How to Empty a Church: The Manual John S. Oldfield,2021-05-24 Many have pontificated about church growth telling church planters and pastors how to increase the number of attendees and members Most have spoken authentically from inspiring experiences and what they ve recommended has worked at least for some But what about advice on how to reduce those numbers how to empty those pews This manual provides just that and its suggestions don t emanate from an ivory tower they too are based on real life experiences The insights and guidelines of How to Empty a Church may be expressed tongue in cheek but they re not fictional they reflect the history of an actual congregation Fasten your seatbelt it s going to be a bumpy but worthwhile ride

The Oxford History of Protestant Dissenting Traditions, Volume V Mark P. Hutchinson,2018-10-18 The five volume Oxford History of Protestant Dissenting Traditions series is governed by a motif of migration out of England It first traces organized church traditions that arose in Britain and Ireland as Dissenters distanced themselves from a state church defined by diocesan episcopacy the Book of Common Prayer the Thirty Nine Articles and Royal Supremacy but then follows those traditions as they spread beyond Britain and Ireland and also analyses newer traditions that emerged downstream in other parts of the world from earlier forms of Dissent Secondly it does the same for the doctrines church practices stances toward state and society attitudes toward Scripture and characteristic patterns of organization that also originated in earlier British and Irish dissent but that have often defined a trajectory of influence independent of ecclesiastical organizations The Oxford History of Protestant Dissenting Traditions Volume V follows the spatial cultural and intellectual changes in dissenting identity and practice in the twentieth century as these once European traditions globalized While in Europe dissent was often against the religious state dissent in a globalizing world could

redefine itself against colonialism or other secular and religious monopolies The contributors trace the encounters of dissenting Protestant traditions with modernity and globalization changing imperial politics challenges to biblical denominational and pastoral authority local cultures and languages and some of the century s major themes such as race and gender new technologies and organizational change In so doing they identify a vast array of local and globalizing illustrations which will enliven conversations about the role of religion and in particular Christianity
