Re-collection Richard Rinehart, Jon Ippolito, 2014-06-13 The first book on the philosophy and aesthetics of digital preservation examines the challenge posed by new media to our long term social memory How will our increasingly digital civilization persist beyond our lifetimes Audio and videotapes demagnetize CDs delaminate Internet art links to websites that no longer exist Amiga software doesn't run on iMacs In *Re-collection* Richard Rinehart and Jon Ippolito argue that the vulnerability of new media art illustrates a larger crisis for social memory They describe a variable media approach to rescuing new media distributed across producers and consumers who can choose appropriate strategies for each endangered work New media art poses novel preservation and conservation dilemmas Given the ephemerality of their mediums software art installation art and interactive games may be heading to obsolescence and oblivion Rinehart and Ippolito both museum professionals examine the preservation of new media art from both practical and theoretical perspectives offering concrete examples that range from Nam June Paik to Danger Mouse They investigate three threats to twenty first century creativity technology because much new media art depends on rapidly changing software or hardware institutions which may rely on preservation methods developed for older mediums and law which complicates access with intellectual property constraints such as copyright and licensing Technology institutions and law however can be enlisted as allies rather than enemies of ephemeral artifacts and their preservation The variable media approach that Rinehart and Ippolito propose asks to what extent works to be preserved might be medium independent translatable into new mediums when their original formats are obsolete

Saving Lucy Ishbel Rose Holmes, 2018-10-24 This story grabs your heart and never lets go *Saving Lucy* is the true and inspiring story of two creatures in need of healing and rescue who find home in each other Ishbel Rose Holmes was adrift and alone when she set out to bicycle across the world She was pedalling across Turkey when a street dog Lucy crossed her path and changed her life forever Ishbel did not want anything or anyone to slow her down but when she witnessed Lucy attacked by other dogs Ishbel rescued her forming a deep bond between the pair Ishbel recognized her own vulnerability in her new canine friend and launched a heartfelt mission to find Lucy a home and give her a happy life Their adventures took them over 1 000 miles to the Syrian border and into the hearts of everyone who met them People around the world who followed the story on Ishbel's blog *World Bike Girl* watched as Lucy's unconditional love broke down the wall around Ishbel's heart

The One We Fell in Love With Paige Toon, 2023-02-28 In the spirit of Colleen Hoover a sweeping poignant coming of age story about three identical sisters who each fall in love with the same boy next door calling into question everything they know about themselves and their sisterhood Three sisters Three love stories A secret that changes everything Phoebe Eliza and Rose are three identical sisters who couldn't be more different When they're seventeen a beautiful boy moves in next door and nobody is surprised when Angus and Phoebe fall in love Everybody loves Phoebe But is she the sister he's meant to be with When Phoebe spends a summer in the French Alps she meets a man who makes her

wonder the same question Ten years later it s two weeks until Phoebe s wedding when something unexpected changes all of their lives Eliza will have to face a love from her past one that could unmoor her or finally mend her broken heart Meanwhile Rose who has always been the responsible one is ready for change but is she ready for the man fate will bring Angus will always be the boy next door in each of their hearts but who is each sister meant to fall in love with Under an Ionized Sky Elana Freeland,2018-02-13 It is difficult to believe that our planet has been weaponized before our very eyes but that is exactly what has happened First we were seduced by the convenience of a wireless world then atmospheric weather experimentation in the guise of carbons climate change converted the air we breathe into an antenna Now the geo engineering we ve been subjected to for two decades is being normalized as the Star Wars Space Fence rises around and within us Is this the Space Age we were promised MacUser ,1996 **Choreomusicology** Samuel N. Congressional-Executive Commission on China,2009 **HL 111 - Make Or Break: The UK's Digital Future** The Stationery Office,2015 This report is a call to action for the incoming Government in May 2015 The world is being transformed by a series of profound technological changes dominated by digital a second machine age This is already having a significant impact on the UK over the next two decades some economists have estimated that 35% of current jobs in the UK could become automated Digital technology is changing all our lives work society and politics It brings with it huge

opportunities for the UK but also significant risks This demands an ambitious approach which will secure the UK's position as a digital leader The Committee recommends that the new Government establishes a single and cohesive Digital Agenda The potential value in doing so is significant the Government estimated that the digital sector alone was worth an estimated 105 billion in gross value added to the UK in 2011 A report by the National Institute of Economic and Social Research in 2013 meanwhile found that the size of the digital economy was almost double official estimates Whatever the difficulties in quantifying the value it is clear that digital is already a substantial driver for growth and will become much more so Digital technology is transforming much more than just one sector of the economy the whole economy has become digitised It would therefore be a mistake to take the digital sector as our sole focus of interest Digital technology is pervasive across all aspects of life so much so that the digital economy is becoming synonymous with the national economy The UK cannot afford to miss the opportunity or shirk the challenges this presents
