Guided Section 4 Eastern Europe:

Protecting and Promoting Religious Rights in Eastern Europe and the Soviet Union United States. Congress. Senate. Committee on Foreign Relations, 1984 Political Translations on Eastern Europe United States. Joint Publications Research Service, 1968 **Economic Developments in Countries of Eastern Europe**, 1970 **Hate Speech and Human Rights in Eastern Europe** Viera Pejchal, 2020-04-03

Hate Speech and Human Rights Democracies need to understand these terms to properly adapt their legal frameworks Regulation of hate speech exposes underlining and sometimes invisible societal values such as security and public order equality and non discrimination human dignity and other democratic vital interests The spread of hatred and hate speech has intensified in many corners of the world over the last decade and its regulation presents a conundrum for many democracies This book presents a three prong theory describing three different but complementary models of hate speech regulation which allows stakeholders to better address this phenomenon It examines international and national legal frameworks and related case law as well as pertinent scholarly literature review to highlight this development After a period of an absence of free speech during communism post communist democracies have sought to build a framework for the exercise of free speech while protecting public goods such as liberty equality and human dignity The three prong theory is applied to identify public goods and values underlining the regulation of hate speech in the Czech Republic and Slovakia two countries that share a political sociological and legal history as an example of the differing approaches to hate speech regulation in post communist societies due to divergent social values despite identical legal frameworks This book will be of great interest to scholars of human rights law lawyers judges government NGOs media and anyone who would like to understand values that underpin hate speech regulations which reflect values that society cherishes the most *Regional Price Formation in Eastern Europe* J.M. van Brabant, 2012-12-06 This monograph presents a detailed examination of a variety of issues pertaining to pricing in the context of the Council for Mutual Economic Assistance CMEA a designation that I much prefer over Comecon It situates itself within the contours of the pricing problematique that I have recently analyzed as one component of the broader aspects of monetary cooperation essentially among the Eastern European countries see Chapters 4 and 5 of Brabant 1987 The suggestion that I elaborate in detail on the circumstances under which prices for regional trade within the framework of the CMEA are determined was strongly urged by an anonymous referee of Brabant 1986b and Josef Brada the editor of Journal of Comparative Economics Both evidently felt that the comparatively commodity specific pricing issues that I have presented piecemeal in half a dozen articles or so since 1984 had remained too narrow largely configured as they inevitably were by the empirical findings of exercises applied to a small number of commodities as discussed here in Chapter 7 Under the circumstances I saw little point in attempting to set forth these intricate issues in a comprehensive framework Perhaps the central motivation was that many of the regional pricing issues in the CMEA have by and large remained quite obscure and

intractable They might be crucial determinants in some isolated cases as I was trying to verify Democratic Consolidation in Eastern Europe: Volume 2: International and Transnational Factors Jan Zielonka,Alex Pravda,2001-06-14 This is the second volume in a two volume series of books on democratic consolidation in Eastern Europe The first volume focused on the issue of institutional engineering This second volume analyses the external parameters of democratic consolidation in thirteen Eastern European countries how different international actors and various economic cultural and security types of transnational pressures have shaped democratic politics in the region The aim is to contrast a set of democracy theories with empirical evidence accumulated in Eastern Europe over the last ten years The volume tries to avoid complex debates about definitions methods and the uses and misuses of comparative research Instead it seeks to establish what has really happened in the region and which of the existing theories are helpful in explaining these developments The volume is divided into two parts The first part presents a conceptual and comparative frame of analysis the second consists of detailed studies of individual countries undergoing democratic consolidation Case study chapters deal with the following countries Estonia and Latvia Hungary Poland the Czech Republic Slovakia Romania Bulgaria and Macedonia the states of former Yugoslavia Belarus and Ukraine and finally Russia The concluding chapter identifies a set of variables responsible for the enormous impact of external factors on democratic consolidation in Eastern Europe It conceptualises the interplay of internal and external factors impinging upon democracy and shows the interplay of different positive and negative types of external pressures It also evaluates the conscious Western effort to craft or engineer democracy in Eastern Europe **Financial Reform in Central and Eastern Europe** A. W. Mullineux,1996 This book contains 3 major sections 1 Monetary and Exchange Rate Policies in Poland and the ex CSFR 2 The Banking Sector and Enterprise Restructuring including Privatisation and Hardening of Budget Constraints and the Micro Level and 3 Bank Regulatory and Supervisory Issues

Democratic Consolidation in Eastern Europe Jan Zielonka,Alex Pravda,2001 This second volume in a series of books on democratic consolidation in Eastern Europe analyzes the external parameters of such a consolidation in thirteen Eastern European countries It explores how different international actors and various economic cultural and security types of transnational pressures have shaped democratic politics in the region especially over the last decade **East European economies** ,1986 *Occupation and Communism in Eastern European Museums* Constantin Iordachi,Péter Apor,2021-07-29 This volume offers fresh perspectives on the representation of the recent past in museums of the Second World War and of communism in post communist Eastern Europe It does so against the background of recent European wide debates on history memory and politics The contributors from across Europe focus comparatively on a wide variety of case studies pointing out similarities and differences and accounting for transnational patterns of remembrance at regional and European level *Occupation and Communism in Eastern European Museums* argues that museums have a huge influence on the image of the communist past in Eastern Europe It shows how they use a vast array of media tools visual tactics and

commercial strategies in order to substantiate ideological approaches to the past and to shape the attitude of public opinion

Nationalism in Eastern Europe S. Bollerup, C. Christensen, 1997-06-17 Nationalism in Eastern Europe offers a thorough application of theories of nationalism in an analysis of the recent national revivals and conflicts in Eastern Europe The book discusses both microsociological theories from social psychology and economics and macrosociological theories from sociology and political science In a comprehensive comparative analysis these theories are applied to the late Twentieth century experiences of Estonia Moldova Croatia and the former Czechoslovakia In doing so the authors arrive at generalizable explanations of both the prevalence and the potential fatality of nationalism

Statecraft United States. Congress. Senate. Committee on Government Operations. Permanent Subcommittee on Investigations, 1973 **Britain, Poland and the Eastern Front, 1939** Anita J. Prazmowska, 1987-07-23 This book offers a

revisionist interpretation of British foreign policy towards Poland and the role of the Anglo Polish relationship during the period March September 1939 It challenges and questions hitherto held views on the British determination to defend Poland and oppose German expansion eastwards It includes a study of foreign policy economic policy and military planning This book is a major contribution to our knowledge of the outbreak of the war because it contains a unique and original study of the role of the Poles in British proposals for an eastern front and the Polish perception of their relationship with Germany Finally the inconclusive nature of British approaches to the Soviet Union and the Rumanian government are put into the context of the abortive proposal for an eastern front against Germany **Economic Reform and Political Change in**
