Employment Contracts and Private International Law Louise Merrett, 2022 Women's Artistic Gymnastics Roslyn Kerr, Natalie Barker-Ruchti, Carly Stewart, Gretchen Kerr, 2020-04-08 This book lifts the lid on the high pressured complex world of women's artistic gymnastics. By adopting a socio-cultural lens incorporating historical, sociological and psychological perspectives it takes the reader through the story and workings of women's artistic gymnastics. Beginning with its early history as a feminine appropriate sport, the book follows the sport through its transition to a modern sports form. Including global cases and innovative narrative methods it explores the way gymnasts have experienced its intense challenges, the complexities of the coach-athlete relationship and how others involved in the sport such as parents and medical personnel have contributed to the reproduction of a highly demanding and potentially abusive sporting culture. With the focus on a unique women's sport, the book is an important read for researchers and students studying sport sociology, sport coaching and physical education, but it is also a valuable resource for anyone interested in the development of sporting talent.

their promises and perils Non-standard work in the Nordics: Troubled waters under the still surface Ilsøe, Anna, Larsen, Trine Pernille, Bach, Emma S., Rasmussen, Stine, 2021-02-04 Available online <https://pub.norden.org/temanord2021/503> Most Nordic labour market and welfare state models are shaped around the notion of the standard full time open ended contract. However, the recent development in non standard work (NSW) may challenge these institutions. In this TemaNord report we analyse the recent development of NSW within the context of the Nordic models. We draw on Nordic Labour Force Survey data to map the recent development in the well known forms of NSW and through in depth case studies we explore emerging NSW practices and policy responses. There has been a fairly stable development in NSW across the Nordics but the sector specific statistics and case studies display significant changes beneath this still surface. We find examples of novel policy responses to these developments but the corona crisis also revealed gaps in the Nordic social and employment protection regarding emerging forms of NSW.
