Gulliver's misadventures begin when he is first shipwrecked then abandoned then attacked by strangers then attacked by his own crew Gulliver's attitude hardens as the book progresses Throughout Gulliver is presented as being gullible he believes what he is told never perceives deeper meanings is an honest man and expects others to be honest This makes for fun and irony what Gulliver says can be trusted to be accurate and he does not always understand the meaning of what he perceives Gulliver's Travels has been the recipient of several designations from Menippean satire to a children's story from proto Science Fiction to a forerunner of the modern novel A possible reason for the book's classic status is that it can be seen as many things to many different people Broadly the book has three themes First a satirical view of the state of European government and of petty differences between religions Second a restatement of the older ancients versus moderns controversy Third an inquiry into whether men are inherently corrupt or whether they become corrupted Gulliver's Travels is Swift's best known full length work and a classic of English literature This edition is limited to 1 000 copies **The National Union Catalog, Pre-1956 Imprints**, 1968
