify gaps in the research and make connections between related concepts such as clientelism patronage patrimonialism particularism and state capture A fundamental issue discussed is how the opposite of corruption should be defined By arguing for the possibility of a universal understanding of corruption and specifically what corruption is not an innovative solution to this problem is presented This book provides an accessible overview of corruption allowing scholars and students alike to see the far reaching place it has within academic research

The African Affairs Reader Nic Cheeseman, Lindsay Whitfield, Carl Death, 2017-05-19 African Affairs is the top journal in African Studies and has been for some time This book draws together some of the most influential important and thought provoking articles published in its pages over the last decade In doing so it collates essential cutting edge research on Africa and makes it easily available for students teachers and researchers alike The African Affairs Reader is broken down into four sections that cover some of the biggest themes and questions facing the continent today including the African State the Political Economy of Development Africa's Relationship with the World and Elections Representation Democracy Within each section articles deal with some of the most significant recent trends and events such as the prospects for democratization in Ghana and Nigeria the factors underpinning Rwanda's economic success the rise of political corruption in South Africa the spread of the drugs trade the struggle against gender based violence and the growing influence of China Each section is introduced by a new purpose written essay by the journal's editors that explains the evolution of the wider debate highlights key contributions and suggests new ways in which the discussion can be taken forward Taken together the essays and articles included in the volume provide both a coherent introduction to the study of Africa and a compelling commentary on the current state of play on the continent

Working with the Grain Brian Levy, 2014 This book directs attention away from unattainable good governance and towards with the grain institutional reforms that can initiate and sustain development momentum It shows how to find a good fit between country context and governance reform with virtuous circles of change sometimes transforming seemingly modest reforms into a cascading sequence of gains

A Fraught Embrace Ann Swidler, Susan Cotts Watkins, 2017-03-07 The complex relationships between altruists beneficiaries and brokers in the global effort to fight AIDS in Africa In the wake of the AIDS pandemic legions of organizations and compassionate individuals descended on Africa from faraway places to offer their help and save lives A Fraught Embrace shows how the dreams of these altruists became entangled with complex institutional and human relationships Ann Swidler and Susan Cotts Watkins vividly describe the

often mismatched expectations and fantasies of those who seek to help of the villagers who desperately seek help and of the brokers on whom both Western altruists and impoverished villagers must rely Based on years of fieldwork in the heavily AIDS affected country of Malawi this powerful book digs into the sprawling AIDS enterprise and unravels the paradoxes of AIDS policy and practice All who want to do good from idealistic volunteers to world weary development professionals depend on brokers as guides fixers and cultural translators These irreplaceable but frequently unseen local middlemen are the human connection between altruists dreams and the realities of global philanthropy The mutual misunderstandings among donors brokers and villagers each with their own desires and moral imaginations create all the drama of a romance longing exhilaration disappointment heartache and sometimes an enduring connection Personal stories public scandals and intersecting sometimes clashing fantasies bring the lofty intentions of AIDS altruism firmly down to earth Swidler and Watkins ultimately argue that altruists could accomplish more good not by seeking to transform African lives but by helping Africans achieve their own goals A Fraught Embrace unveils the tangled relations of those involved in the collective struggle to contain an epidemic

The Oxford Handbook of Nigerian Politics A. Carl LeVan, Patrick Ukata, 2018 This volume is an authoritative and agenda setting examination of Nigerian politics

Housing in the Aftermath of the Fast Track Land Reform Programme in Zimbabwe Lovemore Chipungu, Hangwelani Hope Magidimisha, 2020-12-10 This book delves into the Fast Track Land Reform Programme FTLRP in Zimbabwe to provide insight into how it facilitated the delivery of housing for low income urban households It highlights the politics of land reforms and the power of community engagement in housing development in urban areas Prior to the FTLRP the Zimbabwean governments had never embraced popular modes of housing production as key factors in urban development In the area of low income housing informal housing schemes have always been treated with apathy and indifference This left the conventional mode of housing production to be the only legitimate means to house low income households despite its shortcomings However the onset of the FTLRP in 2000 resulted in homeless urban households grasping the opportunity to invade farms for housing development Through the lenses of Marxism and Neoliberalism this book analyses housing schemes that emerged and the overall impact of the FTLRP on housing and land delivery in Harare This analysis is based on empirical evidence obtained from key informants and household surveys conducted in Harare The authors argue that the FTLRP provided a platform for innovativeness by households supported by the unpronounced national urban vision and prowess of the political leadership Hence the success of these housing schemes can be measured by acquisition of land which guarantees households access to the city However some of these housing schemes pose challenges key among them being lack of infrastructure The book concludes by presenting a new model for effective delivery of land and housing for the urban poor This is envisaged as a useful policy tool for urban planners housing experts land economists urban and regional geographers as well as sociologists political scientists and social workers engaged in public administration of land and housing

World Development Report 2015 World Bank, 2014-12-04 Development economics and policy are due for a redesign In the past few decades research from across the natural and social sciences has provided stunning insight into the way people think and make decisions Whereas the first generation of development policy was based on the assumption that humans make decisions deliberately and independently and on the basis of consistent and self interested preferences recent research shows that decision making rarely proceeds this way People think automatically when deciding they usually draw on what comes to mind effortlessly People also think socially social norms guide much of behavior and many people prefer to cooperate as long as others are doing their share And people think with mental models what they perceive and how they interpret it depend on concepts and worldviews drawn from their societies and from shared histories The *World Development Report 2015* offers a concrete look at how these insights apply to development policy It shows how a richer view of human behavior can help achieve development goals in many areas including early childhood development household finance productivity health and climate change It also shows how a more subtle view of human behavior provides new tools for interventions Making even minor adjustments to a decision making context designing interventions based on an understanding of social preferences and exposing individuals to new experiences and ways of thinking may enable people to improve their lives The Report opens exciting new avenues for development work It shows that poverty is not simply a state of material deprivation but also a tax on cognitive resources that affects the quality of decision making It emphasizes that all humans including experts and policy makers are subject to psychological and social influences on thinking and that development organizations could benefit from procedures to improve their own deliberations and decision making It demonstrates the need for more discovery learning and adaptation in policy design and implementation The new approach to development economics has immense promise Its scope of application is vast This Report introduces an important new

agenda for the development community Introduction to Rwandan Law Jean-Marie Kamatali, 2020-01-16 This book explores key innovations in Rwandan law exploring how the homegrown legal system with the civil law and common law legal systems The author explores the history of Rwandan law through pre colonial to colonial and post independence periods examines the homegrown legal and justice approaches such as Gacaca Abunzi and Imihigo introduced in post genocide Rwanda to deal with legal problems that could not be dealt with using the western legal system and highlights the innovative Rwandan approach to incorporating international law in the domestic legal system The book also covers the evolution of the Rwandan Constitutional Law and Constitutionalism since independence the development of family law from a legal system that oppressed women to one that promotes girls and women rights Finally the book explores the contribution of common law in the transformation of the organization jurisdiction and functioning of Rwandan Courts This book will be of interest to scholars and students of African law international law and the legal system in Rwanda **Spatial Planning in Service Delivery** Hangwelani Hope Magidimisha, Lovemore Chipungu, 2019-07-11 This volume presents a detailed synthesis of the historical present day and future state of service delivery in South Africa The generation and distribution of services in any geographical space has been and is always a source of inequality in human society Thus in the context of spatial planning space is the major factor through which distributive justice and sustainable development can be achieved To examine the continuation of spatial inequality in service delivery the authors employed both qualitative and quantitative research methods in a multi pronged approach utilizing empirical data from the Vembe District in Limpopo data from the South African Index of Multiple Deprivation and representative attitudinal data from the South African Social Attitudes Survey Ultimately this study examines spatial differences in living environments with a focus on the distribution of household services and discusses strategies to achieve spatial equality Media, Conflict, and the State in Africa Nicole Stremlau, 2018-08-09 Countries emerging from violent conflict face difficult challenges about what the role of media should be in political transitions particularly when attempting to build a new state and balance a difficult legacy Media Conflict and the State in Africa discusses how ideas institutions and interests have shaped media systems in some of Africa s most complex state and nation building projects This timely book comes at a turbulent moment in global politics as waves of populist protests gain traction and concerns continue to grow about fake news social media echo chambers and the increasing role of both traditional and new media in waging wars or influencing elections Focusing on comparative cases from a historical perspective and the choices and ideas that informed the approaches of some of Africa s leaders including guerrilla commanders Yoweri Museveni of Uganda and Meles Zenawi of Ethiopia Nicole Stremlau offers a unique political insight into the development of contemporary media systems in Africa *The Oxford Handbook of the Quality of Government* Andreas Bågenholm, Monika Bauhr, Marcia Grimes, Bo Rothstein, 2021 Corruption has become a central issue in current policy debates This Handbook provides state of the art research on this important topic It demonstrates the disastrous effects of high levels of corruption

for most areas of human well being and presents research results about strategies that can get corruption under control

Navigating the Local Hanna Leonardsson,2023-01-31 How is peace built at the local level Covering three Lebanese municipalities with striking sectarian diversity Saida Bourj Hammoud and Tyre this book investigates the ways in which local service delivery local interactions and vertical relationships matter in building peace Using the stories and experiences of municipal councillors employees and civil society actors it illustrates how local activities and agencies are performed and what it means for local peace in Lebanon Through its analysis the book illustrates what the practice of peacebuilding can look like at the local level and the wider lessons both practical and theoretical that can be drawn from it Cash Transfers

in Context Jean-Pierre Olivier de Sardan,Emmanuelle Piccoli,2018-09-07 Marginal in status a decade ago cash transfer programs have become the preferred channel for delivering emergency aid or tackling poverty in low and middle income countries While these programs have had positive effects they are typical of top down development interventions in that they impose on local contexts standardized norms and procedures regarding conditionality targeting and delivery This book sheds light on the crucial importance of these contexts and the many unpredicted consequences of cash transfer programs worldwide detailing how the latter are used by actors to pursue their own strategies and how external norms are reinterpreted circumvented and contested by local populations *Anti-Corruption Evidence* Rick Stapenhurst,Rasheed Draman,Brooke Larson,Anthony Staddon,2019-05-03 This book discusses parliamentary oversight and its role in curbing corruption in developing countries Over the past decade a growing body of research at the global and regional levels has demonstrated that parliamentary oversight is an important determinant of corruption and that effective oversight of public expenditure is an essential component of national anti corruption strategies and programs However little research has been undertaken at the country level regarding how parliamentary oversight is undertaken which oversight mechanisms are effective or on how national parliaments interact with other anti corruption stakeholders This book presents the results of a new large scale quantitative analysis which identifies the mechanisms through which institutional arrangements impact corruption specifically through country case studies on the Caribbean region Ghana Myanmar Nigeria Tanzania and Uganda Addressing a gap in scholarly knowledge while presenting practical policy advice for parliaments and for anti corruption assistance agencies this book will be of use to scholars interested in development anti corruption public finance as well as members of parliament anti corruption practitioners and organizations working in parliamentary strengthening
