Fleming, 1992 Presents the results of a measurement study performed at a highway noise barrier

site located along Interstate 495 in Montgomery County Maryland The objective of the study was to measure the degradation in acoustic performance of a highway noise barrier due to the close proximity of a parallel barrier on the opposite side of the roadway The test site selected for measurements consisted of a contiguous arrangement of two parallel reflective noise barriers followed by a single noise barrier Five minute energy averaged A weighted noise levels were computed from data measured simultaneously at identical heights and offset positions behind the single and parallel barrier arrangements A comparison of the measured and predicted results is presented

New Cars & Trucks Buyer's Guide ,2006 Tree Care Industry ,2001 *Electrical Measurements* Henry Smith Carhart,George Washington Patterson,1895 **An Introduction to Western Medical Acupuncture** Adrian White,Mike Cummings,Jacqueline Filshie,2018-04-18 Now in its 2nd edition An Introduction to Western Medical Acupuncture provides a broad evidence based approach to acupuncture when used as part of modern medicine Illustrated throughout it gives the practitioner an essential guide for deciding where and how to treat conditions with acupuncture and how to avoid known risks associated with it Ultimately it provides the practitioner with a tool to develop safe and effective practice For this edition the text has been revised updated and extensively re written A new chapter brings together the understanding of how pain is recognised by the nervous system and how acupuncture can influence these pathways This is followed by six chapters providing detailed explanations of the effects and mechanisms of acupuncture organised according to three recognised treatment approaches needling to produce local changes to generate effects at the level of the spinal segment and to modify the overall function of the nervous system The chapters on the evidence from research have been also updated An explanation of the various mechanisms of acupuncture linked to how they can best be activated by needling Learn the principles of treatment rather than any cook book approach Clear and objective discussion of the evidence for the effectiveness and the risks of acupuncture Thorough and detailed description of all aspects of clinical practice Reference section for quickly reminding the practitioner of the best approach to treating many problems

Complementary therapies for neurological disorders: From bench to clinical practices Yang Ye,Jingling Chang,Shuren Li,Lingyong Xiao,2023-07-03 **Language Origins** Maggie Tallerman,2005-05-27 This book addresses central questions in the evolution of language where it came from how it relates to primate communication how and why it evolved how it came to be culturally transmitted and how languages diversified The chapters are written from the perspective of the latest work in linguistics neuroscience psychology and computer science and reflect the idea that various cognitive physical neurological social and cultural prerequisites led to the development of full human language Some of these evolutionary changes were preadaptations for language while others were adaptive changes allowing the development of particular linguistic characteristics The authors consider a broad spectrum of ideas about the conditions that led to the evolution of protolanguage and full language Some examine changes that occurred in the course of evolution to Homo sapiens others consider how languages themselves have adapted by evolving to be learnable Some chapters look at the

workings of the brain and others deploy sophisticated computer simulations that model such aspects as the emergence of speech sounds and the development of grammar All make use of the latest methods and theories to probe into the origins and subsequent development of the only species that has language The book will interest a wide range of linguists cognitive scientists biologists psychologists neuroscientists and experts in artificial intelligence as well as all those fascinated by issues puzzles and problems raised by the evolution of language

Evidence-based Clinical Chinese Medicine - Volume 28: Endometriosis Meaghan Coyle,Yongxia Wang,2022-01-07 Endometriosis is a chronic health complaint that is experienced by up to 10% of women of reproductive age Endometriosis results in significant psychological and financial burden Surgical and pharmacological management can alleviate symptoms but recurrence of endometriosis within one year is common Many women use complementary and alternative therapies when the response to conventional medical treatments is inadequate The latest book in the Evidence based Clinical Chinese Medicine series uses a whole evidence approach to summarise the management of endometriosis with Chinese medicine treatments The current understanding of endometriosis including symptoms diagnosis and treatment is summarised from conventional medicine and Chinese medicine perspectives Next a systematic approach is used to understand how endometriosis was treated with Chinese medicine in past eras Internationally recognised scientific methods are used to identify and evaluate the clinical evidence for Chinese herbal medicine acupuncture and related therapies The potential mechanisms of herbal medicines are identified from experimental studies The final chapter synthesises the evidence from the different literature sources and offers suggestions for contemporary clinical practice and future research This book is a handy desktop reference for both clinicians and students of Chinese and integrative medicine It provides a comprehensive synthesis of both traditional and contemporary knowledge that can inform clinical decision making

Evidence-based Clinical Chinese Medicine - Volume 25: Rhinosinusitis Brian H May,Wenmin Lin,2022-03-04 This 25th volume of the Evidence based Clinical Chinese Medicine series provides a multifaceted whole evidence analysis of the management of rhinosinusitis sinusitis using integrative Chinese medicine Beginning with an overview of how rhinosinusitis is conceptualised and managed in conventional medicine Chapter 1 the authors summarise the management of rhinosinusitis in contemporary Chinese medicine Chapter 2 based on clinical guidelines and contemporary books The third chapter provides detailed analyses of how rhinosinusitis was treated with herbal medicine and acupuncture in past eras based on the classical Chinese literature The subsequent chapters comprehensively review the current state of the clinical evidence for the integrative application of Chinese herbal medicines Chapter 5 acupuncture therapies Chapter 7 other Chinese medicine therapies Chapter 8 and combination Chinese medicine therapies Chapter 9 as well as analyse and evaluate the results of these studies from an evidence based medicine perspective In Chapter 6 the authors review and summarise experimental evidence for the bioactivity of commonly used Chinese herbs and their constituent compounds The outcomes of these analyses are summarised and discussed in Chapter 10 Implications for clinical

practice and future research are identified This book provides valuable information for clinicians and students in integrative medicine and Chinese medicine regarding contemporary practice and the current evidence base for Chinese medicine therapies for managing rhinosinusitis in order to assist clinicians in making evidence based decisions in patient care It also provides researchers with a comprehensive survey of the state of the field that can inform future directions for clinical and experimental studies
