(Air Assault) The Sabalauski Air Assault School Handbook & 101st Airborne Division (Air Assault) Gold Book , Air Assault is a
combat insertion unit using helicopters to transport and insert soldiers into battle provide medical evacuation provide close
air support provide resupply operations It is usually a company or bat talion sized element The term Air Assault derives from
two types of operations known as Air Mobility and Vertical Envelopment Air Mobility Operations were de veloped by the
German Army during WWII in the 1930 s The US Army soon adopted this method of offensive operations in 1941 using
wooden gliders The glider was assisted into the air by being towed by a larger aircraft and then released The pilot had to
navigate the large glider loaded with a team of infantry soldiers to the landing zone behind enemy lines at night and attempt
to land safely Once the pilot landed the glider he would join the mission as another infantry soldier with the team that he flew
in Although the gliders and techniques used were advanced for that time period they did pose some disadvantages Once the
aircraft was landed safely that team of soldiers were cut off from allied troops Pilots had to be cross trained with infantry
tactics so he could operate as both roles The air mobility glider was abandoned after WWII after the invention of the
helicopter PREFACE 1 November 2011 1 The Sabalauski Air Assault School TSAAS is a FORSCOM TDA unit that trains
