Guillaume De Palerne French Edition:

Guillaume de Palerne ,2004-09-01 This popular and important romance in the Middle Ages was written in Picard one of the more difficult regional dialects of Old French Guillaume de Palerne is a non Arthurian romance offering a different vision of the medieval world one in which we find the hero in a more realistic setting confronting the obstacles that fate not his quest for fame has set in his path It is the story of a young prince of Sicily who is kidnapped by a werewolf at the age of four Woven into the story of the eponymous hero is the parallel story of Alphonse the Spanish prince who was transformed into a werewolf by his stepmother when he was still a toddler The anonymous poet has woven humor contemporary allusions reworkings of traditional motifs and a hidden moral lesson into the story s engaging plot The romance also presents the reader and scholar with a complex portrayal of the constancy and changeability of identity that provides new insight into the medieval attitude toward individuality Based primarily on Alexandre Micha s 1990 edition this translation is intended as a guide to reading the original rather than as a substitute The editor has attempted to be as literal as possible and to remain faithful to the register and tone of the original including its original word order and grammatical structure In addition to the translation the finished text includes an introduction notes and a select bibliography **Metamorphoses of the Werewolf**

Leslie A. Sconduto,2014-01-10 The mythical werewolf is known for its sudden transformation under the full moon but the creature also underwent a narrative evolution through the centuries from bloodthirsty creature to hero Beginning with The Epic of Gilgamesh Ovid s Metamorphoses and an account in Petronius Satyricon the book analyzes the context that created the traditional image of the werewolf as a savage beast The Catholic Church s response to the popular belief in werewolves and medieval literature s sympathetic depiction of the werewolf as victim are presented to support the idea of the werewolf as a complex and varied cultural symbol Instructors considering this book for use in a course may request an examination copy here **Werewolves**

Bob Curran,2009-01-01 Presents information about the legendary werewolf examining the mythology surrounding the feared wolf man and its place in popular culture [The Cambridge Companion to Literature and Animals](#) Derek Ryan,2023-11-09 This book explores representations of animals and animality across the span of literary history from the Middle Ages to the present

[French Romance of the Later Middle Ages](#) Rosalind Brown-Grant,2008-11-13 Whilst French romances of the twelfth and thirteenth centuries have long enjoyed a privileged place in the literary history of France romances from the later middle ages have been largely neglected by modern scholars despite their central role in the chivalric culture of the day In particular although this genre has been seen as providing a forum within which ideas about masculine and feminine roles were debated and prescribed little work has been done on the gender ideology of texts from the fourteenth and fifteenth centuries This study seeks to fill this gap in the scholarship by analysing how the views of gender found in earlier romances were reassessed and reshaped in the texts produced in the moralising intellectual environment of the later medieval period In order to explore these topics this book discusses fifteen historico realist prose romances written

in the century from 1390 many of which were commissioned at the court of Burgundy It addresses key issues in recent studies of gender in medieval culture including the construction of chivalric masculinity the representation of adolescent desire and the social and sexual roles of husbands and wives In addition to offering close readings of these texts it shows how the romances of the period were informed by ideas about gender which circulated in contemporary works such as manuals of chivalry moral treatises and marriage sermons It thus aims not only to provide the first in depth study of this little known area of French literary history but also to question the critical consensus on the role of gender in medieval romance that has arisen from an exclusive focus on earlier works in the genre

Cultural Translations in Medieval Romance Victoria Flood, Megan G. Leitch, 2022 New approaches to this most fluid of medieval genres considering in particular its reception and transmission Romance was the most popular secular literature of the Middle Ages and has been understood most productively as a genre that continually refashioned itself The essays collected in this volume explore the subject of translation both linguistic and cultural in relation to the composition reception and dissemination of romance across the languages of late medieval Britain Ireland and Iceland In taking this multilingual approach this volume proposes a re centring and extension of our understanding of the corpus of medieval Insular romance which although long considered extra canonical has over the previous decades acquired something approaching its own canon a canon which we might now begin to unsettle and of which we might ask new questions The topics of the essays gathered here range from Dafydd ap Gwilym and Walter Map to Melusine and English Trojan narratives and address topics from women and merchants to werewolves and marvels Together they position the study of romance in translation in relation to cross border and cross linguistic transmission and reception and alongside the generic re imaginings of romance both early and late that implicate romance in new linguistic cultural and social networks The volume also shows how even where linguistic translation is not involved we can understand the ways in which romance moved across cultural and social boundaries and incorporated elements of different genres into its own capacious and malleable frame as types of translatio in terms of learning or power or both

Archibald **A New History of Medieval French Literature** Jacqueline Cerquiglini-Toulet, 2011-12-01 Is it legitimate to conceive of and write a history of medieval French literature when the term literature as we know it today did not appear until the very end of the Middle Ages In this novel introduction to French literature of the period Jacqueline Cerquiglini Toulet says yes arguing that a profound literary consciousness did exist at the time Cerquiglini Toulet challenges the standard ways of reading and evaluating literature considering medieval literature not as separate from that in other eras

but as part of the broader tradition of world literature Her vast and learned readings of both canonical and lesser known works pose crucial questions about among other things the notion of otherness the meaning of change and stability and the relationship of medieval literature with theology Part history of literature part theoretical criticism this book reshapes the language and content of medieval works By weaving together topics such as the origin of epic and lyric poetry Latin French bilingualism women s writing grammar authorship and more Cerquiglini Toulet does nothing less than redefine both philosophical and literary approaches to medieval French literature Her book is a history of the literary act a history of words a history of ideas and works monuments rather than documents that calls into question modern concepts of literature
