An Interview with Dr. Habib Tiliouine

Tiliouine, H.

Citation: Tiliouine, H. (2017). Views on wellbeing research, policy and practice: An interview with Dr. Habib Tiliouine. *Middle East Journal of Positive Psychology*, 3(1), 1-6.

Abstract: In this volume of the Middle East Journal of Positive Psychology, we explore the views, hopes, and current research agendas of those working to advance knowledge in the field of positive psychology within the MENA region, or who research aspects of culture and religion relevant to it. We uncover their thoughts on the current status of knowledge as well as what opportunities and pitfalls exist. Here, we discuss with Dr. Habib Tiliouine of the University of Oran, Algeria, his thoughts on the current state of wellbeing in the Middle East and North African region, his own research results and future projects.

Habib Tiliouine:

The State of Social Progress of Islamic Societies Habib Tiliouine, Richard J. Estes, 2016-04-08 This handbook addresses the historical background of the Islamic world and reviews its basic past intellectual achievements It studies social progress of these regions and sub regions in comparison with other parts of the world It uses large data sets and well established statistically weighted Indexes in order to assess the nature and pace of the multiple facets of social change in member states of the Organization of Islamic Cooperation OIC The handbook extensively discusses the main challenges confronting the Islamic nations in the social economic political and ideological fields Though it is recognizable that social change in the Islamic World is generally positive it remains highly variable in pace and there is room to speed it up to the benefit of millions of deprived Muslim people Hence the book studies the different propositions and programs of action such as the United Nations Millennium Development Campaign and the OIC s Ten Year Programme of Action to present an integrated and comprehensive agenda of action to help improve the situation in the Islamic World *Handbook of Children's Risk, Vulnerability and Quality of Life* Habib Tiliouine, Denise Benatuil, Maggie K. W. Lau, 2022-07-30 This handbook makes a major contribution to the growing international research and policy interest in children s experienced well being or quality of life in childhood linking it to ongoing research on children s risk and vulnerability The editors and contributors adopt the broader concept of risk in addition to vulnerability Not much work considers the connections between risks that children experience and their quality of life In examining children s quality of life the chapters discuss various issues of risk and vulnerability that may affect their lives and also how the quality of childhood might be enhanced and maintained even in the face of these factors The chapters discuss experiences of violence and abuse access to basic services such as housing health and education and children s vulnerability due to broader external factors such as war conflict and environmental events The volume also includes the impacts of new technologies on children and the consequent risks and vulnerabilities they may face alongside the benefits This important volume brings together a diverse range of perspectives from established experts and emerging scholars in these fields of work It covers a wide range of geographical and cultural contexts and includes theoretical empirical policy and practice based contributions This handbook is a natural first point of reference for academics and policy professionals interested in quality of life well being and children s rights [Shia Islam and Politics](#) Jon Armajani, 2020-05-20 This book argues that ever since Iran s Islamic Revolution in 1979 which established a Shia Islamic government in Iran that country s religious and political leaders have used Shia Islam as a crucial way of expanding Iran s objectives in the Middle East and beyond Since 1979 Iran s religious and political leaders have been concerned about Iran s security in the face of the hostility and expansionism of the United States and other western countries and the threats from powerful neighboring Sunni leaders and countries While Iran s government has attempted to align itself with Shia Muslims in various countries such as Iraq and Lebanon against American and Sunni expansionism the Iranian

government has attempted to religiously nourish and politically mobilize those Shias as a matter of principle not only because of the Iranian government's desires to protect Iran from external threats. The book analyzes Shia Islam and politics in Iran, Iraq, and Lebanon, which have among the largest proportional Shia populations in the Middle East and are vibrant centers of Shia intellectual life. The book's clear and jargon-free approach makes it especially accessible for students and general readers who would like an introduction to the book's topics. **THE GUIDE TO ANSWERING ISLAM** Daniel Janosik, 2019-01-26

The average Christian knows somewhat how dangerous radical Islam is because of the regular media coverage of beheadings of Christians, Jews, and even young little children, not to mention Muslims, with which they disagree. However, the average Christian does not know their true beliefs, just how many there are, to the extent they will go to carry out these beliefs. Daily, we find Islamic commentators on the TV and radio offering up misleading information, quoting certain portions of the Quran while leaving other parts out. When considering Islamic beliefs, other Islamic writings must be considered like the Hadith or Sunnah and the Shariah or canon law. While Islam in general does not support radical Islam, the vast majority do support radical beliefs. For example, beheadings, stoning for adultery or homosexuality, suicide bombings, turning the world into an Islamic state, and far too many other heinous things. **THE GUIDE TO ANSWERING ISLAM** provides Christians with an overview of Islamic terminology. The reader will learn about Muhammad's calling, the history of the Quran, how Islam expanded, the death of Muhammad, and the splinter groups that followed. In addition, the three sources of their teaching, six pillars of belief, five pillars of Islam, the twelfth Imam, and much more will be discussed. While there are several books on Islam and radical Islam, this will be the first that will prepare its readers to communicate effectively with Muslims in an effort toward sharing biblical truths. **THE GUIDE TO ISLAM** will be an effective evangelism tool. In addition, each chapter will end with review questions helping the reader recall the main points of the chapter. Therefore, it can be studied alone or in a church Bible study setting. **THE GUIDE TO ANSWERING ISLAM** has the contents constructed in a way that will greatly serve the Christian Church. There are many recent books written by Christians about Islam, and there are many books written recently about radical Islam. However, none of these recent books attempts to do what has been done, which is to give an adequate portrayal of Islam, critiqued by history and Christian doctrine, and then culminating in an extensive evaluation of the rise of Radical Islam from a Christian's perspective. **Dispute Processes** Michael Palmer, Simon Roberts, 2020-07-09. This new edition considers a wide range of materials dealing with dispute processes and current debates on civil justice.

Gender, Lifespan and Quality of Life Elizabeth Eckermann, 2013-12-11. This publication addresses the gender dimensions of people's lived experience and emphasizes how gender relationships differentially impact on women's and girls as well as men's and boys' subjective well-being across the lifespan. It therefore fills a significant gap in the literature on quality of life and subjective well-being. The book brings together research which compares female's and male's subjective experiences of well-being at various life stages from a variety of countries and regions, particularly focusing on women's subjective well-being.

being Sex disaggregation of data on objective conditions of quality of life is now routinely undertaken in many countries of the world However despite the burgeoning of objective data on sex differences in life conditions across the world very little gender analysis is carried out to explain fully such difference and there is still a serious dearth of data on gender differences in subjective experiences of quality of life and well being This publication will assist researchers teachers service providers and policy makers in filling some of the gaps in currently available literature on the nexus between age and gender in producing differential experiences of subjective wellbeing *Transition to Advanced Mathematics* Danilo R.
