Winning a High-Speed, Close-Distance Gunfight Lou M. Chiodo,2009-01-01 A firearms training program geared for the high speed close distance conditions of a real gunfight needs to be about fighting not just shooting Former U S Marine and California Highway Patrol veteran Lou Chiodo recognizes this fact and Winning a High Speed Close Distance Gunfight outlines the fundamentals of his reality based program one that enjoys one of the highest police officer survival ratings in the country During his police service Chiodo realized that standard firearm qualification courses do not prepare officers to face the high stress environment that they experience in real gunfights multiple round rapid fire engagements at danger close distances often in low light He studied survival stress and confrontation dynamics from all angles and used his findings to develop the training methods outlined in this book Through innovative ranges and drills that replicate the conditions of actual street engagements along with a radical but surprisingly
