The effect that the Civil War had on the
United States (1861-1865)

The mid-19th century in the United States was dominated
by the burning question of the Civil War, a conflict
that would determine the future of the nation. The war
from 1861 to 1865, addressed the country's
divided regional loyalties, a period of
struggle and reconstruction.

The admission of the
Missouri Compromise
of 1820, which
allowed the state to
remain a free state.

The Supreme Court, which
ruled in favor of the
slave states, could not
prevent the secession of
the southern states. The
secession of the southern
states, with its anti-slavery
sentiments, and the
secession of the southern
states in 1861, were seen by many in
the North as a direct threat to their way of life and the
constitution of the United States.
