On the Lyricism of the Mind Dana Amir, 2015-12-14 *On the Lyricism of the Mind Psychoanalysis and Literature* explores the lyrical dimension or the lyricism of the psychic space. It is not presented as an artistic disposition but rather as a universal psychic quality which enables the recovery and recuperation of the self. The specific nature of human lyricism is defined as the interaction as well as the integration of two psychic modes of experience originally defined by the psychoanalyst Wilfred Bion. The emergent and the continuous principles of the self. Dana Amir elaborates Bion's general notion of an interaction between the emergent and the continuous principles of the self offering a discussion of the specific function of each principle and of the significance of the various types of interaction between them as the basis for mental health or pathology. The author applies these theoretical notions in her analytic work by means of literary illustrations showing how the lyrical dimension may be used to teach psychoanalytic readings of literature and explore the connection between psychoanalytic and literary languages. *On the Lyricism of the Mind* presents a new psychoanalytic understanding of the capacity to heal to grieve to love and to know using literary illustrations but also literary language in order to extract a new formulation out of the classic psychoanalytic language of Winnicott and Bion. This book will appear to a wide audience to include psychoanalysts psychotherapists and art therapists. It is also extremely relevant to literary scholars including students of literary criticism philosophers of language and philosophers of mind novelists poets and to the wide educated readership in general.

Birth in Kabbalah and Psychoanalysis Ruth Kara-Ivanov Kaniel, 2022-07-05 *Birth in Kabbalah and Psychoanalysis* examines the centrality of birth in Jewish literature gender theory and psychoanalysis thus challenging the centrality of death in Western culture and existential philosophy. In this groundbreaking study Ruth Kara Ivanov Kaniel discusses similarities between Biblical Midrashic Kabbalistic and Hasidic perceptions of birth as well as its place in contemporary cultural and psychoanalytic discourse. In addition this study shows how birth functions as a vital metaphor that has been foundational to art philosophy religion and literature. Medieval Kabbalistic literature compared human birth to divine emanation and presented human sexuality and procreation as a reflection of the sefirotic structure of the Godhead. An attempt Kaniel claims to marginalize the fear of death by linking the humane and divine acts of birth. This book sheds new light on the image of God as the Great Mother and the crucial role of the Shekhinah as a cosmic womb. *Birth in Kabbalah and Psychoanalysis* won the Gorgias Prize and garnered significant appreciation from psychoanalytic therapists in clinical practice dealing with birth trauma postpartum depression and in early infancy distress.

The Interpersonal Perspective in Psychoanalysis, 1960s-1990s Donnel B. Stern, Irwin Hirsch, 2017-02-28 North American psychoanalysis has long been deeply influenced and substantially changed by clinical and theoretical perspectives first introduced by interpersonal psychoanalysis Yet even today despite its origin in the 1930s many otherwise well-read psychoanalysts and psychotherapists are not well informed about the field The *Interpersonal Perspective in Psychoanalysis 1960s 1990s* provides a superb starting point for those who are not as familiar with interpersonal psychoanalysis as they might be For those who already know the literature the book will be useful in placing a selection of classic interpersonal articles and their writers in key historical context During the time span covered in this book interpersonal psychoanalysis was most concerned with revising the understanding of the analytic relationship transference and countertransference and how to work with it Most of the works collected here center on this theme The interpersonal perspective introduced the view that the analyst is always and unavoidably a particular real person and that transference and countertransference need to be reconceptualized to take the analyst's individual humanity into account The relationship needs to be grasped as one taking place between two very particular people Many of the papers are by writers well known in the broader psychoanalytic world such as Bromberg Greenberg Levenson and Mitchell But also included are those by writers who while not as widely recognized beyond the interpersonal literature have been highly influential among interpersonalists including Barnett Schecter Singer and Wolstein Donnel B Stern and Irwin Hirsch prominent interpersonalists themselves present each piece with a prologue that contextualizes the author and their work in the interpersonal literature An introductory essay also reviews the history of interpersonal psychoanalysis explaining why interpersonal thinking remains a coherent clinical and theoretical perspective in contemporary psychoanalysis The *Interpersonal Perspective in Psychoanalysis 1960s 1990s* will appeal greatly to psychoanalysts and psychoanalytic psychotherapists wanting to know more about interpersonal theory and practice than can be learned from current sources

Entering Night Country Stephanie Brody,2015-12-14 None of us will escape the experience of personal loss illness aging or mortality Yet psychoanalysis seems to shy away from a discussion of these core human experiences Existential vulnerability is painful and we all avoid this

awareness in different ways However when analysts fail to explore the topic of mortality their own and their patients they may foreclose an important exploration and short change patient and therapist Entering Night Country focuses on the existential condition and explores how it penetrates professional lives analytic work and theoretical formulations Each chapter explores this topic shifting the lens from analytic process to include theoretical assumptions and professional communities Stephanie Brody shows how the analytic process is a journey no less profound than the epic journeys depicted in the classic literature of Homer and repeated in the patient's own heroic and painful stories Weaving literary references into the clinical experience of psychoanalysis Brody reveals the transformative power of the analytic process for the patient and for the analyst By relating the ancient past to our current struggles psychoanalyst and patient together are guided to a destination a life of meaning in the universe of possibilities Clinical vignettes and personal reflections intersect with motifs from the epic poems and fantasy fiction where the despair of loss and trauma do not extinguish the wish for change and the search for intimacy Entering Night Country highlights the common themes that arise for patient and analyst as any person entering an unknown territory It is intended for psychoanalysts psychoanalytically oriented psychotherapists and mental health clinicians It will also be accessible to those outside the clinical profession even to individuals who have little understanding of psychoanalysis

Psychoanalytic Perspectives on Virtual Intimacy and Communication in Film Andrea Sabbadini, Ilany Kogan, Paola Golinelli, 2018-09-03 Psychoanalytic Perspectives on Virtual Intimacy and Communication in Film brings together a group of psychoanalysts to explore through film the new forms of communication mainly the internet that enter more and more frequently into the affective lives of people their intimacy and even the analytic room The contributors all practising psychoanalysts analyse the potential and surprising transformations that human relationships including psychoanalysis are undergoing At present it is difficult to value the future importance and predict the possible disquieting consequences of the use and abuse of the new technologies we run the risk of finding ourselves unprepared to face this revolutionary transformation in human connections and affects Will it be possible in a near future that human beings prefer to fall in love with a machine gifted with a persuasive voice instead of a psychoanalyst in person The contributors explore the idea that virtual intimacy could begin to replace real life in sentimental and psychoanalytic relationships Imagination and fantasy may be strengthened and may ultimately prevail over the body excluding it entirely Can the voice of the analyst sometimes transmitted only by telephone or computer produce a good enough analytic process as if it were in person or will it help to foster a process of idealisation and progressive alienation from real life and connections with other human beings The film Her 2013 alongside others offers a wonderful script for discussing this matter because of the deep and thoughtful examination of love and relationships in the contemporary world that it provides Psychoanalytic Perspectives on Virtual Intimacy and Communication in Film will be of great interest to all psychoanalysts and psychoanalytic psychotherapists interested in the ongoing impact of technology on human relationships **Timeless**

Grandiosity and Eroticised Contempt Batya Shoshani, Michael Shoshani, 2021-04-26 The challenges and crises that kept resurfacing in Michael and Batya Shoshani's work with extremely difficult patients hunted by anxieties of being and in particular with perverse psychic organization motivated them to write this book. It is an attempt to propose a clinical conceptualisation to enhance their understanding of these lost and confused patients whose narcissistic struggle against human fate defies reality and truth challenging the analyst and the analytic situation. Analysts caught between their own perception of reality and truth and the wish to be empathetic to their patients' experiences and views of reality often feel torn and as if standing on quicksand. Here the authors are joining a contemporary movement in the psychoanalytic tradition whilst turning to other disciplines in order to better understand and explain the suffering of their patients. The use of literature in particular the fictional works of Jorge Luis Borges film with an in depth look at Roman Polanski's *Bitter Moon* 1992 and Denis Villeneuve's *Incendies* 2010 and philosophy the ideas of Heidegger and how they link to those of Freud coupled together with a solid grasp of psychoanalytic theory such as reflections on Neville Symington's seminal theory of narcissism interspersed with real life case studies bring the chapters alive. Such interplay between the detailed clinical material and conceptual formulations to an interdisciplinary dialogue enables a different outlook that will enrich the ongoing professional discourse on these perplexing and illusive psychic phenomena.

Bearing Witness to the Witness Dana Amir, 2018-10-03 *Bearing Witness to the Witness* examines the different methods of testimony given by trauma victims and the ways in which these can enrich or undermine the ability of the reader to witness them. Years of listening to both direct and indirect testimonies on trauma has led Dana Amir to identify four modes of witnessing trauma: the metaphoric mode, the metonymic mode, the excessive mode and the Muselmann mode. In doing so the author demonstrates the importance of testimony in understanding the nature of trauma and therefore how to respond to trauma more adequately in a clinical psychoanalytic setting. To follow these four modes of interaction with the traumatic memory the various chapters of the book present a close reading of three genres of traumatic witnessing: literary accounts by Holocaust survivors, memoirs located between autobiographic recollection and fiction and raw testimonies taken from Holocaust survivors. Since every traumatic testimonial narrative contains a combination of all four modes with various shifts between them it is of crucial importance to identify the singular combination of modes that characterizes each traumatic narrative focusing on the specific areas within which a shift occurs from one mode to another. Such a focus is extremely important as illustrated and analyzed throughout this book to the rehabilitation of the psychic metabolic system which conditions the digestion of traumatic materials allowing a metaphoric working through of traumatic zones that were so far only accessible to repetition and evacuation. *Bearing Witness to the Witness* will appeal to trauma researchers of all research areas including psychologists, psychoanalysts, literary scholars as well as philosophers of language and philosophers of the mind. The book will also be of interest and relevance to clinical psychologists, psychoanalytic candidates and graduate students in literary theory and criticism.

The Routledge International Handbook of Psychoanalysis and Philosophy Aner

Govrin, Tair Caspi, 2022-11-25 The Routledge International Handbook of Psychoanalysis and Philosophy provides a rich panoramic view of what philosophy offers or disturbs in psychoanalysis and what it represents for psychoanalytic theory and practice. The thirty three chapters present a broad range of interfaces and reciprocities between various aspects of psychoanalysis and philosophy. It demonstrates the vital connection between the two disciplines: psychoanalysis cannot make any practical sense if it is not entirely perceived within a philosophical context. Written by a team of world leading experts including established scholars, psychoanalysts and emerging talents, the Handbook investigates and discusses the psychoanalytic schools and their philosophical underpinning as well as contemporary applied topics. Organized into five sections, this volume investigates and discusses how psychoanalysis stands in relation to leading philosophies such as Wittgenstein, Heidegger, Nietzsche and Kant; philosophical perspectives on psychoanalytic schools such as Freud, Klein, Bion, Kohut and Lacan; how psychoanalysis addresses controversial topics in philosophy such as truth, language and symbolism, ethics and theories of mind. The last section addresses contemporary applied subjects in psychoanalytic thought: colonialism, gender, race and ecology. This Handbook offers a novel and comprehensive outlook vital for scholars, philosophers, practicing psychoanalysts and therapists alike. The book will serve as a source for courses in psychoanalysis, philosophy of science, epistemology, ethics, semiotics, cognitive science, consciousness, gender, race, post colonialism, theories, clinical theory, Freud's studies both in universities and psychoanalytic training programs and institutes.

Current Critical Debates in the Field of Transsexual Studies Oren Gozlan, 2018-03-13 *Current Critical Debates in the Field of Transsexual Studies* introduces new thinking on non conforming gender representation, addressing transsexuality as a subjective experience that highlights universal dilemmas related to how we conceive identity and exploring universal questions related to gender, its objects, objections and obstacles. This book seeks to disassemble prejudicial orientations to the challenges and the everydayness of transsexuality and build new understanding and responses to issues including medical biases, the problem of authenticity and the agency of the child. Oren Gozlan leads an examination of three central pressures: transformation of a medical model, the social experience of becoming transgender and the question of self representation through popular culture. The chapters reframe several contemporary dilemmas such as authenticity, pathology, normativity, creativity, the place of the clinic as a problem of authority, the unpredictability of sexuality, the struggle with limits of knowledge, a demand for intelligibility and desire for certainty. The contributors consider sociocultural, theoretical, therapeutic and legal approaches to transsexuality that reveal its inherent instability and fluidity both as concept and as experience. They place transsexuality in tension and transition as a concept, as a subject position and as a subjectivity. The book also reflects the way in which political and cultural change affects self and other representations of the transsexual person and their others, asking how does the subject metabolize the anxieties that relate to these transformations and facilitations. How can the subject respond in contexts of hostility and prohibition? Offering a much needed interdisciplinary exploration, *Current Critical Debates in the Field of*
