McPherson,2003 **NPI Resource Guide ,1997 Exploring North Dakota Through Project-Based Learning** Carole Marsh,2016-05-17 Exploring North Dakota through Project Based Learning includes 50 well thought out projects designed for grades 3 5 In assigning your students projects that dig into North Dakota s geography history government economy current events and famous people you will deepen their appreciation and understanding of North Dakota while simultaneously improving their analytical skills and ability to recognize patterns and big picture themes Project based learning today is much different than the craft heavy classroom activities popular in the past Inquiry planning research collaboration and analysis are key components of project based learning activities today However that doesn t mean creativity individual expression and fun are out They definitely aren t Each project is designed to help students gain important knowledge and skills that are derived from standards and key concepts at the heart of academic subject areas Students are asked to analyze

and solve problems to gather and interpret data to develop and evaluate solutions to support their answers with evidence to think critically in a sustained way and to use their newfound knowledge to formulate new questions worthy of exploring While some projects are more complex and take longer than others they all are set up in the same structure Each begins with the central project driving questions proceeds through research and supportive questions has the student choose a presentation option and ends with a broader view inquiry Rubrics for reflection and assessments are included too This consistent framework will make it easier for you assign projects and for your students to follow along and consistently meet expectations Encourage your students to take charge of their projects as much as possible As a teacher you can act as a facilitator and guide The projects are structured such that students can often work through the process on their own or through cooperation with their classmates Disability and the Academic Job Market Christopher McGunnigle, 2022

Disability and the Academic Job Market examines ableist structures in academia that inherently create obstacles to full time employment for people with a disability Based on historical and contemporary scholarship it has been shown how disclosure of a disability can have profound repercussions for a scholar with a disability Scholars with a disability are often inhibited from applying to or being promoted in academia because of direct discrimination negative perception towards people with a disability inaccessible physical and performance conditions and social models of disability that characterize disability as unproductive abnormal and risky While scholarship has addressed ableism in academia it has not strongly focused on the specific difficulties and barriers that a person with a disability faces when applying for a full time academic position This book seeks to provide a resource that brings to light ableist conditions in the academic hiring process through the lived experiences of scholars with a disability with hope to implement change in these situations This collection presents a combination of personal narrative and scholarship from academics with a disability who have navigated the academic job market with additional contributions from non disabled allies who have advocated for change in academic structures Our collection begins by expressing the concerned experiences of students entering the academic job market followed by scholars who have more fully lived through the obstacles of the academic market in both contingent and tenure track positions A vital focus of this collection is on intersectionality as chapters draw from interactions between disability and race gender and sexuality across international contexts Important topics discussed throughout the collection include systemic ableism disclosure the job interview academic workaholism and lack of accommodations Resources in Education , 2001-10
