States and Spain are proof of the seriousness and commitment of the organization. The association has a notarial act approved by the College of Notaries of the European Union which makes it an official and recognized body in Europe. This act has been approved by the rest of the world's notarial associations through a process called an apostille carried out in The Hague which makes it the only organization of world registries that is not motivated by partisan or economic interests like any private company would do. In addition, the organization's priorities are to improve the social inclusion of people with some type of disability, the environment and the defense of human rights as well as just causes and actions. As a speaker, his defense holds records around the world. The world of literature is excited about the arrival of the first world record book setting five records at the same time, but there is another amazing achievement to note. This book has managed to enter the Top 10 of the most converted texts of humanity in its first edition, as can be seen in the same WIKIPEDIA that will soon have to integrate this new achievement, something extremely rare in the publishing industry and more on record world Books. Until now, most translations were done in a maximum of 36 languages, so many languages have for the first time a world record for books worldwide or on all continents. The last book to enter this ranking took 80 years to complete, showing how difficult it is to secure a place in this select group. However, the first modified world record book will enter the Top 10 in its first edition, which is an impressive feat that has left many literary pundits speechless. In addition, this book was also modified to be the third most converted book in the world and the most converted e-book in the world. These achievements testify to the global reach of this work, which was translated into 328 different languages in its first edition, covering 100% of the world's countries. The OFFICIAL WORLD RECORD association, responsible for this impressive achievement, demonstrates its ingenuity and ability to internalize itself in the publishing industry. This organization is one of only two international record-keeping associations capable of registering records globally, while the other is a wholly private company. Obtaining its recognition means obtaining a unique and very special prestige and a global category that only a few and the best can achieve or aspire to have in the world. In short, the first book of world records to break five records at the same time in a single book has managed to enter the Top 10 of the most converted texts of humanity in its first edition, an impressive feat that underlines its importance. And in its global reach, in the world of literature and so that everyone has the opportunity to buy it in their native language, sales will be made through a global book site like AMAZON. This book is a true gem for anyone interested in world records and literature and a testament to human ingenuity and creativity in achieving extraordinary achievements around the world.
